emotional damage that perpetuates violence through revenge and that this cycle is the main cause of not only the many school shootings that have shocked America but also related problems in schools manifesting in high rates of suicide depression anxiety eating disorders self cutting truancy and substance abuse After two decades working in schools as a school social worker and professor Klein proposes ways to transcend these destructive trends transforming school bully societies into compassionate communities

**Relative Intimacy** Rachel Devlin, 2006-03-08 Celebrated as new consumers and condemned for their growing delinquencies teenage girls emerged as one of the most visible segments of American society during and after World War II Contrary to the generally accepted view that teenagers grew more alienated from adults during this period Rachel Devlin argues that postwar culture fostered a father daughter relationship characterized by new forms of psychological intimacy and tinged with eroticism According to Devlin psychiatric professionals turned to the Oedipus complex during World War II to explain girls delinquencies and antisocial acts Fathers were encouraged to become actively involved in the clothing and makeup choices of their teenage daughters thus domesticating and keeping under paternal authority their sexual maturation In Broadway plays girls and women s magazines and works of literature fathers often appeared as governing figures in their daughters sexual coming of age It became the common sense of the era that adolescent girls were fundamentally motivated by their Oedipal needs dependent upon paternal sexual approval and interested in their fathers romantic lives As Devlin demonstrates the

pervasiveness of depictions of father adolescent daughter eroticism on all levels of culture raises questions about the extent of girls independence in modern American society and the character of fatherhood during America s fabled embrace of domesticity in the 1940s and 1950s

perpetuation of dehumanizing stereotypes have led to a crisis of connection that is now widespread Finally the practitioners in the volume present concrete solutions that show ways we can create a more just and humane world This profoundly important book suggests that our innate human determination to bridge differences and live in vulnerable loving
