The Modernization of the Chinese Salt Administration, 1900-1920 Samuel Adrian Miles Adshead, 1970

pingThe Modernization of the Chinese Salt Administration, 1900-1920 ,1978 State, Market and Salt-Tobacco Road in Modern China (1935-1949) Benmo Jiang,Zhao Zhou,Yujing Tan,Haoqi Meng,2024-12-16 Through a meticulous analysis of various historical sources the authors of this book have uncovered a wealth of information on the trade of salt and tobacco in Guizhou province southwest of China in the 1930s and 1940s Their findings not only shed light on how commercial networks and the flow of these commodities formed and transformed with the development of wartime state monopoly but also offer a more comprehensive perspective on the role of merchants and entrepreneurs in regulated commodity chains to go beyond the dichotomous state market perspective of socioeconomic analysis **Foreign Banks and Global Finance in Modern China** Ghassan Moazzin,2022-07-07 In this wide ranging study Ghassan Moazzin sheds critical new light on the history of foreign banks in late nineteenth and early twentieth century China a time that saw a substantial influx of foreign financial institutions into China and a rapid increase of both China s foreign trade and its interactions with international capital markets Drawing on a broad range of German English Japanese and Chinese primary sources including business records government documents and personal papers Moazzin reconstructs how during this period foreign banks facilitated China s financial integration into the first global economy and provided the financial infrastructure required for modern economic globalization in China Foreign Banks and Global Finance in Modern China shows the key role international finance and foreign banks and capital markets played at important turning points in modern Chinese history Bankers and Diplomats in China 1917-1925 Roberta Allbert Dayer,2013-11-05 First Published in 1981 Contrary to Chairman Mao s assertion that political power comes from the barrel of a gun this study contends that political power in China in the early 1920s emanated from the boardrooms of foreign banks The author s interest in the way financial concerns have shaped foreign policy began with the discovery that the Lloyd George government attempted to influence the American government s policy on the British war debts by offering concessions concerning the renewal of the Anglo Japanese Alliance This study should provide understanding concerning the causes of Chinese bitterness as well as suggest the conflicts experienced by diplomats in balancing public and private interests Finance And Empire Roberta A Dayer,1988-11-24 China and the End of Global Silver, 1873-1937 Austin Dean,2020-11-15 In the late nineteenth century as much of the world adopted some variant of the gold standard China remained the most populous country still using silver Yet China had no unified national currency there was not one monetary standard but many Silver coins circulated alongside chunks of silver and every transaction became an encounter of wits China and the End of Global Silver 1873 1937 focuses on how officials policy makers bankers merchants academics and journalists in China and around the world answered a simple question how should China change its monetary system Far from a narrow technical issue Chinese monetary reform is a dramatic story full of political

revolutions economic depressions chance and contingency As different governments in China attempted to create a unified monetary standard in the late nineteenth and early twentieth century the United States England and Japan tried to shape the direction of Chinese monetary reform for their own benefit Austin Dean argues convincingly that the Silver Era in world history ended owing to the interaction of imperial competition in East Asia and the state building projects of different governments in China When the Nationalist government of China went off the silver standard in 1935 it marked a key moment not just in Chinese history but in world history Opium Regimes Timothy Brook,Bob Tadashi

Wakabayashi,2000-09-18 Opium Regimes draws on a range of research to show that the opium trade was not purely a British operation but involved Chinese merchants and state agents and Japanese imperial agents as well **The Making of**

Modern Chinese Medicine, 1850-1960 Bridie Andrews,2014-12-20 Medical care in nineteenth century China was spectacularly pluralistic herbalists shamans bone setters midwives priests and a few medical missionaries from the West all competed for patients In the century that followed pressure to reform traditional medicine in China came not only from this small clutch of Westerners but from within the country itself as governments set on modernization aligned themselves against the traditions of the past and individuals saw in the Western system the potential for new wealth and power This book examines the dichotomy between Western and Chinese medicine showing how it has been greatly exaggerated As missionaries went to lengths to make their medicine more acceptable to Chinese patients modernizers of Chinese medicine worked to become more scientific by eradicating superstition and creating modern institutions Andrews challenges the supposed superiority of Western medicine in China while showing how traditional Chinese medicine was deliberately created in the image of a modern scientific practice **China In World History** S. A. M. Adshead,2016-01-13 A novel approach to

Chinese history is adopted here in that the theme of the book is China s relations with the non Chinese world not only political and economic but cultural social and technological as well It seeks to show that China s history is part of everyone s history In particular it traces China s relationship since the thirteenth century to the emergent world order and the various world institutions of which that order is composed Each chapter discusses China s comparative place in the world the avenues of contact between China and other civilizations and who and what passed along these channels
