Social Influence On Ethical Behavior In Organizations:

Social Influences on Ethical Behavior in Organizations John M. Darley, David M. Messick, Tom R. Tyler, 2001-03-01
For too long organizational scientists have not adequately attended to the problems of unethical behavior in organizations. This collection of essays provides the stimulus needed to help move the study of unethical behavior to center stage in the organizational sciences. It does so by posing provocative questions that not only entail a concern for understanding unethical behavior but that also strike at the very core of how and why organizations function as they do. The book addresses the asymmetries in power and influence created by hierarchies that give rise to ethical problems, the tactics that might reduce the effectiveness of improper influence attempts, and how the inappropriate use of influence diffuses, for example, through a market.

Social Influences on Ethical Behavior in Organizations John M. Darley, David M. Messick, Tom R. Tyler, 2001-03
This collection of essays provides the stimulus needed to help move the study of ethics in organizations to center stage and stimulate social scientists to seek ways of enhancing the human condition.

Research Companion to Corruption in Organizations Ronald J. Burke, Cary L. Cooper, 2009-01-01 This is a very timely book. The coverage it gives to the topic is superb. The individual organisational and institutional causes of corruption are laid out along with analyses of the choices that we all have to make to deal with its consequences. In these times of increased scrutiny of corporate behaviour there is something to learn here for policy makers, corporate leaders and researchers alike. Paul Sparrow, Lancaster University, UK. Ronald Burke and Cary Cooper have assembled the most comprehensive volume of work available today on the topic of organizational corruption. However, the volume is far reaching in more than just its content. In addition to attracting some of the most widely read scholars in the area, Burke and Cooper have found space for a number of bright new voices and thus insights as well.

This makes for a volume that is as vibrant and exciting as it is complete. Scholars not only should read it they will enjoy doing so. Marshall Schminke, University of Central Florida, US. Corruption in organizations is creating an increasing number of victims and causing huge costs. This timely book brings together international researchers who address the causes and consequences of corruption in organizations and the action needed to reduce levels of corruption worldwide. Corruption is a worldwide problem and is likely to increase as a result of the current economic meltdown. Specific attention is devoted to causes of corruption such as individual levels of moral development, moral disengagement, greed, the routinisation of corruption and organizational factors such as conflicts of interest, reward systems and organizational cultural values. The Companion suggests methods and examples to reduce levels of corruption that include education and training, whistleblowing, the increase of organizational controls through rules and structure and developing an ethical organizational culture. Academics and postgraduate students interested in both crime and corruption in organizations will warmly welcome the Companion. Policymakers in government, those involved in professional services such as accountants and lawyers as well as managers of any organization interested in conducting ethical business will find the Companion invaluable. **Power and**

Influence in Organizations Roderick M. Kramer, Margaret A. Neale, 1998-08-11. This volume is a readily accessible compilation of current original research in the area of power and influence in organizations. Power and Influence in Organizations offers a rich exploration of emerging trends and new perspectives. Contributors include leading scholars in organizational behavior and theory and major contemporary intellectual pioneers in research on power and influence including Samuel B. Bacharach, Robert Cialdini, Edward J. Lawler and Jeffrey Pfeffer. Each contributor provides insight into his or her own research, an overview of general trends and thoughts about the direction of future research. Topics examined include manipulation of employee perceptions and values, the links between power and accountability, sharing power, the effects of gender on power and influence, illusions of influence and impression management. Advanced students and scholars in organizational behavior, social influence, power and politics, conflict management and institutional politics will find Power and Influence in Organizations stimulating and a useful roadmap to present and future research. **Corporate**

Implementing Halal Principles and Regulations in Business Governance Almunawar, Mohammad Nabil, Ubaedillah, Achmad, Amalia, Euis, Thoha, Anis Malik, 2025-04-25 Implementing Halal principles and regulations in business governance is essential for companies seeking to operate ethically within Muslim majority markets or cater to Muslim consumers globally Halal refers not only to food and beverage products but extends to finance pharmaceuticals cosmetics and even digital services For businesses adhering to Halal principles ensures their products services and operations align with Shariah law which emphasizes ethical behavior transparency fairness and social responsibility In practice this may require developing specific governance frameworks that oversee compliance with Halal standards engaging qualified Halal certification bodies and implementing rigorous internal controls to ensure product integrity This could also drive innovation in new markets as it enhances consumer trust and loyalty while providing a competitive advantage As global

interest in Halal goods and services grows businesses must meet the regulatory requirements while fostering a culture of ethical business practices that resonate with diverse consumer groups ensuring compliance credibility and long term sustainability Implementing Halal Principles and Regulations in Business Governance explores the integration of Halal principles in business practices production and services It examines policies and regulations in business to ensure Halal compliance in global businesses This book covers topics such as business production biochemistry and Islamic finance and is a useful resource for business owners economists policymakers government officials academicians researchers and data scientists

Ethics, Psyche and Social Responsibility Ana Maria Davila Gomez, 2016-05-23 The last few decades have seen significant changes in the structure of business organizations including downsizing outsourcing and flattened management structures The effects on employees have been considerable In this context the importance of the psychological contract between employer and employee has been overlooked and there is uncertainty about what can be done to bring about changes to this contract and ultimately the future of organizations This important book considers the psychological aspects of organizational life particularly in the context of firms ethical behaviour and its implications for corporate social responsibility The authors consider the effects of corporate activity and change on individuals not just in their working lives but also in their family and social lives They address a diverse number of topics from a variety of theoretical standpoints in an ongoing attempt to redress this neglected field of research

Corruption and governance in Asia J. Kidd, F. Richter, 2002-11-14 This book delves into the nature of governance in Asia both at government and corporate level It reviews the history and suggests potential solutions for years of underperformance due to the corrupt practices that have developed because of a poor understanding of corporate governance The authors are experts in practices in Asia and their views are expressed in a sympathetic manner at no time insisting that a western model of governance is correct Instead the authors advise local models appropriate to the state of development and suggest that individual countries institute behavioural models that will mature as nations quickly develop in an increasingly global world
