A Practicum in TESOL Graham Crookes, 2003-07-14 A Practicum in TESOL is a valuable source book for both teacher educators and classroom teachers. It ranges widely across key areas of practice from the nitty gritty of lesson planning and classroom management through conceptual areas such as motivation and observation to crucial if more abstract aspects such as teachers' beliefs and values. It also delves into the moral and political dimensions of teaching. Discussion of these areas though well grounded in relevant academic literatures is also supported by extensive quotes from real teachers working on their practice. The treatment is sufficiently challenging to interest the experienced teacher while covering matters of basic practice that would be of concern to the beginner. Anyone doing a TESOL practicum will want to use this book whether as an in-service teacher or as a teacher longing to further their professional development. A Practicum in TESOL can be used individually or in groups.

Tuning the Rig Fred Herron, 2010 To tune the rig describes adjusting a ship's rigging. The rig of a well-tuned boat allows the sails to function well. This task must be performed to ensure the best performance by the ship. Tuning the Rig takes that metaphor as a guide for Catholic educators and administrators as well as for the larger church. It argues from a variety of perspectives rooted in the Catholic imagination that the rig constantly needs to be re-tuned to balance between visions of the church as teacher and learner. Why should this matter to Catholic educators? To Herron, our understanding of the church as learner is at the heart of our understanding of ourselves as disciples. One of the logical consequences of this era of baptismal consciousness is a rising awareness on the part of the laity that their task is not simply to pray and obey but to grow and journey in faith. Herron's focus ranges from issues closely pertaining to Catholic schools to the larger questions of the Catholic imagination. The underlying thread however is the challenge of maintaining the richness of the Catholic imagination of tuning the rig in changing times and the ordinary life of the church.

The Academic Chairperson's Handbook, 1990-01-01 Between 1990 and 2004 universities and colleges will compete fiercely for 335,000 new faculty members. That is just one challenge looming for chairpersons whose domain has been transformed by changing departmental missions. Until now the academic chair has received little guidance not only in dealing with new trends but in the daily running of a department. The Academic Chairperson's Handbook is an important resource book for leaders who can make a positive difference. This handbook draws on interviews with two hundred successful academic chairpersons from seventy campuses who discuss their solutions to typical problems that occur in bridging the relations between faculty, administration, students and the public. The first of its two parts presents fifteen strategies for developing a department, exercising leadership and reaching out to faculty. The second part applies these strategies to the everyday business of improving teaching performance and promoting scholarship, hiring and dealing with personnel conflicts. Based on a national project supported by TIAA-CREF, The Academic Chairperson's Handbook will be indispensable to department heads at colleges and universities of all sizes throughout the United States.
