*The Routledge Handbook of Archaeology and Plastics* Genevieve Godin, Þóra Pétursdóttir, Estelle Praet, John Schofield, 2024-09-17 The Routledge Handbook of Archaeology and Plastics investigates the archaeology of the contemporary world through the lens of its most distinguishing and problematic material Plastics are ubiquitous and have been so for nearly three generations since they became widely used in the early 1950s Plastics will persist for millennia their legacies as toxic heritage being felt deep into the future In this book comprising 32 original at times disturbing and critically engaged contributions scholars from archaeology and other cognate disciplines explore plastics from a number of different angles and perspectives Together these contributions highlight the dilemma that plastics present their usefulness on the one hand and the threats they present to environmental health on the other The volume also explores the lessons that archaeologists can learn from plastics about episodes of mass production consumption and toxicity in the past and also importantly about the future This important and

timely collection will therefore be of interest to all archaeologists irrespective of their period of study or their geographical focus and to students of archaeology and cultural heritage It will also be relevant for researchers and students in other fields of study that focus on plastics and their environmental and social impacts Ultimately this book concerns the contemporary world and the impact of people upon it through the archaeological lens **The Politics of Plastic** Kevi L.

Whitworth,2025-06-26 What if plastic isn't just polluting the planet but rewriting the rules of life itself From the oceans to the womb plastic has invaded every corner of our world We wear it eat it breathe it and now we even bleed it Trapped in Plastic is a searing exposé that cuts through the greenwashed marketing and corporate spin to reveal the truth this isn't just a pollution crisis It's a political one With razor sharp storytelling visual evidence and hard hitting research this book unpacks Why recycling was never meant to work and who knew it all along How petrochemical giants like ExxonMobil and Dow rewrote the rules of sustainability The global trade system that ships plastic waste to the Global South and calls it recycling The dangerous chemicals hiding in packaging baby bottles and food containers How microplastics enter your body disrupt your hormones and may pass to future generations But Trapped in Plastic isn't just a warning it's a wake up call Featuring whistleblower quotes mock ads vintage style graphics and 20 practical actions for change this is a book for anyone tired of being told the problem is their shopping bag It's time to name names follow the money and imagine a world that isn't drowning in plastic Because the question isn't whether we can live without plastic It's whether we can survive with it

**The Handbook of International Trends in Environmental Communication** Bruno

Takahashi, Julia Metag, Jagadish Thaker, Suzannah Evans Comfort, 2021-12-27 This handbook provides a comprehensive review of communication around rising global environmental challenges and public action to manage them now and into the future. Bringing together theoretical, methodological, and practical chapters, this book presents a unique opportunity for environmental communication scholars to critically reflect on the past, examine present trends, and start envisioning exciting new methodologies, theories, and areas of research. Chapters feature authors from a wide range of countries to critically review the genesis and evolution of environmental communication research and thus analyze current issues in the field from a truly international perspective, incorporating diverse epistemological perspectives, exciting new methodologies, and interdisciplinary theoretical frameworks. The handbook seeks to challenge existing dominant perspectives of environmental communication from and about populations in the Global South and disenfranchised populations in the Global North. The Handbook of International Trends in Environmental Communication is ideal for scholars and advanced students of communication, sustainability, strategic communication, media, environmental studies, and politics.
