The Hero as Failure: Balzac and the Rubempre Cycle Bernard N. Schilling, 1968 *The Doctor-Patient Relationship and the Nineteenth-Century French Novel* Sarah Jones, 2025-03-29

The Doctor Patient Relationship and the Nineteenth Century French Novel analyses the representation of the doctor patient relationship in the nineteenth century French novel notably in the words of Balzac and Stendhal and Zola. It argues that the doctor patient relationship is represented in these novels as a site of interpersonal negotiation wherein the meaning of medical authority embodied experience and the spectre of illness and pain are mediated and reimagined. This book highlights how the doctor patient relationship is often idealized by the novel wherein the doctor is characterised as a both dedicated to his patients and local community as well as being a God like master of life death and medical knowledge. The volume suggests that the doctor patient encounter is often depicted as a separate although inherently related concept that undermines this idealisation of medical relationships. The doctor patient encounter thereby questions the hegemonic power of medical practitioners over their patients by pointing towards how novels depict patients as resisting and even manipulating their doctors. The book identifies and explores other important themes within the doctor patient relationship such as the medical gaze regard medical power relationships and the use of embodied metaphor. In particular the book highlights how the doctor patient relationship is often a confrontation between scientific knowledge and the experience of gender and disability. The book's conceptual framework is derived from the critical medical humanities and the volume revitalises and reframes the doctor patient relationship by considering the intrinsic slippage between idealised relationships and critical encounters. The book uses close readings of its corpus to understand how medical practice is debated and undermined concurrently with its idealisation. It places literary works within a new historical context by reading across novels within their medical and scientific context and situates them for the first time in the intellectual context of the critical medical humanities. The book points forward to how nineteenth century French novels can reform how the critical medical humanities views the medical relationship and the potential impact on real world patients.

Balzac, Literary Sociologist Allan H. Pasco, 2016-10-04 Melding the fields of literature sociology and history this book develops analyses of the ten novels in Balzac's *Scènes de la vie de province*. Following the order of the novels projected in *La Comédie humaine* Allan H. Pasco investigates how Balzac used art as a tool of social inquiry to obtain startlingly accurate insights into the relationships that defined his turbulent society. His repeated claim to be an historian of manners was more than an empty boast. Though Balzac was first and foremost a great novelist he was also a trailblazing sociologist joining Henri de Saint Simon and the subsequent Auguste Comte in considering the relationships that represent society as an interacting interlocking web. Using a methodology that combines close analysis with a broad cultural context Pasco demonstrates that Balzac's sociological vision was extraordinarily pertinent to both his

and our days **Balzac's Comedy of Words** Martin Kanes,2015-03-08 Although Balzac's work has been much studied practically nothing has been written on his use of linguistic concepts Applying a new approach this perceptive book demonstrates that the theme and theory of language were central to Balzac's fiction In considering how the novelist was influenced by eighteenth and nineteenth century speculation on language Martin Kanes traces the development of Balzac's own linguistic ideas from his early to his later writings Originally published in 1976 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Montale, Debussy, and Modernism Gian-Paolo Biasin,2014-07-14 Integrating the study of both music and art into an exploration of the early poetry of Eugenio Montale 1896-1982 this book situates Italy's premier poet of the twentieth century within the Modernist movement Gian Paolo Biasin finds in Montale's poetry broad resonances reverberations and comparisons that involve it in the European culture of its time and that invite the reading of poetry music and painting as texts in a cultural system This interdisciplinary approach expands our appreciation of Montale's work in a way not possible with literary analysis alone Biasin's study first shows the structural homology between some of Debussy's preludes for piano and certain poems in Montale's *Ossi di seppia* emphasizing the rhythmic qualities of the compositions This formal analysis leads to an understanding of the respective texts thematic symbolic and cultural meaning specifically antiheroism as a choice of life Similar methodology is then used to reveal the relationship between the poetry of Montale and Giorgio Morandi's etchings and between Montale's poetic persona Arsenio and the novelistic characters of Svevo and Pirandello Each of these comparisons brings to light a shared image that of the clown or antihero as a mocking self portrait of the modern artist Originally published in 1989 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The Realist Author and Sympathetic Imagination**

Sotirios Paraschas,2017-12-02 The nineteenth century realist author was a contradictory figure He was the focus of literary criticism but obscured his creative role by insisting on presenting his works as copies of reality He was a celebrity who found himself subservient to publishers and the public in a newly industrialised literary marketplace He was the owner of his work who was divested of his property by imperfect copyright laws playwrights who adapted his novels for the stage and sequel writers This combination of a conspicuous yet precarious status with a self effacing attitude was expressed by an image of

the author as a plural Protean subject possessing the faculty of sympathetic imagination which the realists incorporated in their works in the form of a series of fictional characters who functioned as doubles of the author Paraschas focuses on two realists Honore de Balzac and George Eliot and traces this authorial scenario from its origins in the late eighteenth century to its demise in the early twentieth century examining its presence in the works of E T A Hoffmann Friedrich Schlegel Charles Baudelaire and Andre Gide

Struggle for the Soul of the French Novel Michael Scott, 1989-06-18 This book describes the challenge to traditional Christian beliefs that was inherent in the very concept of literary Realism and presents the Catholic novel as a series of conscious readaptations of Realist techniques and models Authors studied include Flaubert Bernanos and Mauriac

The New Turcaret: Theater in the Novels of Balzac Theodora Norwich Kempster, 1974 Realism and Naturalism Richard Daniel Lehan, 2005 In this intellectual and literary history of American British and Continental novels of realism and naturalism from 1850 to 1950 Richard Lehan argues that literary naturalism is a narrative mode that creates its own reality Employing this strategy allows and encourages intertextuality one novel talking or responding to another

French News, 1963 **Balzac and the Nineteenth Century** Herbert James Hunt, 1972 **The Monster in the Mirror** David Anthony Williams, 1978 First Pages Giancarlo Maiorino, 2010-11 Titology a term first coined in 1977 by literary critic Harry Levin is the field of literary studies that focuses on the significance of a title in establishing the thematic developments of the pages that follow While the term has been used in the literary community for thirty years this book presents for the first time a thoroughly developed theoretical discussion on the significance of the title as a foundation for scholarly criticism Though Maiorino acknowledges that many titles are superficial and indexical there exists a separate and more complex class of titles that do much more than simply decorate a book's spine To prove this argument Maiorino analyzes a wide range of examples from the modern era through high modernism to postmodernism with writings spanning the globe from Spain and France to Germany and America By examining works such as *Essais* *The Waste Land* *Ulysses* and *Don Quixote* *First Pages* proves the power of the title to connect the reader to the thematic cultural and literary context of the writing as a whole Much like a facade to a building the title page serves as the frontispiece of literature a sign that offers perspective and demands interpretation Preserving the Provinces Andrew Watts, 2007 Though famed for his vivid depictions of nineteenth century Paris Honor de Balzac devoted as much of his creative energy to the provinces This book examines the way in which he combined a theatrical tradition of anti provincial satire with a more open celebration of French provincial life in the post Revolutionary period Ranging widely over texts from both within and outside *La Com die humaine* the author analyses Balzac's determination to invest the Rousseauist nostalgia for country over city with an updated rationale A champion of central authority and absolutist government Balzac is seen here in an unfamiliar role as the guardian of regional culture a novelist who sought to record the diversity of France's small towns and villages before they were lost to industrialization and the railway age Equally the study reveals new aspects of his political engagement with questions

impacting upon the provinces during the Restoration and July Monarchy from broad issues such as agriculture and landownership to more isolated grievances such as the implications of the 1827 Forest Code The whole offers a fresh insight into Balzac s thought and literary aesthetic and an assessment of his hitherto neglected role in supporting the emergence of the regionalist novel or roman du terroir in the second half of the nineteenth century **Catalog of Copyright Entries.
