The Mysterious Past:

The Mysterious Past Robert Charroux, 1975 *Competence of the Mysterious Civilization Builder of Gunung Padang* Adhitya Dwipayana Raspati, 2022-12-18 The Independent Research Integrated Team is a group of scientists who carried out archaeological research on the Gunung Padang Megalithic Site from 2011 to 2014 using relevant modern methodologies in archaeological research. In their research, they found several anomalies and findings that were beyond imagination, including on the outside of the giant Punden Berundak construction of Gunung Padang, found ancient cement, ancient metallurgy, anti-earthquake construction system, building orientation, strong magnetic anomaly on one of the top terraces, artefacts made of composite materials that have one magnetic pole, transmitter, keystone, rolling stone, and so on. In addition, on the inside of Gunung Padang, a large geological element object has a high level of hardness that has a high magnetic field, four rooms, a water channel, and it is estimated that there is some kind of hydroelectric energy generator. The absolute age of Gunung Padang is based on the results of an independent laboratory analysis which coincides with the last ice age. The civilization of the builders and users of Gunung Padang in its time was not a primitive civilization; it is very possible they are an established civilization and are on the cusp of science that may be wiped out by natural disasters and erased in human history.

The Spectacular Past Maurice Samuels, 2018-08-06 Struggling to make sense of the Revolution of 1789, the French in the nineteenth century increasingly turned to visual forms of historical representation in a variety of media. Maurice Samuels shows how new kinds of popular entertainment introduced during and after the Revolution transformed the past into a spectacle. The wax display in which visitors circulated amid life-size statues of historical figures, the phantasmagoria show in which images of historical personages were projected onto smoke or invisible screens, and the panorama in which spectators viewed giant circular canvases depicting historical scenes employed new optical technologies to entice crowds of spectators. Such entertainments, Samuels asserts, provided bourgeois audiences with an illusion of mastery over the past, allowing them to picture their new role as historical agents. Samuels demonstrates how the spectacular mode of historical representation pervaded historiography, drama, and the novel during the Romantic period. He then argues that the early Realist fiction of Balzac and Stendhal emerged as a critique of the spectacular historical imagination. By investigating how postrevolutionary France

envisioned the past Samuels illuminates a vital moment in the cultural history of modernity
