The Maxims in the Novels of Duclos B.G. Silverblatt, 2012-12-06 **The Maxims in the Novels of Duclos** B.G. Silverblatt, 2012-04-12 **The Facts on File Companion to the French Novel** Karen L. Taylor, 2006 French novels such as *Madame Bovary* and *The Stranger* are staples of high school and college literature courses This work provides coverage of the French novel since its origins in the 16th century with an emphasis on novels most commonly studied in high school and college courses in world literature and in French culture and civilization *The Backward Look* Angelica Goodden, 2017-12-02 Theories of memory and fictional recreations of the remembering mind have occupied a central place in French literature since Montaigne The author investigates the shifting relation between cognitive or scientific memory and emotional or spiritual recollection in a series of major writers from the 16th to the 20th centuries Her study focuses on the 18th century where the interplay between memory and imagination and the link between self knowledge and self presentation are shown to be exceptionally fertile The philosophical scientific and fictional writings of Diderot and the novels and autobiographical works of Rousseau are central to this ground breaking work which should be of interest to all readers concerned with the specificity of the French literary tradition [Catalog of Copyright Entries. Kafker, 1988 Although the *Encyclopédie* is one of the landmarks of eighteenth century thought and one of the most famous encyclopedias of all time most of its collaborators are scarcely known This is unfair and misleading the editors Diderot and d'Alembert were able directors and prolific contributors but they needed the help of many others to complete such an ambitious and trying enterprise This biographical dictionary also seeks to deepen our knowledge of the Encyclopedists Scholars frequently generalise about the contributors social background politics religious beliefs and other matters without being able to speak knowledgeably about many more than a dozen Encyclopedists But as we shall see the Encyclopedists do not lend themselves to stereotypes They were not a sect of like minded thinkers even though contemporaries and later historians believed otherwise Some of them met at such salons as the baron d'Holbach's and madame d'Epinay's or at such learned societies as the Académie royale des sciences or the Académie française but others did not know each other and they certainly did not try to coordinate policies Even if they had they would have failed These biographical profiles indicate that the Encyclopedists were not united by a common social background occupation or ideology Dissimilarities among the Encyclopedists are not surprising considering how they came to write for the enterprise At the start the publishers and their first editor Jean Paul de Goussier recruited people to help them revise and translate Ephraim Chambers' *Cyclopaedia* After Diderot and d'Alembert had assumed the editorship the work took on a polemical purpose to reform the Old Regime But it also remained a general encyclopedia requiring contributors with a knowledge of such non controversial subjects as the harp wood engraving or bridge building Also on controversial subjects the editors accepted contributions that differed from
