Swedenborg Buddha Of The North:

Swedenborg Daisetz Teitaro Suzuki,1996 This first complete English translation of two works by Zen scholar D T Suzuki introduces Emanuel Swedenborg and compares Swedenborgian thought to Buddhism **The Natural philosophy of**

Emanuel Swedenborg David Duner,2012-07-31 Although Emanuel Swedenborg 1688 1772 is commonly known for his spiritual philosophy his early career was focused unnatural science During this period Swedenborg thought of the world was like a gigantic machine following the laws of mechanics and geometry This volume analyzes this mechanistic worldview from the cognitive perspective by means of a study of the metaphors in Swedenborg s texts The author argues that these conceptual metaphors are vital skills of the creative mind and scientific thinking used to create visual analogies and abstract ideas This means that Swedenborg s mechanistic and geometrical worldview allowed him to perceive the world as mechanical and geometrical Swedenborg thought with books and pens The reading gave him associations and clues forced him to interpret and gave him material for his intellectual development *Buddhism in the Nordic Countries* Jørn

Borup,Mitra Härkönen,Knut A. Jacobsen,Katarina Plank,2025-05-30 This book provides new unprecedented research on Buddhism in the five Nordic countries Denmark Finland Iceland Norway and Sweden Aiming at comparisons between the different Nordic countries the chapters identify possible unique characteristics of Nordic Buddhism uddhism in the Nordic Countries contributes to the growing literature on Buddhism in the West Identifying a number of similar cultural and social trends that have been at work in the Nordic countries the book shows that these have favoured the growth of Buddhism in northern Europe The chapters on each of the Nordic countries describe the establishment of the main Buddhist traditions in the country temple institutions monasteries demography estimation on the number of Buddhists geography economy and funding They discuss tensions between ethnic Buddhist and converts if any and controlling mechanisms of who is a proper Buddhist and how Buddhism should be presented in public space The contributors analyse representation in media and images of Buddhism in popular culture and present relevant scholarly interest in Buddhism Additionally the book includes chapters on significant Buddhist individuals in the Nordic countries who have played major roles in the development of Buddhism The first book to examine the characteristics of Nordic Buddhism its connection to the ideology of the Nordic welfare society and to establish if Nordic Buddhism might differ from other forms of Buddhism this work will be of interest to researchers in the field of religious studies religion in context and Buddhist studies Melville's Intervisionary Network

John Haydock,2016-10-18 The romances of Herman Melville author of Moby Dick and Billy Budd Sailor are usually examined from some setting almost exclusively American European or other planetary contexts are subordinated to local considerations But while this isolated approach plays well in an arena constructed on American exclusiveness it does not express the reality of the literary processes swirling around Melville in the middle of the nineteenth century A series of expanding literary and technological networks was active that made his writing part of a global complex Honor de Balzac

popular French writer and creator of realism in the novel was also in the web of these same networks both preceding and at the height of Melville's creativity. Because they engaged in similar intentions there developed an almost inevitable attraction that brought their works together. Until recently however Balzac has not been recognized as a significant influence on Melville during his most creative period. Over the last decade scholars began to explore literary networks by new methodologies and the criticism developed out of these strategies pertains usually to modernist postcolonial contemporary situations. Remarkably however the intertextuality of Melville with Balzac is quite exactly a casebook study in transcultural comparativism. Looking at Melville's innovative environment reveals meaningful results where the networks take on significant roles equivalent to what have been traditionally classed as genetic contacts.

Intervisionary Network explores a range of these connections and reveals that Melville was dependent on Balzac and his universal vision in much of his prose writing.

Prophet Motive Nancy K. Stalker, 2007-10-31. From the 1910s to the mid 1930s the flamboyant and gifted spiritualist Deguchi Onisabur 1871-1948 transformed his mother-in-law's small rural religious following into a massive movement eclectic in content and international in scope. Through a potent blend of traditional folk beliefs and practices like divination, exorcism, and millenarianism, an ambitious political agenda, and skillful use of new forms of visual and mass media, he attracted millions to Oomoto, his Shintoist new religion. Despite its condemnation as a heterodox sect by state authorities and the mainstream media, Oomoto quickly became the fastest growing religion in Japan of the time. In telling the story of Onisabur and Oomoto, Nancy Stalker not only gives us the first full account in English of the rise of a heterodox movement in imperial Japan but also provides new perspectives on the importance of charismatic entrepreneurship in the success of new religions around the world. She makes the case that these religions often respond to global developments and tensions: imperialism, urbanization, consumerism, the diffusion of mass media in similar ways. They require entrepreneurial marketing and management skills alongside their spiritual authority if their groups are to survive encroachments by the state and achieve national/international stature. Their drive to realize and extend their religious view of the world ideally stems from a prophet rather than profit motive, but their activity nevertheless relies on success in the modern capitalist commercial world. Unlike many studies of Japanese religion during this period, *Prophet Motive* works to dispel the notion that prewar Shinto was monolithically supportive of state initiatives and ideology.

Green Man, Earth Angel Tom Cheetham, 2012-02-01. *Green Man, Earth Angel* explores the central role of imagination for understanding the place of humans in the cosmos. Tom Cheetham suggests that lives can only be completely whole if human beings come to recognize that the human and natural worlds are part of a vast living network and that the material and spiritual worlds are deeply interconnected. Central to this reimagining is an examination of the place of language in human life and art, and in the worldview that the prophetic religions, Judaism, Christianity, and Islam presuppose. If human language is experienced only as a subset of a vastly more than human whole, then it is not only humans who speak but also God and the world with all its creatures. If humans internal poetry and creative

imaginations are part of a greater conversation than language can have the vital power to transform the human soul and the soul of the world itself *Selected Works of D.T. Suzuki, Volume III* Daisetsu Teitaro Suzuki, 2016-08-02 Daisetsu Teitaro Suzuki was a key figure in the introduction of Buddhism to the non Asian world Many outside Japan encountered Buddhism for the first time through his writings and teaching and for nearly a century his work and legacy have contributed to the ongoing religious and cultural interchange between Japan and the rest of the world particularly the United States and Europe This third volume of Selected Works of D T Suzuki brings together a diverse collection of Suzuki s letters essays and lectures about non Buddhist religions and his thoughts on their relation to Buddhism as well as his reflections on the nature of religion itself Some of these writings have been translated into English for the first time in this volume As a long term resident of the United States a world traveler and a voracious consumer of information about all forms of religion Suzuki was one of the foremost Japanese mediators of Eastern and Western religious cultures for nearly seven decades An introduction by Jeff Wilson and Tomoe Moriya analyzes Suzuki s frequent encounters with texts and practitioners of many religions considers how events in Suzuki s lifetime affected his interpretations of Christianity Shinto and other traditions and demonstrates that his legacy as a scholar extends well beyond Buddhism *The Secret Teachers of the Western World* Gary Lachman, 2015-12-08 This epic study unveils the esoteric masters who have covertly impacted the intellectual development of the West from Pythagoras and Zoroaster to the little known modern icons Jean Gebser and Schwaller de Lubicz Running alongside the mainstream of Western intellectual history there is another current which in a very real sense should take pride of place but which for the last few centuries has occupied a shadowy inferior position somewhere underground This other stream forms the subject of Gary Lachman s epic history and analysis *The Secret Teachers of the Western World* In this clarifying accessible and fascinating study the acclaimed historian explores the Western esoteric tradition a thought movement with ancient roots and modern expressions which in a broad sense regards the cosmos as a living spiritual meaningful being and humankind as having a unique obligation and responsibility in it The historical roots of our counter tradition as Lachman explores have their beginning in Alexandria around the time of Christ It was then that we find the first written accounts of the ancient tradition which had earlier been passed on orally Here in this remarkable city filled with teachers philosophers and mystics from Egypt Greece Asia and other parts of the world in a multi cultural multi faith and pluralistic society a synthesis took place a creative blending of different ideas and visions which gave the hidden tradition the eclectic character it retains today The history of our esoteric tradition roughly forms three parts Part One After looking back at the earliest roots of the esoteric tradition in ancient Egypt and Greece the historical narrative opens in Alexandria in the first centuries of the Christian era Over the following centuries it traces our other tradition through such agents as the Hermeticists Kabbalists Gnostics Neoplatonists and early Church fathers among many others We examine the reemergence of the lost Hermetic books in the Renaissance and their influence on the emerging modern mind Part Two begins with the fall

of Hermeticism in the late Renaissance and the beginning of the esoteric counterculture In 1614 the same year that the Hermetic teachings fell from grace a strange document appeared in Kassel Germany announcing the existence of a mysterious fraternity the Rosicrucians Part two charts the impact of the Rosicrucians and the esoteric currents that followed such as the Romance movement and the European occult revival of the late nineteenth century including Madame Blavatsky and the opening of the western mind to the wisdom of the East and the fin de si cle occultism of the Hermetic Order of the Golden Dawn Part Three chronicles the rise of modern esotericism as seen in the influence of Rudolf Steiner Gurdjieff Annie Besant Krishnamurti Aleister Crowley R A Schwaller de Lubicz and many others Central is the life and work of C G Jung perhaps the most important figure in the development of modern spirituality The book looks at the occult revival of the mystic sixties and our own New Age and how this itself has given birth to a more critical rigorous investigation of the ancient wisdom With many detours and dead ends we now seem to be slowly moving into a watershed It has become clear that the dominant left brain reductionist view once so liberating and exciting has run out of steam and the promise of that much sought after paradigm change seems possible We may be on the brink of a culminating moment of the esoteric intellectual tradition of the West

Awareness Bound and Unbound David R. Loy, 2009-07-02 What do we need to do to become truly comfortable at one with our lives here and now In these essays Buddhist social critic and philosopher David R Loy discusses liberation not from the world but into it Loy s lens is a wide one encompassing the classic and the contemporary the Asian the Western and the comparative Loy seeks to distinguish what is vital from what is culturally conditioned and perhaps outdated in Buddhism and also to bring fresh worldviews to a Western world in crisis Some basic Buddhist teachings are reconsidered and thinkers such as Nagarjuna Dogen Eckhart Swedenborg and Zhuangzi are discussed Particularly contemporary concerns include the effects of a computerized society the notion of karma and the position of women terrorism and the failure of secular modernity and a Buddhist response to the notion of a clash of civilizations With his unique mix of Buddhist philosophical insight and passion for social justice Loy asks us to consider when our awareness or attention is bound in delusion and when it is unbound and awakened

Mysticism and Alchemy through the Ages Gary Edson, 2012-09-18 An in depth look into the foundations of mysticism and alchemy this book describes both physical and spiritual aspects of the various theories and practices of transformation with attention to the beliefs of Buddhism Christianity Hinduism Islam Judaism Sufism Tantrism Taoism and Yoga The connection between early mystical pursuits and the development of alchemy from ancient China India and Egypt through Moorish Spain and into Latin Europe are illuminated along with the activities of early alchemists The book which is heavily illustrated describes the beliefs experiments and secret messages that drew the believers and dreamers of the world together in search of wealth and immortality
