Sir William Gell in Italy Sir William Gell,1976 Sir William Gell in Italy Sir William Gell,1976 **Encyclopedia of the History of Classical Archaeology** Nancy Thomson de Grummond,2015-05-11 With 1 125 entries and 170 contributors this is the first encyclopedia on the history of classical archaeology It focuses on Greek and Roman material but also covers the prehistoric and semi historical cultures of the Bronze Age Aegean the Etruscans and manifestations of Greek and Roman culture in Europe and Asia Minor The Encyclopedia of the History of Classical Archaeology includes entries on individuals whose activities influenced the knowledge of sites and monuments in their own time articles on famous monuments and sites as seen changed and interpreted through time and entries on major works of art excavated from the Renaissance to the present day as well as works known in the Middle Ages As the definitive source on a comparatively new discipline the history of archaeology these finely illustrated volumes will be useful to students and scholars in archaeology the classics history topography and art and architectural history *The Subverting Vision of Bulwer Lytton* Allan Conrad Christensen,2004 On the occasion of the bicentenary of Edward Bulwer Lytton s birth seventeen scholars from five countries have contributed essays devoted to many aspects of his career After the first essay that analyzes the reasons for Bulwer s extraordinary reputation in his own day twelve of the essays focus primarily upon one or more of the novels from Falkland 1827 to Kenelm Chillingly 1873 Other novels examined include Bulwer s The Last Days of Pompeii The Coming Race The Parisians and the Caxton trilogy as well as his Newgate novels In the volume are also considerations of the seminal treatise England and the English 1833 the incomplete history of Athens 1837 and the achievement of Bulwer Lytton as Colonial Secretary 1858 59 Two essays one written by a descendant of Bulwer deal with the overshadowing disaster of his life the marriage to Rosina Wheeler herself a novelist whose novels sought to undermine his Bulwer emerges from this collection of essays as a challengingly complex but coherent figure that merits the respect of contemporary students of the Victorian phenomenon

Sir Gardner Wilkinson and His Circle Jason Thompson,2010-07-22 Following in the footsteps of Napoleon s army Europeans invaded Egypt in the early nineteenth century to gaze in wonder at the massive inscrutable remains of its ancient civilizations One of these travelers was a twenty four year old Englishman John Gardner Wilkinson His copious observations of ancient and modern Egyptian places artifacts and lifeways recorded in such widely read publications as Manners and Customs of the Ancient Egyptians and Handbook for Travellers in Egypt made him the leading early Victorian authority on ancient Egypt and paved the way for the scientific study of Egyptology In this first full scale biography of Wilkinson 1797 1875 Jason Thompson skillfully portrays both the man and his era He follows Wilkinson during his initial sojourn in Egypt 1821 1833 as Wilkinson immersed himself in a contemporary Egyptian lifestyle and in study of its ancient past He shows Wilkinson in his circle of friends among them Edward William Lane Robert Hay and Frederick Catherwood And he traces how Wilkinson continued to use his Egyptian material in the decades following his return to England With the rise of professional

Egyptology in the middle and later nineteenth century Sir Gardner Wilkinson came to be viewed as an amateur and his popularity diminished Drawing upon recently opened sources Thompson returns Wilkinson to his rightful place within centuries of Egyptian scholarship and assesses both the vision and the limitations of his work The result is a compelling portrait of a Victorian gentleman scholar and his cultural milieu Emotions and Architecture Francesca Lembo Fazio,Valentina Tomassetti,2023-12-19 Emotions and Architecture Forging Mediterranean Cities Between the Middle Ages and Early Modern Time explores architecture as a medium to arouse or conceal emotions to build consensus through shared values or to reconnect the urban community to its alleged ancestry The chapters in this edited collection outline how architectonic symbols images and structures were codified and sometimes recast to match or to arouse emotions awakened by wars political dominance pandemic challenges and religion As signs of spiritual and political power these elements were embraced and modulated locally providing an endorsement to authorities and rituals for the community This volume provides an overview of the phenomenon across the Italian region stressing the transnationality of selected symbols and their various declinations in local contexts It deepens the issue of refitting symbols artworks and structures to arouse emotions by carefully analysing specific cases such as the Septizodium in Rome the Holy House of Loreto in Venice and the reconstruction of L'Aquila The collection through its variegated contributions offers a comprehensive view of the phenomenon exploring the issue from political social religious and public health perspectives and seeking to propose a new definition of architecture as a visual emotional language Together the chapters show how the representation of virtues and emotions through architecture was part of a symbolic practice shared by many across the Italian context This book will be of interest to researchers and students studying architectural history the history of emotions and the history of art In Pursuit of Ancient Pasts Stephen L. Dyson,2008-10-01 divThe stories behind the acquisition of ancient antiquities are often as important as those that tell of their creation This fascinating book provides a comprehensive account of the history and development of classical archaeology explaining how and why artifacts have moved from foreign soil to collections around the world As archaeologist Stephen Dyson shows Greek and Roman archaeological study was closely intertwined with ideas about class and social structure the rise of nationalism and later political ideologies such as fascism and the physical and cultural development of most of the important art museums in Europe and the United States whose prestige depended on their creation of collections of classical art Accompanied by a discussion of the history of each of the major national traditions and their significant figures this lively book shows how classical archaeology has influenced attitudes about areas as wide ranging as tourism nationalism the role of the museum and historicism in nineteenth and twentieth century art DIV

Elizabeth Craven: Writer, Feminist and European Julia Gasper,2018-04-13 Elizabeth Craven's fascinating life was full of travel love affairs and scandals but this biography the first to appear for a century is the only one to focus on her as a writer and draw attention to the full range of her output which raises her stature as an author considerably Born into the

upper class of Georgian England she was pushed into marriage at sixteen to Lord Craven and became a celebrated society hostess and beauty as well as mother to seven children Though acutely conscious of her relative lack of education as a woman she ventured into writing poetry stories and plays Incompatibility and infidelities on both sides ended her marriage and she had to move to France where living in seclusion she wrote the little known feminist work *Letters to Her Son* In the years that followed she travelled extensively all over Europe and turned her letters into a travelogue which is one of her best known works On her return she went to live in Germany as the companion and eventually second wife of the Margrave of Ansbach At his court she organised and appeared in theatricals and wrote several more plays of great interest including *The Modern Philosopher* In 1792 she and the Margrave settled in England where they were never fully accepted by the more strait laced pillars of society but mixed with all the musicians and actors and the more rakish of the Regency set Craven continued to put on her own theatricals and write for the theatre In her old age she moved to Naples where she passed her time sailing gardening and writing her *Memoirs* Even in her final years scandal dogged her and Craven made her feminist principles and criticisms of the laws of marriage apparent through her involvement in the notorious divorce case of Queen Caroline

Transnational Patriotism in the Mediterranean, 1800-1850 Konstantina Zanou, 2018-11-08

Transnational Patriotism in the Mediterranean investigates the long process of transition from a world of empires to a world of nation states by narrating the biographies of a group of people who were born within empires but came of age surrounded by the emerging vocabulary of nationalism much of which they themselves created It is the story of a generation of intellectuals and political thinkers from the Ionian Islands who experienced the collapse of the Republic of Venice and the dissolution of the common cultural and political space of the Adriatic and who contributed to the creation of Italian and Greek nationalisms By uncovering this forgotten intellectual universe *Transnational Patriotism in the Mediterranean* retrieves a world characterized by multiple cultural intellectual and political affiliations that have since been buried by the conventional narrative of the formation of nation states *Transnational Patriotism in the Mediterranean* rethinks the origins of Italian and Greek nationalisms and states highlighting the intellectual connection between the Italian peninsula Greece and Russia and reestablishing the lost link between the changing geopolitical contexts of western Europe the Mediterranean and the Balkans in the Age of Revolutions It re inscribes important intellectuals and political figures considered national fathers of Italy and Greece such as Ugo Foscolo Dionysios Solomos Ioannis Kapodistrias and Niccol Tommaseo into their regional and multicultural context and shows how nations emerged from an intermingling rather than a clash of ideas concerning empire and liberalism Enlightenment and religion revolution and conservatism and East and West

The Evolution of the Grand Tour Edward Chaney, 2014-01-14 The Grand Tour has become a subject of major interest to scholars and general readers interested in exploring the historic connections between nations and their intellectual and artistic production Although traditionally associated with the eighteenth century when wealthy Englishmen would complete their education on the continent the Grand Tour is here investigated in a wider context from the decline of the Roman Empire to recent times Authors from Chaucer to Erasmus came to mock the custom but even the Reformation did not stop the urge to travel From the mid sixteenth century northern Europeans justified travel to the south in terms of education The English had previously travelled to Italy to study the classics now they travelled to learn Italian and study medicine diplomacy dancing riding fencing and eventually art and architecture Famous men and an increasing proportion of women all contributed to establishing a convention which eventually came to dominate European culture Documenting the lives and travels of these personalities Professor Chaney's remarkable book provides a complete picture of one of the most fascinating phenomena in the history of western civilisation
