Essential Motivation Handbook Leo Babauta, Eric Hamm, 2010-03-21 I've long wanted to put together a motivation book I get emails and comments from readers every day in need of motivation to reach a goal to stay focused to exercise to be productive to just get up off their butts and do something But I wanted to add something add value greater than I already offer on Zen Habits And so I turned to Eric Hamm of the Motivate Thyself blog and found the perfect partner for this book Eric writes about motivation all the time it's the lifeblood of his blog and what he lives every day He knows motivation as well as I do The two of us have accomplished a lot working for others and working for ourselves We've had plenty of failures and through these failures have learned tons about motivation and about ourselves It's from these failures that we've gathered the attitudes and methods that actually work that have given us the motivation needed to achieve our goals It's our hope that we'll pass on some of this practical advice to you and that you'll go on to use it to achieve great things yourself Even if you've already achieved great things at the very least I know this book will serve as a basic reminder and give you a little shove when you need it I recommend using this book like this read it in little bits and put them into action And when you need a bit of motivation pull it up and read some more and then get your butt into action again Good luck my friends and may all your dreams become reality *Handbook of Motivation Science* James Y.
