Genghis Khan and the Quest for God Jack Weatherford, 2017-10-03 A landmark biography by the New York Times bestselling author of Genghis Khan and the Making of the Modern World that reveals how Genghis harnessed the power of religion to rule the largest empire the world has ever known Throughout history the world's greatest conquerors have made their mark not just on the battlefield but in the societies they have transformed Genghis Khan conquered by arms and bravery but he ruled by commerce and religion He created the world's greatest trading network and drastically lowered taxes for merchants but he knew that if his empire was going to last he would need something stronger and more binding than trade He needed religion And so unlike the Christian Taoist and Muslim conquerors who came before him he gave his subjects freedom of religion Genghis lived in the 13th century but he struggled with many of the same problems we face today How should one balance religious freedom with the need to reign in fanatics Can one compel rival religions driven by deep seated hatred to live together in peace A celebrated anthropologist whose bestselling Genghis Khan and the Making of the Modern World radically transformed our understanding of the Mongols and their legacy Jack Weatherford has spent eighteen years exploring areas

Christoph Baumer, 2016-05-30 Between the ninth and the fifteenth centuries Central Asia was a major political economic and cultural hub on the Eurasian continent In the first half of the thirteenth century it was also the pre eminent centre of power in the largest land based empire the world has ever seen This third volume of Christoph Baumer's extensively praised and lavishly illustrated new history of the region is above all a story of invasion when tumultuous and often brutal conquest profoundly shaped the later history of the globe The author explores the rise of Islam and the remarkable victories of the Arab armies which inspired by their vital austere and egalitarian desert faith established important new dynasties like the Seljuks Karakhanids and Ghaznavids A golden age of artistic literary and scientific innovation came to a sudden end when between 1219 and 1260 Genghis Khan and his successors overran the Chorasmian Abbasid lands Dr Baumer shows that the Mongol conquests while shattering to their enemies nevertheless resulted in much greater mercantile and cultural contact between Central Asia and Western Europe *The Age of Wars of Religion, 1000-1650* Cathal J. Nolan, 2006-04-30 The Age of Wars of Religion saw navies armies armed merchant companies and mercenaries battle one another and local potentates in many lands and along numerous shores Wars of religion were fought in and between all the major religions and civilizations from Europe to China in Africa and in the isolated Americas mixing motives of knightly idealism mercenary greed and competing claims of divine sanction This unparalleled work traces the extraordinary upheavals of the period in military technology competing theologies and civilizational change that were brought about by or impinged upon military conflict It offers nearly 2 000 discrete but cross referenced entries on cultural military religious and political history as well as geography biography and military literature Close to 2 000 entries offer detailed information on the major events places battles figures technologies and ideas one must know to begin to make sense of the past six centuries of global conflicts Though especially ferocious and intense the Wars of Reformation and Counter Reformation fought by Europeans from the 15th through 17th centuries were hardly unique in world or military history The Byzantine Empire bastion of Christian Orthodoxy staggered to the tortuous end of its long conflict with the Ottoman Empire the Great Power of the Sunni Muslim world The Ottomans in turn were still engaged in an equally ancient intra Muslim war between Sunnis and Shi'ites In India the Hindu Rajputs and Marathas and also the Sikhs organized armies around religious communities to throw off the Muslim Yoke Mughul Empire and also fought against Christian invaders from Europe As for the isolated Americas ideas of divine kingship sustained by powerful priesthoods and religious warfare also prevailed as exemplified by the Inca and Aztec empires

Timbuktu and the Songhay Empire 'Abd al-Rahmān ibn 'Abd Allāh al- Sa'dī, 1999-01-01 The other contemporary

documents included are a new English translation of Leo Africanus's description of West Africa some letters relating to Saadian diplomacy and conquests in the Sahara and Sahel al Ifrani's account of Saadian conquest of Songhay and an account of this expedition by an anonymous Spaniard
