Storytelling in Christian Art from Giotto to Donatello Jules Lubbock, 2006-01-01 Recounting the biblical stories through visual images was the most prestigious form of commission for a Renaissance artist In this book Jules Lubbock examines some of the most famous of these pictorial narratives by artists of the caliber of Giovanni Pisano Duccio Giotto Ghiberti Brunelleschi Donatello and Masaccio He explains how these artists portrayed the major biblical events such as the Sacrifice of Isaac the Annunciation the Feast of Herod and the Trial and Passion of Jesus so as to be easily recognizable and at the same time to capture our attention and imagination for long enough to enable us to search for deeper meanings He provides evidence showing that the Church favoured the production of images that lent themselves to being read and interpreted in this way and he describes the works themselves to demonstrate how the pleasurable activity of deciphering these meanings can work in practice This book is richly illustrated and many of its photographs have been specially taken to show how the paintings and relief sculptures appear in the settings for which they were originally designed Seen from these viewpoints they become more readily intelligible Likewise the starting point and the originality of Lubbock's interpretations lies in his accepting that these works of art were primarily designed to help people to reflect upon the ethical and religious significance of the biblical stories The early Renaissance artists developed their highly innovative techniques to further these objectives not as ends in themselves Thus the book aims to appeal to students scholars and the general public who are interested in Renaissance art and to those with a religious interest in biblical imagery **Routledge Revivals: Medieval Italy (2004)** Christopher Kleinhenz, 2017-07-05 First published in 2004 Medieval Italy An Encyclopedia provides an introduction to the many and diverse facets of Italian civilization from the late Roman empire to the end of the fourteenth century It presents in two volumes articles on a wide range of topics including history literature art music urban development commerce and economics social and political institutions religion and hagiography philosophy and science This illustrated A Z reference is a cross disciplinary resource and will be of key interest not only to students and scholars of

history but also to those studying a range of subjects as well as the general reader Florence in Transition Marvin Becker, 2019-08-01 Originally published in 1968 In the pluralistic society of the medieval commune informal and personal ties of obligation bound men together In trecento Florence this gentle communal structure gradually evolved into the stricter more centralized organization characteristic of the modern state A growing emphasis on law and order transformed the medieval commune of the early fourteenth century into the Renaissance territorial state of the latter half of the century Professor Becker's subject is this metamorphosis Following his study of the declining communal *paideia* in Volume One the author examines in this second volume the growing vigor of public world as well as the attendant depersonalization and repression He is concerned primarily with two factors that he considers the major forces producing the Renaissance territorial state and encouraging the growth of imperial government and constitutionalism the intrusion of new citizens *novi cives* into politics after 1343 and the skyrocketing of communal debt Thus the author disputes Burckhardt's idea of the state as a work of art viewing it instead as a creation of socioeconomic mobility and deficit financing Further in examining art and literature as symptoms of developing public culture and reactions to it Professor Becker interprets them as indications of increased public involvement of the Florentine citizens thus providing a sharp refutation of Burckhardt's egoistic violent Renaissance man The author concludes his study with a detailed description of the territorial state itself pointing out the new relationship between citizen and polis which emerged in the early fifteenth century These two volumes provide a compelling and challenging interpretation of a crucial period in Western history **History and Its Images** Francis Haskell, 1993-01-01 Over the last four centuries historians have turned to images in their attempts to understand and visualize the past In this book an art historian surveys the various ways that they have adopted for making use of this material and examines the objects that became available to them *Art Patronage, Family, and Gender in Renaissance Florence* Maria DePrano, 2018-02-22 This book examines a Renaissance Florentine family's art patronage even for women inspired by literature music love loss and religion The Renaissance Portrait Patricia Lee Rubin, 2011 Published in conjunction with an exhibition held at the Bode Museum Berlin Aug 25 Nov 20 2011 and at the Metropolitan Museum of Art New York Dec 21 2011 Mar 18 2012 **Aesthetics of the Margins / The Margins of Aesthetics** David Carrier, Joachim Pissarro, 2020-04-17 Wild Art refers to work that exists outside the established rarified world of art galleries and cultural channels It encompasses uncatalogued uncommodified art not often recognized as such from graffiti to performance self adornment and beyond Picking up from their breakthrough book on the subject Wild Art David Carrier and Joachim Pissarro here delve into the ideas driving these forms of art inquire how it came to be marginalized and advocate for a definition of taste one in which each expression is acknowledged as being different while deserving equal merit Arguing that both the art world and wild art have the same capacity to produce aesthetic joy Carrier and Pissarro contend that watching skateboarders perform Christ Air for example produces the same sublime experience in one audience that another enjoys while taking in a

ballet therefore both mediums deserve careful reconsideration In making their case the two provide a history of the institutionalization of taste in Western thought point to missed opportunities for its democratization in the past and demonstrate how the recognition and acceptance of wild art in the present will radically transform our understanding of contemporary visual art in the future Provocative and optimistic Aesthetics of the Margins The Margins of Aesthetics rejects the concept of kitsch and the high low art binary ultimately challenging the art world to become a larger and more inclusive place
