Laurie, 2010-08-09 **The Official EPAKS Guide to Long Form Three** EPAKS Publications, 2022-11-04 Long Form Three is a very distinct and easily recognizable American Kenpo form But did you know Long Form Three was also packed with information This book contains a wealth of knowledge never before uncovered by any other source of reference In this book you will learn not only the form s proper execution but also its history a detailed analysis of its place within American Kenpo and quizzes about the form that will test even the most experienced Think you are up to the quiz challenge THINK AGAIN Be ready to uncover a trove of hidden secrets and have all your questions answered readily available and at your fingertips This guide is artfully crafted to be used by not only the beginner to intermediate student but also by the most seasoned of practitioners and instructors And finally this book is presented to you by the gold standard in American Kenpo guides EPAKS *Fighting the Fleet* Jeffrey R Cares, Anthony Cowden, 2020-12-15 *Fighting the Fleet* recognizes that fleets conduct four distinct but interlocking tasks at the operational level of war striking screening scouting and basing and that successful operational art is achieved when they are brought to bear in a cohesive competitive scheme In explaining these elements and how they are conjoined for advantage a central theme emerges despite the utility and importance of jointness among the armed forces the effective employment of naval power requires a specialized language and understanding of naval concepts that is often diluted or completely lost when too much jointness is introduced Woven into the fabric of the book are the fundamental principles of three of the most important naval theorists of the twentieth century Rear Admiral Bradley Fiske Rear Admiral J C Wylie and Captain Wayne Hughes While Cares and Cowden advocate the reinvigoration of combat theory and the appropriate use of operations research they avoid over theorizing and have produced a practical guide that empowers fleet planners to wield naval power appropriately and effectively in meeting today s operational and tactical challenges *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office, 1977 The Publishers' Trade List Annual , 1981 **Military Strategy in an Era of Unipolar Demise** Håkan Edström, Jacob Westberg, 2024-11-15 This book presents a systematic comparison of the military strategies pursued by five great powers eight major middle powers and eight middle powers during the early twenty first century In addition to mapping the strategic priorities of these states the study develops and applies a theoretical framework to explain differences and similarities in their strategic priorities Moreover the work evaluates how the stability of the present international system and the US led liberal international order LIO is affected by the strategies pursued by the US and other leading states The book aims to contribute to previous research in three ways First it intervenes in the debate on the stability of the unipolar system and the US led international order by offering a theoretical framework and an empirical approach for exploring and explaining the strategic priorities and defence strategies of different categories of states Second it aims to fill a void in research on strategy the lack

of a comparative and systematic approach to contemporary strategy that facilitates and guides systematic comparisons and analyses of the alignment and military strategies pursued by both major powers and less powerful states Third it provides an empirical contribution to the debate on the stability of the unipolar system and the US led international order by presenting a documentation of the strategic priorities of 21 states based on primary sources consisting of official documents such as national security and defence strategies and defence bills In the conclusion the authors summarise the empirical findings on the system level the regional level and the unit level and present their overarching conclusions for the whole project This book will be of much interest to students of military and strategic studies defence studies foreign policy and international relations in general **Scholastic Coach** ,1985 *Offense and Offensiveness* Andrew Sneddon,2020-11-02 This book offers a comprehensive study of the nature and significance of offense and offensiveness It incorporates insights from moral philosophy and moral psychology to rationally reconstruct our ordinary ideas and assumptions about these notions When someone claims that something is offensive others are supposed to listen Why What is it for something to be offensive Likewise it s supposed to matter if someone claims to have been offended Is this correct In this book Andrew Sneddon argues that we should think of offense as a moralized bad feeling He explains offensiveness in terms of symbolic value We tend to give claims of both offense and offensiveness more credence than they deserve While it is in principle possible for there to be genuine moral problems of offense and offensiveness we should expect such problems to be rare *Offense and Offensiveness A Philosophical Account* will be of interest to scholars and students working in moral philosophy and moral psychology
