The rehearsals preliminary training are shrouded in secrecy It must be that way and not until the very minute of attack against the enemy held beach do many beyond the members of the task force know anything about the operation I have lived with these men and have seen them train on land and sea under both ideal and miserable conditions At best it is a life of hard work We know that unlike any other form of warfare an amphibious operation cannot strike fail retreat and try again It must succeed the first time This requires teamwork and the coalescing of the Army and Navy components into a hard hitting and fast moving force That teamwork exists This war has brought the Army and Navy closer together than ever before in our history and Amphibious Forces are the epitome of everything that is sought in military efficiency Without the success of the initial thrust over the enemy held beaches our final effort could never materialize It is the Amphibious Forces who are carrying the vanguard of victory of American arms to Japan and Germany and nothing either enemy has to offer can stop them It is to the men of the Amphibious Forces that this book has been dedicated Their accomplishments have been great they will be even greater They have won and earned our thanks and gratitude
