Survivors The Eyes That Burned By Hermann:

European Comics in English Translation Randall William Scott, 2002 European comic authors produced a steady stream of comic material throughout the twentieth century but gained the world's notice in 1975 when the French magazine Metal Hurlant was founded. A new generation of artists and writers had begun. Soon publishers were producing translations of the new comics into other languages including English and comics creators everywhere were inspired to innovation. This is a reference work arranged by artist or writer to European comics from the last quarter of the twentieth century that have been translated from any European language into English. It contains a variety of material from the innocent imperialism of Herge's Tintin to the sadistic murder for hire in Bernet's Torpedo. Albums by a single creator or artist and writer team of European origin are the focus; comics in periodicals and anthologies with multiple contributors are excluded. Each entry provides a plot abstract and various notes about the original comic. An author index provides brief biographical information. There is a comprehensive general index.

The Comics Journal, 1994

We Told You So Tom Spurgeon, Michael Dean, 2016-12-14 In 1976 a fledgling magazine held forth the idea that comics could be art. In 2016 comics intended for an adult readership are reviewed favorably in the New York Times, enjoy panels devoted to them at Book Expo America, and sell in bookstores comparable to prose efforts of similar weight and intent. *We Told You So: Comics as Art* is an oral history about Fantagraphics Books' key role in helping build and shape an art movement around a discredited, ignored, and fading expression of Americana. It includes appearances by Chris Ware, Art Spiegelman, Harlan Ellison, Stan Lee, Daniel Clowes, Frank Miller, and more.

The Rise and Fall of Hermann Goering Willi Frischauer, 1951

Winter of the World Ken Follett, 2012-09-18 This book is truly epic. The reader will probably wish there was a thousand more pages. The Huffington Post: Picking up where *Fall of Giants* the first novel in the extraordinary Century Trilogy left off, *Winter of the World* follows its five interrelated families: American, German, Russian, English, and Welsh through a time of enormous social, political, and economic turmoil beginning with the rise of the Third Reich through the great dramas of World War II and into the beginning of the long Cold War. Carla von Ulrich, born of German and English parents, finds her life engulfed by the Nazi tide until daring to commit a deed of great courage and heartbreak. American brothers Woody and Chuck Dewar each with a secret take separate paths to momentous events: one in Washington, the other in the bloody jungles of the Pacific. English student Lloyd Williams discovers in the crucible of the Spanish Civil War that he must fight Communism just as hard as Fascism. Daisy Peshkov, a driven social climber, cares only for popularity and the fast set until war transforms her life while her cousin Volodya carves out a position in Soviet intelligence that will affect not only this war but also the war to come.

Testimony and Fading Memory in the Holocaust Patrick Dempsey, 2002 A compilation of reactions of the author to works written by Holocaust scholars, victims, survivors, and perpetrators. Presents short quotes from these works followed by his own discursive remarks about thoughts and feelings that these quotes aroused in him. He relates inter alia to the euthanasia killings, ghettos, labor camps, Einsatzgruppen, the
