The Multiverse Of Democracy:

The Multiverse of Democracy D. L. Sheth, Ashis Nandy, 1996 Beyond the Secular Andrea Cassatella, 2023-09-01

Through an in depth critical analysis of Jacques Derrida's later writings *Beyond the Secular* examines the contemporary nexus between religion and politics Reconnecting these writings to his early works Andrea Cassatella explores distinctive topics that are thematically linked by the theological political problematic and theoretically informed by Derrida's relational approach to language time religion and politics The result is a critical investigation into under examined assumptions of modern secular discourse that questions its binary logics and illuminates such discourse's exclusionary character by tracing its roots in racialized understandings about language epistemology politics and religion that travel worldwide through global processes of assimilatory translation By exposing the discriminatory hierarchies that the Western Christian sexualized and racialized presuppositions of secular discourse keep producing and maintaining Cassatella ultimately sheds light on the deep entanglements of secularism with the legacy of race and colonialism *Development Ethics* Prasenjit Maiti, 2008 With

special reference to India **The Dynamics of States** Klaus Schlichte, 2016-12-05 State domination in the non Western world is hallmarked by its constantly shifting character This stimulating book develops a new approach to the study of state formation and state erosion to explain dynamics that neither follow the pathways of development nor the rule of stagnation that dependency theory once suggested Carefully edited by Klaus Schlichte this book provides a fresh angle to the study of states with an attempt to overcome Weber with Weber The approach focuses on the historical authenticity of states and their institutional frameworks describing the trajectories taken as they react to the effects of changes in their international and local social environments The emphasis laid on the specific characteristics of individual states does not however lead to the theoretical difficulty of a new contextual relativism The conceptual design employs sociological categories developed by Max Weber Norbert Elias Michel Foucault Pierre Bourdieu and others **India in the Contemporary World** Jakub

Zajęczkowski, Jivanta Schottli, Manish Thapa, 2015-07-17 This book brings together Indian and European perspectives on India's polity economy and international strategy It explores internal regional and global determinants shaping India's status position and goals in the early 21st century Through an array of methodological and theoretical approaches it presents debates on democracy economic development foreign and security policy and the course of India European Union relations The volume will prove invaluable to scholars and students of international relations politics economics history and development studies as well as policy makers and economists *Environment : Problems And Policies (encyclopaedia Of Environment)*, Vol# 2 Ed. Problems Related To Environment That Are Of Primary Concern It Is Highly Likely That Environmental Degradation Would Reduce The Capacity Of Human Societies To Maintain Their Lifestyles At Existing Levels Since The Driving Forces Of Global Economy May No Longer Be Able To Use In Sustained Manner The Limited Resources Of The Earth Although The Consequences Of Environmental Degradation Are Sometimes Not Recognized But In Many Cases They Are Intentionally Ignored Because Of The Illusory Higher Economic Gains Realising The Urgent Need For Arresting The Trend For Developing Awareness In The Readers About The Preservation Of Biodiversity And Its Significance For Life Sustainability And Equity And For Warning Against The Consequences Of Environmental Exploitation As Well The Present Encyclopaedia Of Environment Has Been Compiled It Not Only Studies The Problems Related To Environment But Also Suggests Suitable Remedial Measures Attempts Have Been Made To Include In These Well Documented Volumes All The Latest Major Policies Adopted By The United Nations Organisation And Its Affiliated Agencies As Well As By The Developed And Developing Countries Across The World The First Four Volumes Of The Encyclopaedia Include Papers On Environment Glossary Of Global Warming And A Detailed Bibliography To Enable The Readers To Pursue The Study Further The Following Five Volumes Include International Regional And National Conventions Protocols Treaties And Agreement Relating To Environment And The Indian Laws For Clean Environment And Pollution Control The Book Would Be Highly Useful For Students And Researchers Engaged In The Study Of Environment It Would Also Be Useful To Government Executives And Ngos Concerned With Environment And Pollution Problems Since The Laymen Are Deeply Interested In Clean Environment The Book Would Be Of Great Interest To Them

New Critical Writings in Political Sociology Alan Scott, 2017-03-02 In the third and final volume of this series we examine the implications of the accelerating globalization process for the nation state Are globalization the rise of regional and international institutions and the international agreements on human rights actually reducing and transforming state sovereignty Clearly ethnic racial and religious identities remain salient but how do they correspond to intersect with and overflow continuous nation state spaces that are demarcated by legally recognized borders In what conditions do democratic state building projects actually enhance political civil and social rights and when do they tend to contribute to the consolidation of elite power Should democratic forces put their faith in a cosmopolitan vision of global citizenship especially when they tackle quintessentially international and transnational problems like peace aboriginal rights and the protection of the environment In this volume s collection of contemporary political sociologists key articles we present work that explores the exposure of the nation state and the post World War II world system to global forces

The Politics and Culture of Globalisation Hans Löfgren, Prakash Sarangi, 2017-08-18 We experience the culture of globalisation every time we visit a Tandoori restaurant in Chicago or a Pizza Hut in Hyderabad or as we watch Bollywood films in Australia Globalisation is a label used for a wide range of political social and cultural phenomena many of which are explored in this volume The Politics and Culture of Globalisation India and Australia brings together Indian and Australian

experts in the fields of political science international relations philosophy cultural theory and political economy Its timeliness and unifying theme derive from comparisons between Indian and Australian perspectives and analyses by Australian writers on developments in India Indian Australian relations are explored in several chapters The neo liberal form of globalisation is a key focus of critique in this volume Several chapters examine the search for alternative forms of governance as the nation state undergoes profound change due to global interconnectedness
