

A complex collage representing social problems. The background features a city skyline with smoke rising from it, suggesting industrial pollution. In the center, a large blue whale is depicted, possibly representing environmental issues. To the left, a crowd of people is shown, with one person holding a sign that says "CENTRE". In the foreground, a young child is looking up, and several people are wearing blue headscarves. The overall scene is a mix of urban, environmental, and human elements, symbolizing the interconnectedness of social issues.

Social Problems Kenneth J. Neubeck, Mary Alice Neubeck, 1996 A critical approach to the analysis of social problems facing the world today that examines both the causes of those problems and their human implications Twelve chapters look at large societal issues such as Environmental Abuse and Economic Inequality and Poverty The final five chapters focus on problems of an individual nature such as family related problems and criminal behavior The Fourth Edition has been substantively revised to include current issues such as the rise of temporary employees the growing concentration of wealth immigration in an increasingly diverse United States an entirely new chapter on Heterosexism the failures of the U S health care system suicide among the young and old and more **Constructing Social Problems** Malcolm Spector, There is no adequate definition of social problems within sociology and there is not and never has been a sociology of social problems That observation is the point of departure of this book The authors aim to provide such a definition and to prepare the ground for the empirical study of social problems They are aware that their objective will strike many fellow sociologists as ambitious perhaps even arrogant Their work challenges sociologists who have over a period of fifty years written treatises on social problems produced textbooks cataloguing the nature distribution and causes of these problems and taught many sociology courses It is only natural that the authors work will be viewed as controversial in light of the large literature which has established a sociology of a wide range of social problems the sociology of race relations prostitution poverty crime mental illness and so forth In the 1970s when the authors were preparing for a seminar on the sociology of social problems their review of the literature revealed the absence of any systematic coherent statement of theory or method in the study of social problems For many years the subject was listed and offered by university departments of sociology as a service course to present undergraduates with what they should know about the various social pathologies that exist in their society This conception of social problems for several decades has been reflected in the substance and quality of the literature dominated by textbooks In **Constructing Social Problems** the authors propose that social problems be conceived as the claims making activities of individuals or groups regarding social conditions they consider unjust immoral or harmful and that should be addressed This perspective as the authors have formulated it conceives of social problems as a process of interaction that produces social problems as social facts in society The authors further propose that this process and the social facts it produces are the data to be researched for the sociology of social problems This volume will be of interest to those concerned with the discipline of sociology especially its current theoretical development and growth Malcolm Spector was professor of sociology at McGill University in Montreal Canada John I Kitsuse is professor emeritus at the University of California at Santa Cruz He is co author with Leonard Broom of *The Managed Casualty The Japanese American Family in World War II* and co

editor with Theodore R Sarbin of *Constructing the Social* **Social Problems** Joel M. Charon, 2002 A unique and groundbreaking collection of 58 articles organized in 13 thematic sections that takes a structural conflict approach yet lets the voices of those impacted by social problems be heard The articles are a mix of classic and contemporary readings that cover a wide range of issues in the United States and the world The introductory article written by the author focuses on four questions that students are urged to apply throughout the reader What is the problem What makes the problem a social problem What causes the problem What can be done This Four Questions approach gives students a consistent sociological framework within which to analyze social problems The articles have been painstakingly selected to hold student interest highlight contemporary social problems and help professors show students how to think sociologically about the social problems around us **Seeing Social Problems** Ira Silver, 2019-12-03 *Seeing Social Problems The Hidden Stories Behind Contemporary Issues* shows students how to think about social problems in a new way by carefully analyzing headline making issues they are already familiar with and illustrating the connection between individual problems and larger social forces Each chapter engages students in thinking about the world sociologically by focusing on a specific case study that represents a more general social problem The chapters always start with the knowledge beliefs attitudes and personal experiences that students bring to the case what author Ira Silver refers to as the conventional wisdom and effectively demonstrate to them the first wisdom of sociology things are not what they seem In each instance Silver shows how sociologists ask questions gather empirical data use multiple perspectives and consider larger social forces to discover the hidden stories behind individual behavior *Social Problems and Inequality* John Alessio, 2016-04-01 *Social Problems and Inequality* explores integrated and root cause based explanations of complex social problems Written in clear and understandable language allowing it to be used for classroom purposes it addresses the most fundamental principles of how humans acting through social units create and eventually can remedy social problems With a central focus on the problem of inequality and the manner in which this is manifested in crime social class and stratification this book examines the key theoretical perspectives relevant to the study and solution of social problems whilst drawing upon rich illustrations and case studies from the US and Europe to offer a thorough examination of the nature common root causes and social remedies of social problems Providing discussions of both theoretical approaches and concrete applications *Social Problems and Inequality* investigates the sources of various prejudices and attitudes that contribute to social problems and the associated issues of globalization economic greed and imperialism Accessible in style and comprehensive in its coverage this book will appeal to students and scholars of social problems across the social sciences
