Suspicion Was Aroused

Frederick Palmer, Eric Howard

Suspicion Was Aroused:

Explain Me This Adele E. Goldberg, 2019-02-12 Why our use of language is highly creative yet also constrained We use words and phrases creatively to express ourselves in ever changing contexts readily extending language constructions in new ways Yet native speakers also implicitly know when a creative and easily interpretable formulation such as Explain me this or She considered to go doesn't sound quite right In this incisive book Adele Goldberg explores how these creative but constrained language skills emerge from a combination of general cognitive mechanisms and experience Shedding critical light on an enduring linguistic paradox Goldberg demonstrates how words and abstract constructions are generalized and constrained in the same ways When learning language we record partially abstracted tokens of language within the high dimensional conceptual space that is used when we speak or listen Our implicit knowledge of language includes dimensions related to form function and social context At the same time abstract memory traces of linguistic usage events cluster together on a subset of dimensions with overlapping aspects strengthened via repetition In this way dynamic categories that correspond to words and abstract constructions emerge from partially overlapping memory traces and as a result distinct words and constructions compete with one another each time we select them to express our intended messages While much of the research on this puzzle has favored semantic or functional explanations over statistical ones Goldberg's approach stresses that both the functional and statistical aspects of constructions emerge from the same learning mechanisms **The Law Reports of the Incorporated Council of Law Reporting** Great Britain. High Court of Justice. Chancery Division, 1914

Encyclopedia of Deception Timothy R. Levine, 2014-02-20 The Encyclopedia of Deception examines lying from multiple perspectives drawn from the disciplines of social psychology sociology history business political science cultural anthropology moral philosophy theology law family studies evolutionary biology philosophy and more From the little white lie to lying on a resume to the grandiose lies of presidents this two volume reference explores the phenomenon of lying in a multidisciplinary context to elucidate this common aspect of our daily lives Not only a cultural phenomenon historically lying is a frequent occurrence in our everyday lives Research shows that we are likely to lie or intentionally deceive others several times a day or in one out of every four conversations that lasts more than 10 minutes Key Features More than 360 authored by key figures in the field are organized A to Z in two volumes which are available in both print and electronic formats Entries are written in a clear and accessible style that invites readers to explore and reflect on the use of lying and self deception Each article concludes with cross references to related entries and further readings This academic multi author reference work will serve as a general non technical resource for students and researchers within social and behavioral science programs who seek to better understand the historical role of lying and how it is employed in modern society Key Themes Advertising Marketing and Public Relations Animals and Nature Communication Deception in Different Cultures Entertainment Media and Sports Ethics Morality Religion Law Business and Academia Military Politics and Government
