more accessible for all The book begins by presenting anecdotes and the author's personal story to lay the foundation for what literacies are and what literacy is not An activity Spiral of Literacy allows readers to reflect on their own literacies Chapters that follow each begin with a story that sets the theoretical foundation Each chapter concludes with an action section that demonstrates how to turn theory to practice whether you are in a library a classroom or at home A final chapter envisions what libraries might look like in 10 years through interviews with librarians teachers and others interested in literacy
