Story Of Bahauallah Promised One Of All Religions:

The Story of Baha'u'llah Druzelle Cederquist, 2005 Describes Bah u ll h s life straightforwardly but with drama and a talent for evoking the ambience of the 19th century Persian and Ottomoan milieus Five appendices cover a chronology of the events in the life of Bah ull h s life Bah ull h s family the branches of Islam millennial Christians and his younger half brother M rz Yahy The Story of Bahá'u'lláh, Promised One of All Religions Druzelle Cederquist, 2005 *The Story of the Bahai Movement, a Universal Religion* Sydney Sprague, 1911 **The Challenge of Bahá'u'lláh** Gary L. Matthews, 2005 Author Gary Matthews documents why he believes that the Revelation of Baha u llah is divine in origin representing a unique summons of unequalled importance to humanity The book contains discussions of Baha i prophecies concerning historical events and scientific discoveries Among the events and discoveries discussed are the fall of the Ottoman Empire the worldwide erosion of ecclesiastical authority the Holocaust and the development of nuclear weapons A new and updated edition The previous edition George Ronald was a limited release and not offered to the U S trade consumer market *The Story of the Bahai Movement* Sydney Sprague, 1908 **The Bahai Movement for Universal Religion, Brotherhood and Peace** Charles Mason Remey, 1912 Constructive Principles of the Bahai Movement Charles Mason Remey, 1917 The Bahai Revelation and Reconstruction Charles Mason Remey, 1919 **Middle Eastern Founders of Religion** Solomon Nigosian, 2015-08-01 This book presents an academic introduction to the life and teachings of five Middle Eastern founders of religion five individuals whose systems of faith thought and action have won the allegiance of millions All believed to have experienced a personal encounter with the divine a voice directly from the beyond to proclaim God s message to the community or people to which they belonged All attracted followers and opponents Similarities in their religious outlook abound but differences between the five pervade their approach toward society and culture with issues of law war women morality ethics the kingdom of God life after death and eternal judgment distinguishing their respective beliefs An Introduction provides an overview of the political history of the Middle East based on four periods Early Persian Hellenistic and Roman and a brief description of the surviving religious traditions of the Middle East including a proposal regarding the nature of so called selected individuals Five chapter texts separately address each religious founder from the viewpoint of readers from the Judaic and Christian traditions in terms of the religious world into which each individual appeared the traditional account as presented by available sources or evidences the reliability of the available sources or evidences for reconstructing their biographies and a critical assessment of both the sources or evidences and the traditional account A concluding chapter compares the similarities and differences of the received divine messages and notes that no new message has ever succeeded in shaking off entirely the influence of the faith from which it arose The work has been specifically designed for student adoption in Religious Studies **A Spiritual History of the Western Tradition** Rabbi Barry Albin, 2008-08-01 This is a history book about how we came to believe what we believe and the effects of our faith upon the

world around us The commentary is insightful and biting This book is for a person who wants to be challenged *Secret Scrolls* Robert M. Price,2010-12-27 *Secret Scrolls* is the very first examination of some forty novels in which someone discovers a new gospel Sometimes it turns out to be a hoax will it be debunked before it can work its mischief If it proves genuine will it be brought to light Or will corrupt church officials manage to prevent it The book evaluates what each author has to say about historical Jesus scholarship or New Testament research in general Sometimes the authors have done their homework other times they haven't bothered and they wind up dishing up crazy rewrites of history and outlandish theories These novels deal with abiding issues of faith even without some new discovery As soon as one engages in biblical apologetics one has stepped onto the marshy ground of probabilistic arguments an entirely different epistemology that automatically replaces simple faith And so one comes to hold one's religious convictions more tentatively having become genuinely vulnerable to new evidence One may not remain a believer for long On the other hand one invites fanaticism if one's faith is dangerously predicated on the assurance that no new discovery will send one back to the drawing board *Secret Scrolls* assesses what each author imagines it would take to derail and debunk Christianity How mighty a blow must be dealt before the religion would fall Dan Brown's notion that a married Jesus would debunk the Nicene Creed is laughable As Wilbert Francis Howard once argued in his brief and fascinating history of New Testament research there is a genuine romance of New Testament scholarship and many of us are delighted to have the adventure continue in the speculative imaginations of capable novelists These books can both entertain and educate and so will *Secret Scrolls* New Age Globalization A. Ahmad,2013-07-03 Using the frameworks of systems theory modernization and the world system *New Age Globalization* presents a composite multilevel multidirectional picture of globalization informed by eight different but interdependent subsystems *Major Faith Traditions of India* V. S. Lalrinawma,2007 *The Indian Review* ,1914
