for money and not love of country their deaths are not seen as a patriotic sacrifice often they go unreported and in turn helps to conceal the true tragic human cost of waging a war As one former private military contractor recently stated to Australian TV If you want to conquer in the 21st century you use mercenaries special forces things to keep war secret and nobody s better at secret wars than mercenaries *Bring the War Home* Kathleen Belew,2019-05-07 A Guardian Best Book of the Year A gripping study of white power Explosive New York Times Helps explain how we got to today s alt right Terry Gross Fresh Air The white power movement in America wants a revolution Returning to a country ripped apart by a war they felt they were not allowed to win a small group of Vietnam veterans and disgruntled civilians who shared their virulent anti communism and potent sense of betrayal concluded that waging war on their own country was justified The command structure of their covert movement gave women a prominent place They operated with discipline made tragic headlines in Waco Ruby Ridge and Oklahoma City and are resurgent under President Trump Based on a decade of deep immersion in previously classified FBI files and on extensive interviews *Bring the War Home* tells the story of American paramilitarism and the birth of the alt right A much needed and troubling revelation The power of Belew s book comes in part from the fact that it reveals a story about white racist violence that we should all already know The Nation Fascinating Shows how hatred of the federal government fears of communism and racism all combined in white power ideology and explains why our responses to the movement have long been woefully inadequate Slate Superbly comprehensive supplants all journalistic accounts of America s resurgent white supremacism Pankaj Mishra The Guardian **Masters of the Battlefield** Paul K. Davis,2013-04-09 The personality of a general is indispensable Napoleon once said He is the head he is the all of an army In *Masters of the Battlefield* Paul K Davis offers vivid portraits of fifteen legendary military leaders whose brilliance on and off the battlefield embody this maxim Hailing from the earliest days of Greek warfare to France at the turn of the nineteenth century these men stand out for their tactical abilities generals who made a difference in combat grasping the way an enemy would think or move and reacting not just to ensure victory but do so in the face of superior forces Among the leaders discussed in this encompassing work of military history are Alexander the Great Hannibal Scipio Africanus Belisarius Chinggis Khan Oda Nobunaga the Duke of Wellington and Napoleon Bonaparte Davis briefly explores the biography of each commander considering how his upbringing early experiences and social and cultural background might have translated into his leadership abilities Relying on vast research Davis describes the nature of armies and warfare of the time from the phalanx battle of Ancient Greece to the artillery heavy Swedish army under Gustavus Adolphus He also examines the course of the wars in which each general fought as a background to the particular battles that best illustrates their abilities and discusses each battle in detail aided extensively by detailed battlefield maps Davis concludes each section with an analysis of the tactical skills and principles at which each general excelled In analyzing these remarkable leaders Davis offers a picture of warfare throughout history and shows this history to be directed and oftentimes wholly decided by the abilities of a single
