

A movie poster for the film "Small Sacrifices". The top half of the poster features a photograph of three actors. On the left, Farrah Fawcett stands wearing a black leather jacket over a white shirt and a light-colored skirt with a chain belt. She has a serious expression and is looking towards the right. In the background, on the right, a man (Gordon Clapp) and a woman (John Shea) are shown in a close, intimate embrace, nearly kissing. The lighting is dramatic, with strong highlights and shadows. The title "small Sacrifices" is written in a large, bold, white font with a black drop shadow, spanning across the bottom of the photograph.

Lessons from Saint Thérèse John Paul Thomas, 2017-10-30 I will spend my Heaven doing good on Earth For more than a century Saint Thérèse of Lisieux also known as The Little Flower has captivated countless minds and hearts Her simple and pure heart burned with a deep love for our Lord and that love overflowed into the lives of many She daily inspired those who knew her and she continues to inspire those who read her story Her autobiography captures the beauty and profundity of her love in the most tender and affectionate way Her story reveals how devoted she was to Jesus and how she longed to be with Him forever in Heaven even from the earliest moments of her childhood This book offers 99 short lessons reflections and prayers from the life of Saint Thérèse of the Child Jesus and the Holy Face The lessons are based upon Saint Thérèse's own words as she shared her faith and her heart in the pages of the three manuscripts of her autobiography Story of a Soul Each subsequent reflection attempts to capture one of her countless virtues so as to savor the fragrance of this precious little flower of God and to apply it to the reader's daily life The prayer to conclude each lesson is not written only to be read it is written to be prayed You may find it helpful to pray that prayer slowly and meditatively at the end of each lesson and return to that prayer at the end of each day especially to the prayers that are most pertinent to your life The reader might wish to use this book as a daily reflection book reading one lesson each day Doing so will allow you to ponder one lesson from her saintly life at a time so as to absorb the sweetness of her love and the depth of her life However you might find it just as beneficial to read several lessons at a time This book is not intended to be a onetime read Rather the lessons we learn from Saint Thérèse's life are worth absorbing many times over The reflection and prayer after each lesson make this book a helpful source of daily self examination and prayer throughout life You who are parents might also find the lessons of St Thérèse of benefit in the formation of your children Telling Little Thérèse's stories will inspire and challenge your children as they grow and mature in their own lives of faith *The T'ang Code, Volume II*, 2014-07-14 This is the second and final volume of the annotated translation of a seminal Chinese legal text The T'ang Code written in 653 A.D. is the most important legal text in

East Asian history Not only is it China's earliest law code to survive in its entirety influencing all subsequent Chinese law but it has also served as a model for codes of law in other East Asian countries including Japan Korea and Vietnam This is the only translation of the Tang code into a Western language The first volume of the Code published in translation in 1979 specifies the basic principles of Tang law and explains the structural standards for applying these principles Volume II describes acts that are punishable by law and enumerates their punishments For contemporary readers the Tang Code is more than simply a legal document Studying the 445 specific articles sheds considerable light on Chinese culture The portrait that emerges has surprising resonances in present day Chinese society its emphasis on the preservation of the family and the interrelatedness of authority and responsibility for example As Western relations with the countries of East Asia continue to expand today it is increasingly important that we understand the complexities of a legal system that has evolved over more than fifteen centuries The availability of the complete Tang Code in English is a significant contribution to this understanding Originally published in 1997 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 New York Magazine, 1989-11-13 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **The Improvement Era**, 1909 Socratic Discourses Plato, Xenophon, 2022-08-16 DigiCat Publishing presents to you this special edition of Socratic Discourses by Plato Xenophon DigiCat Publishing considers every written word to be a legacy of humankind Every DigiCat book has been carefully reproduced for republishing in a new modern format The books are available in print as well as ebooks DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature **The Anabasis, Or Expedition of Cyrus, and the Memorabilia of Socrates** Xenophon, 1854 **The Anabasis** Xenophon, 1858 *Superhero Academy: The Path to Heroism* Pasquale De Marco, 2025-05-09 Superhero Academy The Path to Heroism is an inspiring and informative guide to the world of heroism In this book Pasquale De Marco explores the many facets of heroism from the everyday heroes who make a difference in our communities to the superheroes who save the world from disaster Pasquale De Marco examines the challenges that heroes face and the rewards that they receive He also provides insights into the hero's journey and how we can all find the hero within ourselves Superhero Academy The Path to Heroism is a must read for anyone who wants to learn more about heroism

Lucian's Laughing Gods Inger NI Kuin,2023-04-10 No comic author from the ancient world features the gods as often as Lucian of Samosata yet the meaning of his works remain contested He is either seen as undermining the gods and criticizing religion through his humor or as not engaging with religion at all featuring the gods as literary characters His humor was traditionally viewed as a symptom of decreased religiosity but that model of religious decline in the second century CE has been invalidated by ancient historians Understanding these works now requires understanding what it means to imagine as laughing and laughable gods who are worshipped in everyday cult In Lucian s Laughing Gods author Inger N I Kuin argues that in ancient Greek thought comedic depictions of divinities were not necessarily desacralizing In religion laughter was accommodated to such an extent as to actually be constituent of some ritual practices and the gods were imagined either to reciprocate or push back against human laughter they were never deflated by it Lucian uses the gods as comic characters but in doing so he does not automatically negate their power Instead with his depiction of the gods and of how they relate to humans frivolous insecure callous Lucian challenges the dominant theologies of his day as he refuses to interpret the gods as ethical models This book contextualizes Lucian s comedic performances in the intellectual life of the second century CE Roman East broadly including philosophy early Christian thought and popular culture dance fables standard jokes etc His texts are analyzed as providing a window onto non elite attitudes and experiences and methodologies from religious studies and the sociology of religion are used to conceptualize Lucian s engagement with the religiosity of his contemporaries

Stories from an Ancient Land Magnus Fiskesjö,2021-08-13 The Wa people have a rich civilization of their own and a deep history in the mountains of Southeast Asia Their mythology suggests their land is the first place inhabited by humans which they care for on behalf of the world This book introduces aspects of Wa culture including their approach to the world s troubles and the lessons others might learn from it It also presents a new interpretation of Wa headhunting questioning explanations that see it as a primitive custom and instead placing it within the fraught history of the last few centuries

The Birth of Economics as a Social Science Francesca Dal Degan,2019-03-26 Although considered a classic thinker Sismondi is seldom discussed at least in English In this context this volume offers a key reference work on the intellectual and economic contribution of Sismondi to the economic political and social sciences The book explores his works in order to rediscover the direction of a viable path to individual and public happiness Through examining Sismondi s work The Birth of Economics as a Social Science contributes to the current debate on the relationships between liberty interpersonal relations and wealth Moreover Dal Degan presents

an analytical and historical example of the ways in which an author from the past attempted to connect these aspects in his scientific discourse The first part of the book focuses on Sismondi's political thought paying particular attention to the different cultural and political traditions that pepper the author's reflections on the conditions for liberty The second part analyzes the epistemological view underlying how Sismondi's historical method and multidisciplinary approach respond to the need to base economic discourse on a contextual and causal analysis that also addresses the historical and institutional structure of social organizations Finally the third part of the book is dedicated to Sismondi's economic theory This work brings the works of Sismondi to a wider readership It will be of great interest to those studying and researching economic theory and the connections between economics and society as well as the broader social sciences Turning Points with God David Jeremiah, 2018-03-06 In Turning Points with God New York Times bestselling author Dr David Jeremiah distills the wisdom of the Bible into 365 beautifully crafted devotional readings that will help ground and guide you every day of the coming year **Feeding the Dead** Matthew R. Sayers, 2013-07-08 **Feeding the Dead** outlines the early history of ancestor worship in South Asia from the earliest sources available the Vedas up to the descriptions found in the Dharmashastra tradition Most prior works on ancestor worship have done little to address the question of how shraddha the paradigmatic ritual of ancestor worship up to the present day came to be Matthew R Sayers argues that the development of shraddha is central to understanding the shift from Vedic to Classical Hindu modes of religious behavior Central to this transition is the discursive construction of the role of the religious expert in mediating between the divine and the human actor Both Hindu and Buddhist traditions draw upon popular religious practices to construct a new tradition Sayers argues that the definition of a religious expert that informs religiosity in the Common Era is grounded in the redefinition of ancestral rites in the Grhyasutras Beyond making more clear the much misunderstood history of ancestor worship in India this book addressing the serious question about how and why religion in India changed so radically in the last half of the first millennium BCE The redefinition of the role of religious expert is hugely significant for understanding that change This book ties together the oldest ritual texts with the customs of ancestor worship that underlie and inform medieval and contemporary practice
