Sociological Ambivalence And Other Essays:

Sociological Ambivalence and Other Essays Robert King Merton, 1976 **Robert K. Merton and Contemporary Sociology** Carlo Mongardini, 2018-04-17 This volume offers scholars of sociology and allied areas the fruits of an international conference on the contributions of the eminent Robert K Merton. The assessment is as good in content as well as in participants took place in Amalfi Italy with the participation of Merton himself and under the auspices of the Italian Sociology Association. Carlo Mongardini aptly summarizes the unique impact of Merton on the social theory of our century. His strength as a classic writer lies in his balance unveiling complexity and in his humanism which looks beyond the apparent simplicity and coherence of social reality. A special treat is the final chapter by Merton reviewing Unanticipated Consequences and Kindred Sociological Ideas. In it he ranges from the historical antecedents of the concept to his own evolution in the use and expansion of the idea. Merton approaches the development of his thought as installments rather than simple evolution and in so doing gives us unique insight into how he built upon his originating notions in the context of social science as it existed in the United States. Tensions between integrating scholarship and reaching the general public provide a special insight into Merton that might prove new even to those who know his work well. Contributors to this original volume include Volker Meja, Nico Stehr, Paolo Ammassari, Gianni Statera, Birgitta Nedelmann, Harriet Zuckerman, Piotr Sztompka, Peter Gerlich, Charles Crothers, Elena Besozzi, and Arnold Zonglerle among others. The chapters address the full range of Merton's work with special emphasis on such areas as anomie, structural analysis, the relationship of theory to research, patterns of latent and manifest influence, and even the application of Mertonian concepts to the analysis of Merton as a scholar. This unusual compendium translated from the Italian will interest social researchers across the academic spectrum.

American Sociological Theory Robert Bierstedt, 2013-09-24 American Sociological Theory: A Critical History discusses the history of American sociological theory by providing a selective and critical account of ten writers largely involved in the subject. Chapters 1 to 10 of this book are devoted to the contributions and investigations of ten acclaimed sociological theorists: William Graham Sumner, Lester Frank Ward, Charles Horton Cooley, Edward Alsworth Ross, Florian Znaniecki, Robert Morrison MacIver, Pitirim A. Sorokin, George A. Lundberg, Talcott Parsons, and Robert K. Merton. The sociological label, legacy of Spencer, normative taboo, American references, and the Holy Trinity Marx, Durkheim, and Weber are also elaborated in this text. This publication is a good reference for students and researchers conducting work on general sociological theory.

Social Theory as a Vocation Donald N. Levine, 2017-07-28 In this unprecedented collection Donald N. Levine rejuvenates the field of social theory in the face of lagging institutional support. The work canvasses the universe of types of theory work in sociology and offers probing examples from his array of scholarly investigations. *Social Theory as a Vocation* throws fresh light on the texts of classic authors: Comte, Durkheim, Simmel, Weber, Park, Parsons, and Merton. Ranging widely, its substantive chapters deal with the sociology of strangers and the somatic dimensions of social conflict, the social functions of ambiguity,

and the use of metaphors in science contemporary dilemmas of Ethiopian society logical tensions in the ideas of freedom and reason and the meaning of nationhood in our global era The book includes Levine's transformative analysis of the field of Ethiopian studies and his acclaimed interpretation of the discontents of modernity It makes the bold move to merge philosophically informed analyses with empirical work Finally Levine focuses on what he views as the contemporary crisis of liberal education and offers suggestions for ways to stimulate new efforts in teaching and learning to do social theory This book is an integral contribution to social science collections and should be read by all interested in the future of the social sciences

The Politics of Expertise Stephen P. Turner, 2013-11-07 This book collects case studies and theoretical papers on expertise focusing on four major themes legitimation the aggregation of knowledge the distribution of knowledge and the distribution of power It focuses on the institutional means by which the distribution of knowledge and the distribution of power are connected and how the problems of aggregating knowledge and legitimating it are solved by these structures The radical novelty of this approach is that it places the traditional discussion of expertise in democracy into a much larger framework of knowledge and power relations and in addition begins to raise the questions of epistemology that a serious account of these problems requires

Social Control and Multiple Discovery in Science Susan E. Cozzens, 1989-01-01 Recognition for accomplishment is a major institutional reward in the scientific community thus regulating disputes over credit for discovery can be viewed as an important problem in social control Cozzens examines a well known dispute one that took place with the discovery of the opiate receptor in neuropharmacological research The issues Cozzens discusses priority disputes social control and norms and morals are important throughout the sciences they are crucial factors in the lives of scientists the functioning of scientific communities and the day to day operations of scientific organizations

Women in Law Cynthia Fuchs Epstein, 2012-03-10 Universally considered to be pathbreaking landmark original and provocative since its first edition was published three decades ago WOMEN IN LAW continues to provide a sociological and historical analysis of the overt and subtle ceilings placed on women in the legal profession in their various roles It is a foundational work for departments of gender studies law and sociology but also reads as accessible and interesting to a general audience Adding a new foreword by Stanford's Deborah Rhode the thirtieth anniversary edition of this classic book reports countless revealing interviews war stories and inside glimpses of the many professional roles that women inhabit lawyers judges professors leaders and backroom labor It also brings vividly to life the candid and sometimes cringeworthy assessments by male lawyers and judges about the changes to the profession ushered in by the increasing entry of women to the lawyers club Part of the Classics of Law Society Series from Quid Pro Books Adds a new Foreword from Stanford's Deborah Rhode

The Future of the Sociological Classics (RLE Social Theory) Buford Rhea, 2020-07-26 In this important volume of specially commissioned essays nine leading sociologists present their answers to the question What use are the sociological classics today They report on the latest scholarship on neglected features of the various masters on promising applications and

unrecognised implications Liquid Organization Jerzy Kociatkiewicz, Monika Kostera, 2014-03-14 Widely known as a leading intellectual Zygmunt Bauman's thinking is often categorized as sociology or philosophy. But his work has been hugely influential in other fields as well, not least within organization studies. From increasing management control and growing standardization of work activities to the increase in uncertainty and insecurity experienced by contemporary workers, organizations themselves are becoming ever more ephemeral entities. Bauman's themes: globalization, liquid modernity and postmodern ethics are arguably fundamental to contemporary notions of organization and management, and his thinking has never been more relevant. However, despite the obvious and continuing influence of Bauman's ideas on business studies, there has been no comprehensive attempt to chart his impact on organization theory. In this innovative and insightful collection, an international selection of leading management scholars explore key topics in current organizational discourse, including networked organizations, control and ambiguity, technologies, work and responsibility, extending Bauman's liquid modernity to the liquid organization. The book will be essential reading for scholars and academics, and students in management and organizational theory, and also sociology, managing culture and organizational ethnography. **Clinical Sociology** Puspa Melati Wan, Abdul Halim Wan, 2020-07-29 This lucidly written textbook covers the historical background of clinical sociology as a field and its developing trends around the world. It addresses the urgent need for sociologists to develop a clinical approach in their effort to improve society, with the emphasis that clinical sociology should complement the work of other disciplines such as clinical psychology, social work and social anthropology. This book discusses in depth the concept of clinical sociology itself and the obligations of clinical sociologists. It fills a gap in the literature which reveals a lack of discussion and consensus on the roles and responsibilities of clinical sociologists, therefore making an important contribution to clinical sociology and sociology more broadly. Graduate students, practitioners and professionals in the field of clinical sociology, social work and other related disciplines will find this book very useful. **The Legacy of Anomie Theory** Freda Adler, William S. Laufer, 2020-03-06 This sixth volume of *Advances in Criminological Theory* is testimony to a resurgent interest in anomie strain theory which began in the mid 1980s and continues unabated. Contributors focus on the new body of empirical research and theorizing that has been added to the anomie tradition that extends from Durkheim to Merton. The first section is a major 75 page statement by Robert K. Merton examining the development of the anomie and opportunity structure paradigm and its significance to criminology. *The Legacy of Anomie Theory* assesses the theory's continuing usefulness, explains the relevance of Merton's concept of goals-means disparity as a psychological mechanism in the explanation of delinquency, and compares strain theory with social control theory. A macrosociological theoretical formulation is used to explain the association between societal development and crime rates. In other chapters, anomie is used to explain white collar crime and to explore the symbiotic relationship between Chinese gangs and adult criminal organizations within the cultural, economic and political context of the American Chinese community. *On Social Structure and Science* Robert

K. Merton,1996-09-15 Robert K Merton is unarguably one of the most influential sociologists of his time A figure whose wide ranging theoretical and methodological contributions have become fundamental to the field Merton is best known for introducing such concepts and procedures as unanticipated consequences self fulfilling prophecies focused group interviews middle range theory opportunity structure and analytic paradigms This definitive compilation encompasses the breadth and brilliance of his works from the earliest to the most recent Merton s foundational writings on social structure and process on the sociology of science and knowledge and on the discipline and trajectory of sociology itself are all powerfully represented as are his autobiographical insights in a fascinating coda Anchored by Piotr Sztompka s contextualizing introduction Merton s vast oeuvre emerges as a dynamic and profoundly coherent system of thought a constant source of vitality and renewal for present and future sociology

The Social Lens Kenneth Allan,2010-05-13 The Social Lens An Invitation to Social and Sociological Theory Second Edition is an upper division undergraduate social theory textbook that introduces the student to the major classical and contemporary theorists The theorists were chosen for the diversity of their perspectives as well as their ability to introduce the student to contemporary theory Dr Allan uses a lively informative writing style to engage the students in the eras of social change that spawned the major sociological theories and then applies them to the current era which also is experiencing major social change

Rethinking Race, Politics, and Poetics Brett St Louis,2007-12-12 This book assesses the oeuvre of Trinidadian activist intellectual C L R James in its entire polymath range analyzing his writings across disciplines and genres as well as his varied political and cultural concerns

Functionalist Construction Work in Social Science Peter Sohlberg,2021-03-31 An understanding of the complex consequences of social processes and social design activities necessitates a holistic systemic perspective systematised in the classic structural functional research tradition which is presented in *Functionalist Construction Work in Social Science* In contrast to fragmented discussions of functionalism and functional analyses the approach here covers a span ranging from ontological epistemological and primarily methodological aspects of functionalism The functionalist tradition in social science is placed in a historic context and problematised from a philosophy of science perspective Unique here is a detailed account of four classic functionalist research programmes with a discussion of functionalism not primarily as a worldview but as systematic knowledge generating research strategies In addition to descriptive and causal questions the importance of a further research question is demonstrated i e the identification of crucial problems of social organisation Functionalist research strategies and functional analysis are of interest for social scientists and students in sociology political science and social anthropology Moreover the book is relevant for researchers and students of philosophy of science and social science methodology

Ritual and Its Consequences Adam B. Seligman,Robert P. Weller,Bennett Simon,Michael J.,Michael J. Puett,Simon,2008-02-21 Drawing on examples from many places and times this work argues for the continuing tension across historical contexts between movements emphasizing ritual and movements emphasizing sincerity It contends that our

contemporary age has at great risk downplayed the importance of ritual

The Nonprofit Sector in International Perspective Estelle James, 1989 Publisher Description American Social and Political Thought Andreas Hess, 2003-04 This concise comprehensive primer on modern American social and political thought is the ideal introduction to the rich intellectual tradition of the United States Andreas Hess helps the reader to understand of American culture and politics through careful exploration of key and theorists In the first half of the book he focuses on the core traditions of American social and political thought American exceptionalism Calvinist Protestantism republicanism liberalism and 20th century pragmatism The second half of the book applies these traditions to a broad range of 20th century conditions and issues power and democracy justice and injustice multiculturalism and pluralism civil society social theory and the role of the intellectual The works of some of the most influential figures in the field such as De Tocqueville Lipset Arendt Hartz Pocock Dewey Moore Rawls Walzer Rorty and Alexander are drawn upon to illustrate the theories and issues being discussed Accessibly written and jargon free this treatment will be useful for students and scholars alike

Adam Smith's Political Philosophy Craig Smith, 2006-01-16 When Adam Smith published his celebrated writings on economics and moral philosophy he famously referred to the operation of an invisible hand Adam Smith's Political Philosophy makes visible this hand by examining its significance in Smith's political philosophy and relating it to similar concepts used by other philosophers thus revealing a distinctive approach to social theory that stresses the importance of the unintended consequences of human action The first book to examine the history of Smith's political philosophy from this perspective this work introduces greater conceptual clarity to the discussion of the invisible hand and the related notion of unintended order in the work of Smith as well as in political theory more generally By examining the application of spontaneous order ideas in the work of Smith Hume Hayek and Popper this important volume traces similarities in approach and from these constructs a conceptual composite model of an invisible hand argument While setting out a clear framework of the idea of spontaneous order the book also builds the case for using this as an explanatory social theory with chapters on its application in the fields of science moral philosophy law and government

Social Dynamics of the Life Course Walter R. Heinz, Victor W. Marshall, In the last two decades research on the life course has successfully combined and integrated different and rather isolated fields of social concerns such as the labor market family solidarity education employment retirement and social policy It has also developed a special focus on crucial problems of sociological research which includes the understanding of micromacro phenomena the dynamics of social change and international comparisons Contributors to this volume take an international comparative approach in applying the life course theoretical framework to issues of work and career Life course research focuses on the relationship between institutions and individuals across the life span and illuminates the impact of modernization on the shaping of biographies Industrial service societies are characterized by historically new contingencies of living arrangements and biographies These contingencies differ according to the extent to which life course patterns are

regulated by social institutions In the continental European context institutional frameworks continue to define the timing and sequencing of transitions across the life course In less regulated market societies like the United States and Great Britain biographies and living arrangements are shaped more by the interaction of markets social networks and individual decisions In active welfare states institutional resources and rules continue to mediate the effects of social change on the life course What the editors and contributors to this fine compendium anticipate is a change on the cultural level toward more equality This trend supports young people and women in particular in their expectations concerning an egalitarian relationship This expectation is not taken for granted from the point of view of the male partner but has to be negotiated in decisionmaking processes as an issue that concerns the couple as a unit Thus the way in which people interact is profoundly impacted by the values and goals of equity demands Walter R Heinz is professor of sociology and social psychology and director Graduate School of Social Sciences University of Bremen Victor W Marshall is professor of sociology and director of the Institute on Aging University of North Carolina at Chapel Hill Carolina

Sociological Ambivalence And Other Essays Introduction

In today's digital age, the availability of Sociological Ambivalence And Other Essays books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Sociological Ambivalence And Other Essays books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Sociological Ambivalence And Other Essays books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Sociological Ambivalence And Other Essays versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Sociological Ambivalence And Other Essays books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Sociological Ambivalence And Other Essays books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Sociological Ambivalence And Other Essays books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized

books and historical documents. In conclusion, Sociological Ambivalence And Other Essays books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Sociological Ambivalence And Other Essays books and manuals for download and embark on your journey of knowledge?

FAQs About Sociological Ambivalence And Other Essays Books

1. Where can I buy Sociological Ambivalence And Other Essays books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
