Fifth Edition, with Appendix William Wellington Greener, The Gun and Its Development; with Notes on Shooting William Wellington Greener,2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1885 edition Excerpt Colt Revolver and the cartridge cases are removed after firing by working a rammer placed beneath the barrel We illustrate one of the smaller models in Fig 257 It is known as the Bull dog and takes the 380 long cartridge other sizes as 410 442 450 are made but they are heavier and more cumbrous than the English patterns All these revolvers are expensive and as they are not self extracting English revolvers of the best make are preferred to them and they art also much more handy SELF EXTRACTING REVOLVERS The idea of making revolvers self extracting appears to have originated with M Galand a Belgian maker but his ideas were rapidly improved upon Amongst the earlier self extracting revolvers was the Thomas which we illustrate in Fig 258 by turning over the barrel and forcing it forward an inch and a half the fired cases are ejected as shown This is accomplished by having the barrel and chamber to slide along the chamber spindle and body of the pistol the extractor being fast to the spindle retains the cartridge cases until the chamber is clear of them A further improvement is the Self extracting Revolver This principle of ejecting the cases originated we believe with Messrs Smith and Wesson of the United States but it has been improved upon considerably both in England and Belgium We illustrate one of the improved revolvers in Fig 259 The improvement mainly consists in the method of making fast the barrel and chambers to the pistol body and in the

employment of a rebounding cock Large quantities of these revolvers are made in Belgium in imitation of our Bull dog and Irish Constabulary models The English Army Revolver made upon *The Gun and Its Development* William Wellington Greener,1885 GUN & ITS DEVELOPMENT W.
