Challenging the Secular State Arskal Salim,2008-09-30 Challenging the Secular State examines Muslim efforts to incorporate shari a religious law into modern Indonesia s legal system from the time of independence in 1945 to the present The author argues that attempts to formally implement shari a in Indonesia the world s most populous Muslim state have always been marked by tensions between the political aspirations of proponents and opponents of shari a and by resistance from the national government As a result although pro shari a movements have made significant progress in recent years shari a remains tightly confined within Indonesia s secular legal system The author first places developments in Indonesia within a broad historical and geographic context offering a provocative analysis of the Ottoman empire s millet system and thoughtful comparisons of different approaches to pro shari a movements in other Muslim countries Saudi Arabia Iran Pakistan He then describes early aspirations for the formal implementation of shari a in Indonesia in the context of modern understandings of religious law as conflicting with the idea of the nation state Later chapters explore the efforts of Islamic parties in Indonesia to include shari a in national law Salim offers a detailed analysis of debates over the constitution and possible amendments to it concerning the obligation of Indonesian Muslims to follow Islamic law A study of the Zakat Law illustrates the complicated relationship between the religious duties of Muslim citizens and the nonreligious character of the modern nation state Chapters look at how Islamization has deepened with the enactment of the Zakat Law and demonstrate the incongruities that have emerged from its implementation The efforts of local Muslims to apply shari a in particular regions are also discussed Attempts at the Islamization of laws in Aceh are especially significant because it is the only province in Indonesia that has been allowed to move toward a shari a based system The book concludes with a review of the profound conflicts and tensions found in the motivations behind Islamization **The Ashgate Research Companion to**

War, Peace and Progress in the 21st Century Mark Berger, Heloise Weber, 2013-09-13 The history of development is one marked by insecurities violence and persistent conflict It is not surprising therefore that development is now thought of as one of the central challenges of world politics However its complexities are often overlooked in scholarly analysis and among policy practitioners who tend to adopt a technocratic approach to the crisis of development and violence This book brings together a wide range of contributions aimed at investigating different aspects of the history of development and violence and its implications for contemporary efforts to consolidate the development security nexus From environmental concerns through vigilante citizenship to the legacies of armed conflicts during and after decolonization the different chapters reconstruct the contradictory history of development and critically engage contemporary responses and their implications for social and political analyses In examining violence and insecurity in relation to core organising principles of world politics the contributors engage the problems associated with the nation state and the inter state system and underlying assumptions of the promises of progress The book offers a range of perspectives on the contradictions of development and on how domination violence and resistance have been conceived At the same time it exemplifies the relevance of alternative methodological and conceptual approaches to contemporary challenges of development This book was published as a special issue of Third World Quarterly
