high mountain guide and an exceptional skier ABOUT THE AUTHOR Born in Morzine in 1948 Anselme Baud left his mark on the Alps skiing steep slopes history As a high mountain guide in 1973 he was one the first to ski on extreme downhills in the Alps the Andes in Antarctica or in the Himalayas As an ENSA professor he supervised during several years the mountain guides trainings in Bolivia and Nepal EXCERPT The Aiguilles Rouges chain could have suffered from being so close to its illustrious neighbour the Mont Blanc Massif but in fact the huge variety of routes on offer here means that the two ranges complement each other From easy tours to narrow couloirs from routes with easy access from ski lifts to numerous possible traverses the Aiguilles Rouges is an integral part of the Mont Blanc region Thanks to this ease of access and the great circuits that can be done in this area this is also the starting point for trips heading north to Sixt Flaine and Les Portes du Soleil or to the east and Switzerland to the high limestone Alps via the Col de la Tour Salire and the Barberine cols not forgetting of course the great routes on the Bel Oiseau the Dent de Fenestral or Fontanabran between Finhaut and Les Mar cottes Moreover this chain of crystalline rock gneiss also offers superb views of the whole of the Mont Blanc Massif which are both breathtakingly beautiful and more importantly are a great opportunity for getting a look at routes for the future The other advantage the Aiguilles Rouges has is that you can easily choose the best side of the chain to ski on as the ski lifts and the pistes are all on the south side and the best descents are to be had on the wild north side where the snow stays in excellent condition for a long time The secondary ranges of the Perrons and Luisin Emaney don t have ski lifts and usually get skied at the beginning of the season for road access to the Emosson Dam as the snow cover is general better here the area is near the very wet valleys of Haut Faucigny

chapter most of the tours here can be done in a day and the height gains are not excessive maximum of 900m Also in this part of the Massif there is a broad range of routes and you will find steep slopes and classic tours next door to each other For all these reasons this is a very popular area There are lots of people on the easy routes by the Aiguilles Marbr es and the Col d Entr ves while the Br che Puiseux area is less popular but also more and more amateur extreme skiers are trying routes on the Tour Ronde and the big couloirs on the Tacul Diable Gervasutti Jager However these figures pale into insignificance compared with the hordes of skiers and boarders who can be found on the world famous Vall e Blanche from the beginning of the winter right through to the end of May Indeed you feel the contrast most strikingly once with skins on your skis you start climbing up towards the less accessible routes **Illustrated Ski-Doo Snowmobile Buyer's Guide** Philip J.

Mickelson,1994 Sketches the history of the Ski Doo snowmobile describes each model from 1959 to the present and traces the development of engines suspensions and tracks Getting Back John Milne,1994 Argenti ère - Mont Blanc and the Aiguilles Rouges - a Guide for Sskiers Anselme Baud,2015-03-04 Discover the skiing downhill of the Argenti res Mountain in this very detailed and documented book written by one of the most talented skiers of his generation Located at the very heart of the highest mountains of Europe the majestic Argenti res massif stands as a reference among the most sacred skiing places in the world When winter comes this snow addict heaven offers a unique range of dream slopes from the easiest to the most breathtakingly high ones Anselme Baud is an extreme skiing leading head and one of the best experts of this mountain From classic skiing hikes to mountaineering competitions this guide book presents a precise description of all the biggest slopes this mythic area could offer In this volume you can find all the information about the Argenti res Thanks to his charming accounts and instructive advice Anselme Baud shares with us his precious and wide experience as a high mountain guide and an exceptional skier ABOUT THE AUTHOR Born in Morzine in 1948 Anselme Baud left his mark on the Alps skiing steep slopes history As a high mountain guide in 1973 he was one the first to ski on extreme downhill in the Alps the Andes in Antarctica or in the Himalayas As an ENSA professor he supervised during several years the mountain guides trainings in Bolivia and Nepal EXCERPT The Argenti re Basin is quite unique in the French Alps From piste skiing to off piste descents and ski mountaineering tours there is a fantastic selection of routes for all levels of skier on offer in this area Freeriders and ski tourers can take their pick of superb off piste routes Pas de Ch vre Argenti re Glacier the great couloirs Chapeau Poubelles and classic tours Col du Chardonnet Col du Passon and the big extreme slopes Courtes Verte The Grands Montets is the starting point for the classic Chamonix Zermatt Haute Route and it also allows access to Switzerland via the Col du Chardonnet This means that some of the tours can be done in a day or you can do them in two stages by staying at the Argenti re Hut Unfortunately the popularity of the Grands Montets ski station sometimes distracts a little from the splendour of the surrounding landscape as the crowds of visitors to the slopes sometimes show a certain lack of respect for the environment that welcomes them Nevertheless with a little bit of effort you can still find peace and quiet and more
