It offers a unique analysis of relations between religion and state in the People's Republic of China by presenting how the Chinese Communist Party (CCP) tries to harness Buddhist resources to assist in the delivery of social services and sheds light on the intermingling of Buddhism and the state since 1949. This book will appeal to academics in social sciences and humanities and broader audiences interested in the social role of religions, charity, NGOs and in social policy implementation. The author explores why the CCP turns to Buddhist followers and their leaders and presents a detailed view of Buddhist philanthropy contextualized with an historical overview, a regional comparative perspective and a review of policy debates. This book contributes to our understanding of secularity in a major non-Western society influenced by religions other than Christianity *Housing and the New Welfare State* Richard Groves, 2016-04-29 The changing nature and significance of housing provision within welfare states is considered in this timely book. With housing playing an increasingly important role in welfare provision, the new welfare state emerging in different parts of the world is being developed in the context of individual asset accumulation and the private ownership of housing. *Housing and the New Welfare State* shows that housing is becoming critical to asset-based welfare not only in Western Europe but also in the six East Asian housing systems that are a major focus of the book. Chapters by leading East Asian scholars provide analysis of housing policies in Singapore, Hong Kong, Korea, Japan, China and Taiwan. Also examined are the four worlds of welfare and housing: the causes and consequences of the shift from tenants to home owners in the old welfare states of Britain and other parts of Western Europe and the growth of the property-owning welfare state as a theme running through contemporary policy in both East Asia and Europe **Financing Welfare State Systems in Asia** Christian Aspalter, 2021-09-28 This book identifies the main causes of welfare state system extension as well as the differences in welfare state system design and their consequences for human behavior and the future financial stability of the systems in place in different parts of Asia. Providing ten in-depth country case studies from across the region including India, Thailand, China, Hong Kong, Macao, Taiwan and South Korea as well as Russia, Turkey and Saudi Arabia, the book focuses on the situation of welfare state system development and its financing in some of the largest countries on earth. It addresses previously neglected areas for investigation such as the causal reasons for welfare state system extension not only in Asia but in general, the types of social security systems and their incentive systems in place and the way they chiefly determine behavior and thus determine the resulting social security needs. This book will be of interest to all scholars and students of social policy, public policy, political science, sociology, finance and economics, development studies and Asian studies more broadly *Pathways to State Welfare in Korea* Gyu-Jin Hwang, 2017-03-02 Why has Korean social policy

developed differently from that of other East Asian countries While in many respects Korea can be compared with Taiwan Hong Kong and Singapore where economic development has been the chief priority of state action Korea has also implemented extensive welfare reform expanding its welfare provision even under recent conditions of economic downturn Gyu Jin Hwang traces the development of the Korean welfare state providing a fascinating case study for observers of East Asian industrial growth and the public management of social risks Arguing that the extension of state welfare presents a unique challenge to existing theoretical propositions underlying social policy development he draws on detailed empirical analysis of key policy areas namely public assistance national pensions health care and employment insurance The book offers a definitive analysis of the development of Korean social policy programmes and the politics of implementing them The book will be important reading for all those interested in comparative Social Policy and more specifically the development of Social Welfare in Asian countries
