*Environmental Risks and the Media* Barbara Adam, Stuart Allan, Cynthia Carter, 2013-01-11 *Environmental Risks and the Media* explores the ways in which environmental risks threats and hazards are represented transformed and contested by the media At a time when popular conceptions of the environment as a stable natural world with which humanity interferes are being increasingly contested the medias methods of encouraging audiences to think about environmental risks from the BSE or mad cow crisis to global climate change are becoming more and more controversial Examining large scale disasters as well as everyday hazards the contributors consider the tensions between entertainment and information in media coverage of the environment How do the media frame expert counter expert and lay public definitions of environmental risk What role do environmental pressure groups like Greenpeace or eco warriors and green guerrillas play in shaping what gets covered and how Does the media emphasis on spectacular events at the expense of issue sensitive reporting exacerbate the public tendency to overestimate sudden and violent risks and underestimate chronic long term ones

**After Tragedy Strikes** Thomas D. Beamish, 2024-04-09 While trauma and loss can occur anywhere most suffering is experienced as personal tragedy Yet some tragedies transcend everyday life s sad but inevitable traumas to become notorious public events de facto public tragedies In these crises suffering is made publicly visible and lamentable Such tragedies are defined by public accusations social blame outpourings of grief and anger spontaneous memorialization

and collective action These in turn generate a comparable set of political reactions including denial denunciation counterclaims blame avoidance and a competition to control memories of the event Disasters and crises are no more or less common today than in the past but public tragedies now seem ubiquitous After Tragedy Strikes argues that they are now epochal public tragedies have become the day s definitive social and political events Thomas D Beamish deftly explores this phenomenon by developing the historical context within which these events occur and the role that political elites the media and an emergent ideology of victimhood have played in cultivating their ascendance *Moral Panics in the Contemporary World* Julian Petley, Chas Critcher, Jason Hughes, Amanda Rohloff, 2016-05-19 Moral Panics in the Contemporary World represents the best current theoretical and empirical work on the topic taken from the international conference on moral panics held at Brunel University The range of contributors from established scholars to emerging ones in the field and from a working journalist as well helps to cover a wide range of moral panics both old and new and extend the geographical scope of moral panic analysis to previously underrepresented areas Designed from the outset to comprise a coherent and integrated set of viewpoints which share a common engagement with critically exploring moral panics in the contemporary world it contains case studies instantly recognisable and familiar to a student readership drugs alcohol sexual abuse and racism The collection brings a fresh approach to analysis and argument by testing and extending the concept of moral panic and analyzing a range of topics and geographical contexts accurately reflecting the state of the art moral panics research today
