Socialism, Sex, and the Culture of Aestheticism in Britain, 1880-1914 Ruth Livesey, 2007-10-18 This book examines the lives and works of a group of writers at the heart of the revival of the socialist movement in Britain It examines the beliefs and sexual politics of familiar figures like William Morris and George Bernard Shaw alongside those of lesser known writers and activists like Edward Carpenter and Isabella Ford *The Oxford Encyclopedia of Women in World History* Bonnie G. Smith, 2008 The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4 volume work Although there has been extensive research on women in history by region no text or reference work has comprehensively covered the role women have played throughout world history The past thirty years have seen an explosion of research and effort to present

the experiences and contributions of women not only in the Western world but across the globe. Historians have investigated women's daily lives in virtually every region and have researched the leadership roles women have filled across time and region. They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been affected. The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes. The Encyclopedia contains over 1,250 signed articles arranged in an A-Z format for ease of use. The entries cover six main areas: biographies, geography and history, comparative culture and society, including adoption, abortion, performing arts, organizations and movements such as the Egyptian Uprising and the Paris Commune, women's and gender studies, and topics in world history that include slave trade, globalization, and disease. With its rich and insightful entries by leading scholars and experts, this reference work is sure to be a valued go-to resource for scholars, college and high school students, and general readers alike.

Women and the Making of Built Space in England, 1870-1950 Elizabeth Darling, Lesley Whitworth, 2017-03-02. This interdisciplinary collection explores the relationships between women and built space in England between the 1870s and the 1940s. Historians working in cultural, literary, architectural, urban design, labour, and social history approach the topic through case studies of often neglected organisations, individuals, practices, and initiatives. Included are East End rent collectors, tenants, diarists, and correspondents, the All Europe House, the Women's Co-operative Guild, the Housewives Committee of the Council of Industrial Design, provincial and metropolitan exhibitors, and activists of varying kinds. Moving beyond the study of buildings and their designers, the volume considers the making of space in its broadest sense, from the production of discourses to the consumption of domestic appliances and the performance of roles as diverse as social reformers, committee members, and homemakers. It thereby demonstrates that women made a significant contribution to the creation of modern built environments in both public and private spheres.

The British Women's Suffrage Campaign 1866-1928 Harold L. Smith, 2014-05-12. This Seminar Study was the first book to trace the British women's suffrage campaign from its origins in the 1860s through to the achievement of equal suffrage in 1928. In this second edition, Smith provides new evidence drawn from the author's research on how the main post-1918 women's organisation, the NUFCW, worked with Conservative Party women to persuade the Conservative Party to endorse equal franchise rights. Smith focuses on the actions of reformers and their opponents, with due attention paid to the campaigns in Scotland and Wales as well as the movements in England. He explores why women's suffrage was such a contentious issue and how women gained the vote despite opponents' fears that it would undermine gender boundaries. Suitable for students studying the Suffrage Movement, modern British history, and the history of gender.

Striking a Light Louise Raw, 2011-03-10 In July 1888 fourteen hundred women and girls employed by the matchmakers Bryant and May walked out of their East End factory and into the history books Louise Raw gives us a challenging new interpretation of events proving that the women themselves not celebrity socialists like Annie Besant began it She provides unequivocal evidence to show that the matchwomen greatly influenced the Dock Strike of 1889 which until now was thought to be the key event of new unionism and repositions them as the mothers of the modern labour movement Returning to the stories of the women themselves and by interviewing their relatives today Raw is able to construct a new history which challenges existing accounts of the strike itself and radically alters the accepted history of the labour movement in Britain

Labour Inside the Gate Matthew Worley, 2005-03-24 In 1906 a confident Labour Party felt that it was already rattling the governing classes Its campaigning

cartoon which gives this book its title showed the party wielding an axe towards the gates of Parliament cutting through the special interests protecting the old system to aid the working classes What followed was the remarkable transformation of a parliamentary pressure group into a credible governing force The inter war years were a crucial stage in the development of the Labour Party as it grew from pressure group status to national opposition to party of government At the end of the Great War 1914-1918 Labour had a developing national organisation and a fledgling constitution By 1922 it rivalled the war ravaged Liberals as the party of opposition a fact that was affirmed with the formation of the first minority Labour government in January 1924 The second Labour administration of 1929 collapsed amidst the whirlwind of the great depression but the organisational basis of the party remained solid allowing Labour to reinvent itself over the 1930s By the Second World War the foundations had been laid for the landslide victory that brought in the Attlee government of 1945 Matthew Worley has written the first study dedicated solely to this crucial period in Labour's development In an accessible style he provides a comprehensive account of all aspects of the movement Using a wide range of sources he explores this often marginalised period in Labour's history both looking at the parliamentary party and the growing network of constituency parties Worley's approach unites high politics and issues that cross local and national boundaries He combines policy social history and economics with broader themes such as gender and culture Labour inside the Gate will appeal to students and scholars as well as all those interested in Labour's history Its new insights into the 1945 landslide victory illuminate this important period in the growth of the Labour Party as it continues to redefine and realign itself as the new party of government

For Women, For Wales and For Liberalism Ursula Masson, 2010-02-01 This book explores the neglected history of women who were active in Liberal politics campaigning for women's rights the vote and a full role for women in Welsh public life at the end of the nineteenth century and before the First World War The overarching argument of the book is that Welsh women's Liberal politics was distinctive in its attempt to integrate an understanding of Liberalism which they shared with their English counterparts and which included the aim of full equality for women with a distinctively Welsh political agenda and constructions of Welsh national identity These constructions sometimes included a positive view of women in the nation but in times of political crisis redefined gender on a more reactionary model *British Socialist Fiction, 1884-1914* Deborah Mutch, 2024-07-31 Socialism in late Victorian and Edwardian Britain was a highly literate movement Every socialist group produced some form of written text through which their particular brand of politics could be promoted This edition collects serialized fiction and short stories that have not been published since their original appearance **The Women in the Room** Nan Sloane, 2018-09-30 In February 1900 a group of men representing trade unionists socialists Fabians and Marxists gathered in London to make another attempt at establishing an organisation capable of getting working class men elected to Parliament The body they set up was the Labour Representation Committee six years later when 29 of its candidates were elected to the House of Commons it changed its name to the Labour Party No

women took part in that first meeting but several watched from the public gallery Amongst them was Isabella Ford an active socialist and trade unionist who would have been familiar to most of the men assembled below She had been asked by her friend Millicent Fawcett to attend and report back on what happened Millicent was the President of the National Union of Women's Suffrage Societies and Isabella had been involved with the suffrage movement for a long time A few years later she would become the first woman to speak at a Labour Party conference moving a resolution on votes for women but at the Party's inception in 1900 she and every other woman in the hall was silent Throughout Labour's history even in its earliest years women were present in the room but they were not always recorded or remembered They came from many different backgrounds and they worked for the causes they believed in as organisers campaigners negotiators polemicists public speakers and leaders They took on the vested interests of their time sometimes they won Yet the vast majority of them have been forgotten by the Labour movement that they helped to found Even Margaret Bondfield who became Britain's first woman cabinet minister often barely merits a footnote Women made real and substantial contributions to Labour's earliest years and had a significant impact on the Party's ability to attract and maintain women's votes after World War I In addition to Margaret and Isabella in many of the rooms in which the Labour Party found its feet remarkable women wait to be rediscovered This book tells their story

The Rise of Women's Transnational Activism Marie Sandell, 2015-01-26 What characterised women's international co-operation in the interwar period How did female activists from different countries and continents relate to one another Marie Sandell here explores the changing experiences of women involved in the major international women's organisations including the International Council of Women International Alliance of Women Women's International League for Peace and Freedom and the International Federation of University Women as well as the changing compositions and aims of the organisations themselves Moving beyond an Anglo-American focus Sandell analyses what the term international sisterhood meant in this broader context which for the first time included women from the beyond the Western world Focusing on shifting identities this book investigates how notions of sisterhood were played out and contested during the interwar period and will be invaluable reading for scholars of women's history and twentieth century world history

Sisters and Sisterhood Lyndsey Jenkins, 2021-11-01 The Kenney family grew up in Saddleworth outside Oldham in the last decades of the nineteenth century In 1905 three of the sisters met Christabel Pankhurst a turning point which changed the rest of their lives Annie Kenney became one of the leaders of the Women's Social and Political Union WSPU Jessie was an organiser at the heart of the organisation and Nell campaigned outside the capital Caroline and Jane used their connections within the suffrage movement as the springboard for careers in innovative education on both sides of the Atlantic While working class women are increasingly acknowledged in histories of the WSPU this study is the first to make them the primary focus and in doing so it opens up a new conversation around sex class and politics and how these categories interacted in this period This is a study of the possibilities for and experiences of working class women in the militant

suffrage movement It identifies why these women became politically active their experiences as activists and the benefits they gained from their political work It stresses the need to see working class women as significant actors and autonomous agents in the suffrage campaign It shows why and how some women became politicised why they prioritised the vote above all else and how this campaign came to dominate their lives It also places the suffrage campaign within the broader trajectory of their lives to stress how far the personal and political were intertwined for these women Although this is a book about working class suffragettes Lyndsey Jenkins also reveals what it says about women as workers and teachers religious believers and political thinkers and friends and colleagues as well as suffragettes Above all it is a study of sisterhood

British Socialist Fiction, 1884-1914, Volume 1 Deborah Mutch, 2024-08-07 Socialism in late Victorian and Edwardian Britain was a highly literate movement Every socialist group produced some form of written text through which their particular brand of politics could be promoted This edition collects serialized fiction and short stories that have not been published since their original appearance *Emmeline Pankhurst* June Purvis, 2003-09-02 Emmeline Pankhurst was perhaps the most influential woman of the twentieth century This fascinating full length biography draws upon new approaches to feminist biography to place her within the context of her family and friends
