Michael Benson Virginia Loh-Hagan, 2019-01-01 Could you survive inside a volcano's crater Michael Benson Trapped in a Volcano in the True Survival series explores Benson's shocking survival story The book is written with a high interest level and lower level of complexity to serve more mature students reading at lower levels Clear visuals colorful photographs including images of the survivors and considerate text help with comprehension and wild facts hold the readers interest from the first page to the last This book includes a table of contents glossary index author biography and sidebars **True Survival Tales** BACKPACKER Magazine, 2013-09-01 Struck by lightning Charged by a grizzly Swept into an ice cave Lost and alone Over our 40 year history BACKPACKER readers have been obsessed with survival stories On a visceral level they're dramatic compelling reads But even more importantly survival tales have the power to inform us and move us deeply cutting to the core of the human struggle Almost 100 years later it's still a thrill to read about Ernest Shackleton and the crew of the Endurance's death defying Antarctic struggle or the Donner party's ill fated journey through the Sierra Nevada Mountains We're still captivated by the tenacity innovation and grit that survivors of all stripes show in making it home alive despite the worst of Mother Nature's indifference The stories collected here are perhaps not quite so epic as Shackleton's but that doesn't make them any less dramatic dangerous or real They happened to real hikers and backpackers like you and along with sending tingles down our spines they remind us that in the wilderness nothing is ever truly certain or routine that's part of the point of heading there in the first place And remember these are BACKPACKER stories so that means there's a lesson in each one and real advice that you can take with you into the backcountry so you don't make the same mistakes that these unlucky or lucky survivors made and can find your way home
