The Mind On Fire Faith For The Skeptical And Indifferent:

The Mind on Fire Blaise Pascal, 2003-03-20 Blaise Pascal the remarkable seventeenth century mathematician physicist and religious thinker rigorously refutes the belief that to become a Christian you must first commit intellectual suicide He wrote to communicate the Christian faith to the skeptical to the indifferent to the hostile Many regard him as the greatest of French prose writers After his conversion at the age of thirty one Pascal records how his mind blazed with the burning conviction of being overwhelmed with light For many years he had examined God merely as a series of concepts Now he stood before God s presence and the reality of God Himself the same God who had appeared to Abraham Isaac and Jacob It was this that now gave him joy joy joy tears of joy *The Mind on Fire* contains Pascals *Pens es* a systematic and uncompromising defense of Christian belief along with selections from his Letters to a Provincial his own description of his conversion and a prayer for the proper use of pain in his life Dr James M Houston editor of the Classics of Faith and Devotion series is a highly acclaimed scholar and pioneer in the field of evangelical spirituality He came to North America from England in 1968 to lead Regent College in Vancouver Canada a worldwide center of spiritual formation **The Mind on Fire** Blaise Pascal, J. Contextualization and the Old Testament Jerry Hwang,2022-09-26 Christianity is often viewed in Asia as a Western imposition Challenging this Dr Jerry Hwang examines the Old Testament s cultural engagement of its ancient Near Eastern context arguing that Scripture itself provides the ultimate model for contextualizing theology in Asia While it is common for missiological studies to ignore the Old Testament in their discussion of contextualization truly biblical contextualization must include the whole Bible not simply the New Testament This study provides insightful discourse between the Old Testament and various Asian contexts while demonstrating how Asian perspectives can help overcome the Eurocentrism prevalent in Old Testament scholarship This is an ideal resource for scholars and practitioners interested in a biblical perspective of contextualization especially as related to constructing theology that honors the truth of Scripture in the context of Asia

Science and Christianity Tim Reddish,2016-08-15 Too often conversations on Science and Christianity skate over much deeper assumptions or perceptions on the nature and interpretation of Scripture and the nature of science and of God Instead the rhetoric goes quickly towards contentious issues like evolution global warming or genetic engineering without

establishing a framework of mutual understanding. Consequently, conversations can take place between people who completely misunderstand each other because those foundations have not been clearly articulated. In this introductory book, you are invited on a journey of discovery, one that makes us self-aware of our starting assumptions. It is only from a framework of critical engagement with both science and the Bible that contemporary issues and the needs of the church and society can be addressed. While the Creator is one who brings order, this book also reminds us that untamed chaos also has a God-ordained place within creation. The author explores the element of chance that seems to be at the heart of nature and shows how this can be incorporated constructively within Christian thinking. Nature is not mere mechanism and is more open than we might first think. This means that miracles are scientifically plausible and prayer can really change things.
