Thomas,2011-01-18 FIRST PRIZE WINNER OF THE SLS BIRKS PRIZE FOR OUTSTANDING LEGAL SCHOLARSHIP 2011 How are we to assess and evaluate the quality of the tribunal systems that do the day to day work of adjudicating upon the disputes individuals have with government This book examines how the idea of adjudicative quality works in practice by presenting a detailed case study of the tribunal system responsible for determining appeals lodged by foreign nationals who claim that they will be at risk of persecution or ill treatment on return to their country of origin Over recent years the asylum

appeal process has become a major area of judicial decision making and the most frequently restructured tribunal system Asylum adjudication is also one of the most difficult areas of decision making in the modern legal system Integrating empirical research with legal analysis this book provides an in depth study of the development and operation of this tribunal system and of asylum decision making The book examines how this particular appeal process seeks to mediate the tension between the competing values under which it operates There are chapters examining the organisation of the tribunal system its procedures the nature of fact finding in asylum cases and the operation of onward rights of challenge An examination as to how the tensions inherent in the idea of administrative justice are manifested in the context of a tribunal system responsible for making potentially life or death decisions this book fills a gap in the literature and will be of value to those interested in administrative law and asylum adjudication Evidence in European Asylum Procedures Ida

Staffans,2012-04-19 This book focuses on three European asylum procedures and the evidentiary assessment carried out in these The interrelationship between these procedures and legal systems influencing them is explored and questions in relation to the harmonizing strivings of EU are posed Military Construction, Veterans Affairs, and Related Agencies
