persons moving around in the EU*

Social Security In Europe Development Or Dismantlement

Jochen Clasen

Social Security In Europe Development Or Dismantlement:

Social Security in Europe: Development Or Dismantlement? Niels Ploug, Jon Kvist, 1996-03-21 Social Security in Europe Development or Dismantlement provides a probing cross national study of social security in eight Northern European countries Germany France the Netherlands the United Kingdom Sweden Finland Norway and Denmark Coverage includes An analysis of the social security situation in each country including a discussion of related problems an in depth examination of the main trends and challenges in social security with reference to current national social policy debates and particular emphasis on the financing and provision of social security in the selected countries and an identification and assessment of some of the principles which have guided the development of various national systems in terms of their implications for the provision of social security i e personal scope of application allocation criteria and benefit formulae for both unemployment and old age pensions Practitioners politicians researchers and anyone looking for a straightforward introduction to social security in other countries will appreciate Social Security in Europe Development or Dismantlement a concise straightforward presentation of a vast amount of information on social security Social Insurance in Europe Jochen Clasen, 1997 This comprehensive study into one of the central aspects of most welfare states provides a systematic and comparative analysis of social insurance regimes in 10 European countries with very different traditions of welfare

Globalization, Europeanization and the End of Scandinavian Social Democracy? R. Geyer, C. Ingebritsen, J. Moses, 1999-11-10 This book attempts to explore the impact of globalization and Europeanization on the development of Scandinavian social democracy It is divided into three main sections economic policy welfare state social policy and social democratic party strategies Each section examines how globalization and Europeanization impacts on these central policy and strategy arenas The book argues that despite the growing importance of global and European forces the Scandinavian social democracies have managed to defend and maintain their particular social democratic development trajectories

Trends in EU Health Care Systems Winfried de Gooijer, 2007-03-20 For decades the nations of the European Union wrote the book on universal health coverage Recent economic developments however have created problems ranging from widening inequities of care to growing numbers of uninsured a progression expertly described by Win de Gooijer in Trends in EU Health Care Systems De Gooijer's dual background as an economist and the CEO of Dutch health care corporations together with his broad international experience give him a unique understanding of his subject He traces world economic currents that have affected quality of and access to health care throughout the EU trends that took years to develop but are coming to rapid fruition Comparative illustrations from Europe and the US show national interests at odds with global ones as governments transfer social responsibilities to market driven agencies Included in his discussion Expansion versus reform a forty year analysis of Europe's health care systems Why governments cannot completely control the always evolving dynamics of health care Ethical and medical issues arising from the continent's changing politics Predictions on future

directions in EU health care how much change is possible how much is necessary Some may find De Gooijer's ideas startling and the book is bound to be the subject of controversy But it is critical reading for health care managers and policymakers politicians and insurers advanced students of public health in short anyone looking to Europe for the next phase of this far reaching evolution This book is a very important contribution to the debate about the future direction of health policy in Europe It captures the economic and social trends that underpin health systems with a keen and objective eye and poses some very challenging questions about the future It will not be a comfortable read for politicians but it is a book that must be read Brian Edwards President of the European Hospital and Health Care Federation HOPE The concept of subsidiarity is prohibitive to a sound discussion of health care systems on a European level Economic principles dominate the debate and their consequences for health care are hardly understood The author bridges the gap between economic and health care developments and wrote a book that is essential reading for policy makers and health care managers who really care Rob Koning Past President of the European Health Management Association EHMA The future development of European health policy should not be an exclusively political affair Hospital managers should also be actively involved particularly as regards the design and organization of present and future European hospitals For this purpose this book is a useful and well founded manual It not only clarifies the dangers but also points to the challenges and possible alternative policy options Therefore this book should be in the boardroom of each and every European hospital Willy Heuschen Secretary General of the European Association of Hospital Managers EAHM Win de Gooijer brings immense clarity to a complex issue In this book he draws major and new conclusions and raises many challenging questions We hope this book will draw the attention it deserves Gerard Vincent President International Hospital Federation

The Enlarged European Union Peter Mair, Jan Zielonka, 2002 The European Union will be a much more diversified entity after the forthcoming eastward enlargement The applicant states from Eastern Europe are much poorer than the current member states from Western Europe Their democracy and in some cases even their statehood is newly established and presumably more fragile Their economic legal and administrative structures are less developed This collection of essays will try to examine the origin nature scale and implications of this divergence How much divergence is likely to be imported by the Union and will it hamper the process of European integration This volume looks at differences and similarities in the field of macro economics welfare systems democracy institutional infrastructure civic orientations and popular culture The book shows that the map of convergence and divergence in the future EU will be very complex and will not correspond exactly with the old east west divide Moreover the division lines are constantly changing with the enlargement process representing an important factor pushing individual states into a single regulatory frame if not in a common political direction However there are other unifying factors at play globalization produces different models and loyalties than Europeanization Moreover the European pulling effect works unevenly in different functional fields and in different countries There are also many factors that produce greater divergence

rather than convergence across the European Union a certain degree of divergence is thus unavoidable The book shows in particular that certain types of divergence can be beneficial rather than merely detrimental in the process of European integration

Global Capital, Political Institutions, and Policy Change in Developed Welfare States Duane Swank, 2002-02-11 This book argues that the dramatic post 1970 rise in international capital mobility has not systematically contributed to the retrenchment of developed welfare states as many claim Nor has globalization directly reduced the revenue raising capacities of governments and undercut the political institutions that support the welfare state Rather institutional features of the polity and the welfare state determine the extent to which the economic and political pressures associated with globalization produce Welfare state retrenchment

Nordic Welfare States in the European Context Johan Fritzell, Bjorn Hvinden, Mikko Kautto, Jon Kvist, Hannu Uusitalo, 2005-07-28 This important sequel to Nordic Social Policy Routledge 1999 compares welfare state development over the last twenty years in Denmark Finland Norway and Sweden with that of Germany the Netherlands the United Kingdom and other Western European countries Topics covered include income distribution health inequalities and gender equality gender policies health and social care services and policy reaction to family changes social security and employment policies financing of welfare states In the context of globalisation ageing populations changing employment patterns and rising inequalities Nordic Welfare States in the European Context offers an empirical analysis of welfare adaptations and a lively discussion of the historical development of European social policy It finds a greater ambiguity regarding variation and trends than is commonly suggested Contrary to expectation there is little evidence of the Europeanisation of Nordic welfare states rather the reverse The comparable and empirical data used in this study make it a unique contribution to understanding current trends in European social policy

The Survival of the European Welfare State Stein Kuhnle, 2003-09-02 Crisis Breakdown Dismantlement Since the 1970 s these have become the catchphrases used to describe the condition of the welfare states in Europe in academic and media analyses alike This book provides an alternative more optimistic interpretation It aims to increase both theoretical understanding and empirical knowledge of recent welfare reforms in areas including Spain Denmark the UK Germany and the EU as a whole An essential resource for students researchers and practitioners with an interest in the welfare state

Pension Security in the 21st Century Gordon L. Clark, Noel Whiteside, 2003-11-20 Focusing on how Europe and the USA are dealing with the demographic financial and political pressures on pension security this book seeks to explore the links between two spheres often considered separately i e old age security and global finance

The New Politics of the Welfare State Paul Pierson, 2001 The welfare states of the affluent democracies now stand at the centre of political discussion and social conflict In these path breaking essays an international team of leading analysts rejects simplistic claims about the impact of economic globalization Economic demographic and social pressures on the welfare state are very real but many of the most fundamental challenges have little to do with globalization Nor do the authors detect signs of a convergence of national

social policies towards an American style lowest common denominator The contemporary politics of the welfare state takes shape against a backdrop of both intense pressures for austerity and enduring popularity Thus in most of the affluent democracies the politics of social policy centre on the renegotiation restructuring and modernization of the post war social contract rather than its dismantling The authors examine a wide range of countries and public policies arenas including health care pensions and labour markets They demonstrate how different national settings affect whether and on what terms centrist efforts to restructure the welfare state can succeed The State and Social Welfare, 1997 Peter Flora, Philip R. De Jong, Julian Le Grand, Jun-Young Kim, 2018-12-20 First published in 1998 this volume contains an edited selection of papers presented at the Fifth International Research Seminar on Issues in Social Security held on 14-17 June 1997 in Sweden by the Foundation for International Studies on Social Security FISS in memory of Brian Abel Smith The chapters cover a wide range of subjects related to old age pension reform family policy employment privatization of social security and health care The authors form a body of well established researchers and scholars of world wide reputation as well as younger scientists stemming from various continents and representing a range of relevant disciplines This volume is the fourth in a series on international studies of issues in social security The series is initiated by the Foundation for International Studies on Social Security FISS One of its aims is to confront different academic approaches with each other and with public policy perspectives Another is to give analytic reports of cross nationally different approaches to the design and reform of welfare state programs The Political Economy of German Unification Thomas Lange, J. R. Shackleton, 1998 Examines such issues as privatization monetary reform and unemployment in reunified Germany Contributors from economics and politics discuss the complex processes of the unification and what can be learned from it about economies and societies that undergo profound transformations They suggest that Europe as a whole is about to encounter such change of like magnitude Annotation copyrighted by Book News Inc Portland OR **Allocating Public and Private Resources across Generations** Anne H. Gauthier, C.Y. Cyrus Chu, Shripad Tuljapurkar, 2006-09-25 This book explores how demographic changes affect inter generational transfers of time money goods and services all things that play a role in the well being of individuals and families It details the nature and measurement of transfers their motives and mechanisms and their macro level dimensions especially in the context of demographic transitions Coverage includes original empirical analyses of datasets from some twenty countries and extends the traditional analysis of inter generational transfers by examining different types of transfers **Understanding Social Citizenship** Peter Dwyer, 2010-06-09 This accessible textbook provides students with the knowledge and background they need to understand the concept of citizenship in the UK the EU and global institutions The book combines an outline of competing perspectives on citizenship with an evaluation and appreciation of the implications that class gender ethnicity disability and age may have for the social and citizenship status of certain individuals and groups It offers a clear sense of the history of citizenship and the key theoretical debates that have informed contemporary

understandings of the concept Fully revised and updated this second edition includes a new chapter on ageing and older citizens plus new topical sections The book's easy to digest text boxes will aid learning and teaching *International Social Security Review*, 1998 **Welfare States and the Future** B. Vivekanandan, N. Kurian, 2005-01-06 This volume presents a thought provoking analysis of key welfare state issues engaging policy makers across the globe It provides a unique and comprehensive evaluation of the state of welfare states developed and developing It maps the diversity of welfare regimes across the world and brings to fore the particularities and nuances that characterise them The book also focuses on the on going reforms and makes a powerful case for the increased relevance of the welfare state in a globalizing era

Renegotiating the Welfare State Gerhard Lehmbruch, Frans van Waarden, 2004-02-24 Why have some countries have been more successful in welfare state reform than others This book examines the experiences of various countries in reforming their welfare states through renegotiations between the state and peak associations of employers and employees This corporatist concertation has been blamed for bringing about all the ills of the welfare state but lately corporate institutions have learned from their bad performances modified their structures and style of operation and assumed responsibility for welfare state reform Consensual bargaining is back on the agenda of both policy makers and of social science This topical volume with its internationally respected panel of contributors will appeal to all those interested in the welfare state and labour relations It includes chapters focusing on the Netherlands Austria Sweden Denmark Germany Switzerland and Ireland as well as a section looking at the role of corporatist concertation in the European Union

Changing labour markets, welfare policies and citizenship Goul Andersen, Jørgen, Jensen, Per H., 2002-01-23 Changing labour markets welfare policies and citizenship readdresses the question of how full citizenship may be preserved and developed in the face of enduring labour market pressures It clarifies the relationship between changing labour markets welfare policies and citizenship discusses possible ways in which the spill over effect from labour market marginality to loss of citizenship can be prevented specifies this problem in relation to the young older people men and women and immigrants offers theoretical and conceptual definitions of citizenship as a new alternative approach to empirical analyses of labour market marginalisation and its consequences highlights the lessons to be learned from differing approaches in European countries

The Social Quality of Europe Wolfgang Beck, 1997-06-11 This book brings together leading European social scientists to focus on the essential questions concerning the future of the European Union EU The Social Quality of Europe contains the most comprehensive and detailed analysis conducted so far of the relationship between EU economic and social dimensions it introduces an entirely new concept to European discourse social quality which will inspire examination and debate from a unique perspective This work consists of specially commissioned original chapters from experts in the fields of economics law political science social policy and sociology together with critical commentaries and syntheses focusing on employment social protection social exclusion and provision for older people it provides a unique source of reference on

current economic and social policies in the EU and sets the agenda for a new debate about the quality of life aspired to by European citizens The book is essential reading for undergraduate and postgraduate students in the social sciences policymakers at local national and state of the art assessment of European social and economic policies *Small Transformations* János Mátyás Kovács, 2003 East Central Europe is about to bring its welfare reforms to the European Union Nevertheless in the course of the Accession one could hardly fix the European standards of social policy or examine to what degree the newcomers may have approached them Evidently there has always been a variety of welfare regimes in the EU Moreover today's experts in post communist countries do not find stable policies and institutional arrangements in the West but rather another reform process the domestication of the classical welfare states True the general trends are not dissimilar partial retrenchment decentralization marketisation and privatisation of public welfare services as well as an upsurge of the voluntary sector are the main characteristic features of regulating welfare on both sides of the former Iron Curtain These issues are addressed by the contributors of this volume leading representatives of their professions in an unprecedented way In avoiding the convenient cliché
