**Society and Democracy in Germany** Ralf Dahrendorf, 1967      **Society and Democracy in Germany** Ralf Dahrendorf, 1979      *Fascist Italy and Nazi Germany* Richard Bessel, 1996-03-28 A collection of essays comparing key aspects of Nazi Germany and Fascist Italy      **Society, Culture, and the State in Germany, 1870-1930** Geoff Eley, 1996 Bold new essays on Germany's critical Kaiserreich period      **Germany's Second Reich** James Retallack, 2015-07-06 Despite recent studies of imperial Germany that emphasize the empire's modern and reformist qualities the question remains to what extent could democracy have flourished in Germany's stony soil In Germany's Second Reich James Retallack continues his career long inquiry into the era of Bismarck and Kaiser Wilhelm II with a wide ranging reassessment of the period and its connections with past traditions and future possibilities In this volume Retallack reveals the complex and contradictory nature of the Second Reich presenting Imperial Germany as it was seen by outsiders and insiders as well as by historians political scientists and sociologists ever since      **Parties, Opposition and Society in West Germany (RLE: German Politics)** Eva Kolinsky, 2018-10-24 In this volume originally published in 1984 the author examines the social composition of the electorate of membership and leadership of West German political parties as well as their representation and finances Kolinsky argues that while affiliation and electorates remained distinct the social composition of party organisations became narrower and more uniform The book examines how the parties became alienated from contemporary West German society and discusses the difficulties experienced by opposition parties in trying to develop alternative strategies in particular those of the Green Party      **Creating a Democratic Civil Society in Eastern Germany** C. Olivo, 2001-05-03 This book examines normative theories of civil society and deliberative democracy by using a case study of the East German citizen movements that led the democratic opposition against the communist regime These movements espoused political ideals and engaged in public activities with striking affinities to recent normative theoretical conceptions of civil society Tracing the history of the citizen movements from the 1970s through the 1990s this study analyzes their attempts to transform German politics through a politics of civil society This case reveals the democratic potential of civil society theories as well as the obstacles facing the realization of alternative visions of democracy in contemporary liberal democracies      **Society and Democracy in Germany by Ralf Dahrendorf, Thirty Years on** Leslie Juckel, 1996      **Civil Society and Memory in Postwar Germany** Jenny Wüstenberg, 2017-09-07 Blending history and social science this book tracks the role of social movements in shaping German public memory and values since 1945 Drawn from extensive original research it offers a fresh perspective on the evolution of German democracy through civic confrontation with the violence of its past Told through the stories of memory activists the study upends some of the conventional wisdom about modern German political history An analysis of the decades long struggle over memory and democracy shows how grassroots actors challenged and then took over public institutions of memorialization In the process confrontation of the Holocaust has been pushed to the centre of political

culture In unified Germany memory politics have shifted again as activists from East Germany have brought attention to the crimes of the East German state This book delivers a novel and important contribution to scholarship about postwar Germany and the wider study of memory politics *Climate Action and Civil Society in Turkey and Germany* Hande Paker, 2025-09-04 This book explores the social and political dynamics that shape the impacts of climate change drawing upon Turkey and Germany to offer a comprehensive comparative analysis Civil society representatives the climate movement the youth and arts and culture actors from around the world unequivocally call for a deep transformation of political economic and social structures in order to avoid the devastating effects of climate change The transformation that is prescribed is perceived as insufficient technocratic and market based and does not involve challenging power relations at the heart of climate action This book addresses these concerns using a comparative analysis to explore the issues and efficiency of a meaningful sustainable transition The in depth comparison of two conventionally dissimilar cases Turkey and Germany demonstrates that civil society actors in different political settings can use similar strategies and frames for climate action against state actors In turn states use similar depoliticization strategies albeit via different mechanisms and economic growth narratives to reproduce hegemony The book untangles the different processes that create the contentious politicized common ground in which these stakeholders interact with each other The findings of this research have significant implications for many developing and developed countries alike where climate policymaking is painstakingly inadequate This book will be of interest to students researchers and academics interested in political ecology climate politics and politics of development
