The Search for Fundamentals Lieteke van Vucht Tijssen, Jan Berting, Frank Lechner, 2013-06-29 Modernity dissolves absolute certainties late modernity dissolves them absolutely In the modern world system there appears to be no firm unchallenged ground on which to construct a meaningful canopy But around the world many individuals and groups long for a kind of cultural coherence that they believe once existed They search for fundamentals While these may be sought in religious traditions many also aspire to new secular certainties In their various new forms and contexts the contemporary quests for meaning in turn transform the societies in which they occur The rich comparative examples in The Search for Fundamentals are used to analyze the sources and consequences of several cultural movements The book also offers theoretical reflections on the difficulties they experience and on the message they carry for students of modernity Audience A broad readership of scholars and advanced students in the social sciences and humanities

action to local governments to act now and tap into the energy of Africa's burgeoning youth population. In doing so, the authors expand extant literature on the continent's coping with globalization in the context of young people in various African nations. Featured in the collection are views on education, language, agriculture, sport, and technology deeply interwoven into the schooling behavior and health of youth. Specifically, these practices are found in both formal and non-formal education, agricultural production and food nutrition, computer technology, and sport's amelioration of health issues throughout Africa.

Europe Hans-Georg Ziebertz, Ulrich Riegel, 2008 Religion is back on the agenda. Western societies are searching for an adequate understanding of religion. Media move religion into focus as a resource of significance in modern societies but also as a source of tension and conflict. Politics is testing how to manage religious pluralism. Education is developing concepts of interreligious dialogue in order to promote a better intercultural understanding. The book discusses if the concept post-secularity allows a suitable understanding of the public presence of religion.

The SAGE Encyclopedia of Intellectual and Developmental Disorders Ellen Braaten, 2018-01-29 This encyclopedia provides an interdisciplinary approach discussing the sociocultural viewpoints, policy implications, educational applications, and ethical issues involved in a wide range of disorders and interventions.

Corporate Social Responsibility Disclosure in Developing and Emerging Economies Uzoechi Nwagbara, Samuel O. Idowu, Yahaya Alhassan, 2024-10-12 This book offers a new, nuanced and comprehensive look at how CSR is practiced and disclosed in terms of corporate transparency, sustainability, and accountability from the perspective of developing and emerging economies. Given the importance and power of emerging economies in shaping global gross domestic product (GDP), entrepreneurship, and corporate investment, it is crucial to examine this phenomenon in terms of corporate sustainability and achieving the ideals of the Sustainable Development Goals (SDGs) for a more sustainable future. The book therefore addresses contextual, institutional, regulatory, and governance issues in these regions to contribute to the debate as well as a rethinking of the motivation for CSR practice and reporting. The book will be of interest to researchers, practitioners, and students.
