*Cross-national Policy Convergence* Christoph Knill, 2013-10-31 A fresh analysis of policy convergences across nations which identifies their key driving forces To what extent and in which direction can we empirically observe a convergence of

national policies In which areas and for which patterns of policy is convergence more or less pronounced This text addresses these central questions with clarity and rigour With growing economic and institutional interlinkages between nation states it is often assumed that there is an overall trend towards increasingly similar policies across countries Comparative research on the domestic impact of globalization and European integration however reveals that policy convergence can hardly be considered as a dominant and uniform tendency which can be taken for granted Although a number of factors have been suggested in order to account for the rather mixed empirical picture we still have limited knowledge about the causes and conditions of cross national policy convergence In particular the central mechanisms and conditions affecting both degree and level of cross national policy convergence are yet not well understood This book will be of great interest to all students and scholars of the European Union European politics and international relations This is a special issue of the leading Journal of European Public Policy
