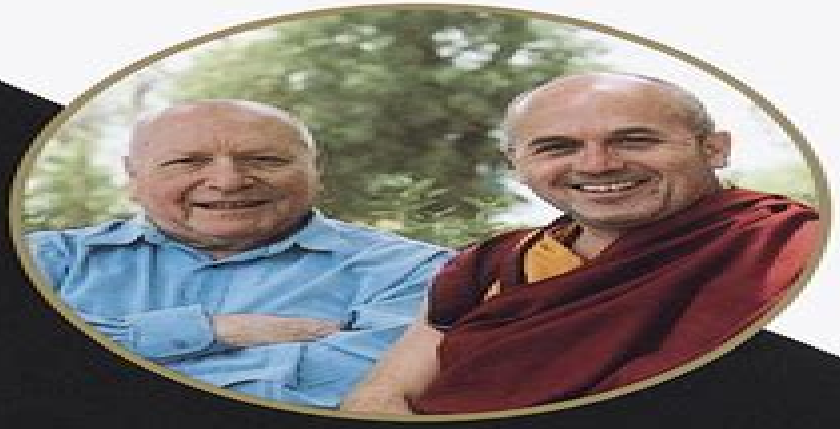
THE MONK AND THE PHILOSOPHER



A FATHER AND SON DISCUSS THE MEANING OF LIFE

JEAN-FRANÇOIS REVEL
AND MATTHIEU RICARD
FOREWORD BY JACK MILES

The Monk And The Philosopher A Father And Son Discuss The Meaning Of Life

Christopher Gowans

The Monk And The Philosopher A Father And Son Discuss The Meaning Of Life:

The Monk and the Philosopher Jean Francois Revel,Matthieu Ricard,2000-02-15 Jean Francois Revel a pillar of French intellectual life in our time became world famous for his challenges to both Communism and Christianity Twenty seven years ago his son Matthieu Ricard gave up a promising career as a scientist to study Tibetan Buddhism not as a detached observer but by immersing himself in its practice under the guidance of its greatest living masters Meeting in an inn overlooking Katmandu these two profoundly thoughtful men explored the questions that have occupied humankind throughout its history Does life have meaning What is consciousness Is man free What is the value of scientific and material progress Why is there suffering war and hatred Their conversation is not merely abstract they ask each other questions about ethics rights and responsibilities about knowledge and belief and they discuss frankly the differences in the way each has tried to make sense of his life Utterly absorbing inspiring and accessible this remarkable dialogue engages East with West ideas with life and science with the humanities providing wisdom on how to enrich the way we live our lives *The Monk and the Philosopher* Jean Francois Revel,Matthieu Ricard,1998 **The Monk and the Philosopher** Jean-François Revel,Matthieu Ricard,1998 In this father son dialogue Revel and Ricard explore the most fundamental questions of human existence and the ways in which they are embraced by Eastern and Western thought In this meeting of minds they touch upon philsophy and spirituality science and politics psychology and ethics They raise the eternal questions Does life have meaning What is consciousness Is man free Why is there suffering war hatred They present and practical answers that offer revolutionary approaches to how we can enrich the way we live our lives **Ineffability and Philosophy** André Kukla,2004-08-02 This book asks whether the notion of there being a truth or a state of affairs or knowledge that can t be expressed linguistically is a coherent notion **Rebirth** Roger R. Jackson,2022-03-22 For anyone interested in what happens after death this is a definitive guide to the concept of rebirth or reincarnation in Buddhism Reincarnation has been a popular belief in cultures throughout the world for many millennia The possibility that we lived before and may be born again whether as a human or in some other form of existence continues to fascinate us and features heavily in popular novels and movies and also as a subject of recent scholarly studies Although Buddhism is one of the religious traditions best known for asserting rebirth the history and scope of Buddhist approaches to the idea has not received comprehensive treatment until now This first ever guide to ideas and practices surrounding rebirth in Buddhism covers the historical context for the Buddha s teachings on the topic explains what Buddhists believe is actually reborn and where surveys rebirth related practices in multiple Buddhist cultures and considers whether all Buddhist traditions agree about what happens after death The book also addresses interpretations of rebirth in modern Buddhist contexts and recent scientific attempts to document reincarnation in conversation with Buddhist beliefs It is in short the first truly comprehensive overview of rebirth across the major Buddhist traditions written by a leading scholar and teacher of Buddhism *Animal Passions and Beastly Virtues* Marc Bekoff,2006

An engaging thoughtful look at the science and ethics of research into animal behavior *The Relevance of the Wisdom Traditions in Contemporary Society* Transnational Network for the Study of Physical, Psychological, and Spiritual Wellbeing. International Conference,Mark Blows,2004 **Overtone Singing** Mark Van Tongeren,2023-02-28 An indispensable guide to a deeper understanding of the nature of the human voice and its harmonic possibilities from East to West Overtone Singing is the most comprehensive book ever written on the hidden harmonies of the human voice Ethnomusicologist and vocalist Mark van Tongeren offers fascinating insights into the timeless and universal aspects of sound and vibration Grounded in the author s decade long study of Asian music the book draws upon field work interviews with Eastern and Western musicians and copious scholarship to present a multidisciplinary vision of sound that runs from global music to the science of acoustics and perception onward to the philosophical and spiritual dimensions of music Written in a nontechnical style this generously illustrated book is an indispensable guide for musicians listeners and performers seeking a deeper understanding of the nature of the human voice and its harmonic possibilities from East to West *The Psychotherapist as Healer* T. Byram Karasu,2001-07-01 T Byram Karasu says that healing at best is not what the healer does but what he is that what really matters are not the schools of psychotherapy but the psychotherapists themselves In this deeply moving and self revealing book Karasu portrays the therapist as healer through a series of clinical vignettes from the treatment of a younger therapist whom the author perceives to be more intelligent talented and better educated than himself This patient a veteran of a classical analysis and two lengthy therapies challenges the therapist at every turn and engages him in a search for new experiential truths The reader is privy to the internal monologue of the therapist as he conceives of and rejects interpretations looks to varied experts for help and ends with an inner voice not heard before Philosophy of the Buddha Christopher Gowans,2004-11-23 Philosophy of the Buddha is a philosophical introduction to the teaching of the Buddha It carefully guides readers through the basic ideas and practices of the Buddha including kamma karma rebirth the not self doctrine the Four Noble Truths the Eightfold Path ethics meditation non attachment and Nibb na Nirvana The book includes an account of the life of the Buddha as well as comparisons of his teaching with practical and theoretical aspects of some Western philosophical outlooks both ancient and modern Most distinctively Philosophy of the Buddha explores how Buddhist enlightenment could enable us to overcome suffering in our lives and reach our full potential for compassion and tranquillity This is one of the first books to introduce the philosophy of the Buddha to students of Western philosophy Christopher W Gowans style is exceptionally clear and appropriate for anyone looking for a comprehensive introduction to this growing area of interest
