makes the challenging and compelling case that psychiatrists need to promote the significance of narrative in their practice as well. Narrative already holds a prominent place in psychiatry. Patient stories are the foundation for diagnosis and the key to managing treatment and measuring its effectiveness. Even so, psychiatry has paid scant scholarly attention to the intrinsic value of patient stories. Fortunately, the study of narrative outside psychiatry has grown exponentially in recent years and it is now possible for psychiatry to make considerable advances in its appreciation of clinical stories. Narrative Psychiatry picks up this intellectual opportunity and develops the tools of narrative for psychiatry. Lewis explores the rise of narrative medicine and looks closely at recent narrative approaches to psychotherapy. He uses philosophic and fictional writings such as Anton Chekhov's play *Ivanov* to develop key terms in narrative theory: plot, metaphor, character, point of view, and to understand the interpretive dimensions of clinical work. Finally, Lewis brings this material back to psychiatric practice, showing how narrative insights can be applied in psychiatric treatments, including the use of psychiatric medications. Nothing short of a call to rework the psychiatric profession, Narrative Psychiatry advocates taking the inherently narrative-centered patient-psychiatrist relationship to its logical conclusion, making the story a central aspect of treatment.

Between Their World and Ours Karen Zelan, 2007-04-01. Autism has reached epidemic proportions. The latest studies suggest that as many as one in 150 children ages ten and younger may be affected by autism; a total of 300,000 children in the United States alone. Adults included, there are more than a million people in the United States suffering from autistic disorders. Since autism has had a bleak prognosis and since the isolation of autistic children is so painful to parents, Karen Zelan's accounts of her breakthroughs with autistic children in *Between Their World and Ours* present a particularly hopeful perspective. Zelan illustrates how diagnostic labels reflect the preconceptions and prejudices of the diagnostician but reveal nothing about the unique person who carries the label and his potential as a human being. Describing nine of the forty-five autists with whom she has worked, Zelan documents how psychotherapy with autistic youth helps them to overcome their problems in communicating, playing, feeling, thinking, and interacting with people more companionably. Her riveting narratives showing her growing understanding of her young patients capture how it is to be autistic. She describes the ways these young people meet the challenges of being the way they are. Her work demonstrates how the social context in which autistic children find themselves can make a significant difference in their development, their self-esteem, and their ability to think through problems in living. Zelan, a gifted and intuitive psychotherapist, shows how the autistic's sense of self emerges during childhood. She details how these autistic children's first friendships originate, the pitfalls and pleasures they experience in relating to their peers, their dreams, and their fears of social contact. These real-life stories reveal what worked with autistic children and why. Zelan offers prescriptive suggestions for parents and teachers based on her discoveries, demonstrating humane ways of dealing with the often troubling problems of autism and of closing the gap between their world and ours. Erikson on Development in Adulthood Carol Hren Hoare, 2001-12-13. Erik Erikson (1902-1994) was one of the most eminent and prolific

psychologists of the 20th century Over his long career he published a dozen books including classics such as *Childhood and Society* *Identity Youth and Crisis* and *Young Man Luther* He was awarded the Pulitzer Prize and the National Book Award in 1970 for his biography *Gandhi's Truth* It was also in 1970 when he retired from Harvard University that Erikson began to rethink his earlier theories of development He became increasingly occupied with the conflicts and challenges of adulthood a shift from his earlier writings on the identity crises of adolescence For the past twenty years Carol Hoare has written extensively on various aspects of Erikson's work She has been aided by access to Erikson's unpublished papers at Harvard as well as cooperation with Joan Erikson the psychologist's wife and longtime collaborator By reconstructing Erikson's theory of adulthood from his unpublished papers Hoare provides not only a much needed revision of Erikson's work but also a glimpse into the mind of one of the 20th century's most profound thinkers

My Age of Anxiety Scott Stossel, 2014-01-07 A riveting revelatory and moving account of the author's struggles with anxiety and of the history of efforts by scientists philosophers and writers to understand the condition As recently as thirty five years ago anxiety did not exist as a diagnostic category Today it is the most common form of officially classified mental illness Scott Stossel gracefully guides us across the terrain of an affliction that is pervasive yet too often misunderstood Drawing on his own long standing battle with anxiety Stossel presents an astonishing history at once intimate and authoritative of the efforts to understand the condition from medical cultural philosophical and experiential perspectives He ranges from the earliest medical reports of Galen and Hippocrates through later observations by Robert Burton and Søren Kierkegaard to the investigations by great nineteenth century scientists such as Charles Darwin William James and Sigmund Freud as they began to explore its sources and causes to the latest research by neuroscientists and geneticists Stossel reports on famous individuals who struggled with anxiety as well as on the afflicted generations of his own family His portrait of anxiety reveals not only the emotion's myriad manifestations and the anguish anxiety produces but also the countless psychotherapies medications and other often outlandish treatments that have been developed to counteract it Stossel vividly depicts anxiety's human toll its crippling impact its devastating power to paralyze while at the same time exploring how those who suffer from it find ways to manage and control it *My Age of Anxiety* is learned and empathetic humorous and inspirational offering the reader great insight into the biological cultural and environmental factors that contribute to the affliction

"Something Urgent I Have to Say to You" Herbert Leibowitz, 2024-05-01 Herbert Leibowitz's *Something Urgent*

I Have to Say to You provides a new perspective on the life and poetry of the doctor poet William Carlos Williams a key American writer who led one of the more eventful literary lives of the twentieth century Friends with most of the contemporary innovators of his era Ezra Pound James Joyce Ford Madox Ford and Louis Zukofsky among others Williams made a radical break with the modernist tradition by seeking to invent an entirely fresh and singularly American poetic whose subject matter derived from the everyday lives of the citizens and poor immigrant communities of northern New Jersey His poems mirrored both the conflicts of his own life and the convulsions that afflicted American society two world wars a rampaging flu pandemic and the Great Depression Leibowitz's biography offers a compelling description of the work that inspired a seminal controversial movement in American verse as well as a rounded portrait of a complicated man pugnacious and kindly ambitious and insecure self critical and imaginative *Something Urgent I Have to Say to You* is both a long overdue assessment of a major American writer and an entertaining examination of the twentieth century avant garde art and poetry scene with its memorable cast of eccentric pioneers including Marcel Duchamp Man Ray Marianne Moore and Gertrude Stein
