Social Inequality Comparative And Developmental Approaches Studies In Anthropology:

Social Inequality Gerald Duane Berreman, Kathleen M. Zaretsky, 1981 **The SAGE Handbook of Cultural Anthropology** Lene Pedersen, Lisa Cliggett, 2021-03-31 The SAGE Handbook of Cultural Anthropology is the first instalment of The SAGE Handbook of the Social Sciences series and encompasses major specialities as well as key interdisciplinary themes relevant to the field Globally societies are facing major upheaval and change and the social sciences are fundamental to the analysis of these issues as well as the development of strategies for addressing them This handbook provides a rich overview of the discipline and has a future focus whilst using international theories and examples throughout The SAGE Handbook of Cultural Anthropology is an essential resource for social scientists globally and contains a rich body of chapters on all major topics relevant to the field whilst also presenting a possible road map for the future of the field Part 1 Foundations Part 2 Focal Areas Part 3 Urgent Issues Part 4 Short Essays Contemporary Critical Dynamics **Micro And Macro Levels Of Analysis In Anthropology** Pertti J Peltto, 2019-04-05 Arguing that there are insufficient theoretical and methodological guidelines for articulating microlevel and macrolevel analyses of sociocultural phenomena contributors to this volume review the history of micro macro issues in anthropology and provide a framework for a more systematic examination of potential linkages among levels In addition **21st Century Anthropology: A Reference Handbook** H. James Birx, 2010-06-10 Highlighting the most important topics issues questions and debates these two volumes offer full coverage of major subthemes and subfields within the discipline of anthropology **Emerging Sexual Inequality among the Lisu of Northern Thailand** Klein-Hutheising, 2023-07-31 The Lisu people whose lives have been recorded in this publication are predominantly women of a mountain community in northern Thailand Along with their men they have been growing poppies for opium for over a century the sales of which have been sustained their non authoritarian society and its implied reputé ideology While living with them for several years the author observed how newly introduced substitute crops involving a change in production and trade relations had upset the previously egalitarian basis of female and male worth as exemplified in the metaphor of elephant and dog The modified gender system in which the Lisu female has become an underdog is described against the backdrop of conventional ideas regarding the cosmic forces the division of labour bridewealth and marriage **Anthropology and Contemporary Human Problems** John H. Bodley, 2012-04-12 We live in a time of global mega problems of unsustainable growth and consumption resource depletion ecosystem degradation global warming escalating energy costs poverty and conflict Cultural anthropologist John H Bodley trenchantly critiques these most pressing issues and shows how anthropology makes it possible to find solutions The focus on culture scale suggests that many solutions may be found by developing local communities supported by regional markets and ecosystems rather than by making the continuous accumulation of financial capital the dominant cultural process throughout the world Now in its sixth edition this classic textbook continues to have tremendous relevance and is more timely than ever in light of the recent global

economic crisis It exposes readers to the problems of a world out of balance with misdirected growth by the elite Bodley offers examples from prehistoric and modern tribal societies along side of ancient imperial and contemporary commercial societies Students will find this to be the trusted source to build a world view Anthropology and Contemporary Human Problems is ideal for adoption in anthropology and sociology courses on globalization cultural ecology social class and inequality the environment sustainability and development

Sternberg,Elena L.

Grigorenko,2014-04-08 This bk explores how the environment influences the development and maintenance of cognitive abilities. State, Capital, And Rural Society Ben Orlove, Michael W Foley, Thomas F Love, 2019-09-05 This volume represents recent anthropological research on the political economy of Latin America. Dependency theories, modes of production analysis, and theories of the state all attempt to conceptualize the interrelations among class, interest, and at some level, power. All three that is, focus on classical questions of political economy. The studies presented in this volume both draw on the insights of this literature and challenge the grander theories in important respects. The chapters in this volume represent an anthropological contribution to the political economy of Latin America, a bypassing of dependency theory and the adoption of its successors' mode of production analysis and state theory.
