Whaling Captains of Color Skip Finley,2022-02-15 The history of whaling as an industry on this continent has been well told in books including some that have been bestsellers but what hasn't been told is the story of whaling's leaders of color in an era when the only other option was slavery Whaling was one of the first American industries to exhibit diversity A man became a captain not because he was white or well connected but because he knew how to kill a whale Along the way he could learn navigation and reading and writing Whaling presented a tantalizing alternative to mainland life Working with archival records at whaling museums in libraries from private archives and interviews with people whose ancestors were whaling masters Finley culls stories from the lives of over 50 black whaling captains to create a portrait of what life was like for these leaders of color on the high seas Each time a ship spotted a whale a group often including the captain would jump into a small boat row to the whale and attack it at times with the captain delivering the killing blow The first second or third mate and boat steerer could eventually have opportunities to move into increasingly responsible roles Finley explains how this skills based system propelled captains of color to the helm The book concludes as facts and factions conspire to kill the industry including wars weather bad management poor judgment disease obsolescence and a non renewable natural resource Ironically the end of the Civil War allowed the African Americans who were captains to exit the difficult and dangerous occupation and make room for the Cape Verdean who picked up the mantle literally to the end of the industry

Whalemen of the Josephine Pat Holenstein,2003 The early phase of industrialization in America devastated many lives by what the author calls The Fiery Furnace Effect Not only were the initial participants affected but much of the effect through them was carried over into the subsequent generation and beyond in some cases This novel focuses upon the intergenerational impact for two decades in the life of young Adam Vasilyevich born out of wedlock in 1926 in the Loch Jean coal camp of Paine County West Virginia His early personal development in what Borges would call his green Garden is detailed as is the subsequent series of events that strip him of his human connections and even his identity Then he is uprooted from his native soil like a hickory sapling and is banished into for Adam the urban wilderness of Detroit There he is abandoned by his mother who was his last bond to his previous existence For six years thereafter Adam is increasingly demoralized and estranged from his life and from his own self At that point he is surely on a path toward a life of crime and self destruction but a fortunate stroke of fate provides new opportunities for a meaningful and gratifying life However Adam

web solution $v_1 = 250 \text{ l}$ $v_2 = 273 \text{ 30 303 K}$ $t_2 = 273 \text{ 70 343 K}$ we will be applying charles law as pressure is constant here $v_1 t_1 = v_2 t_2$ or $v_2 = v_1 t_1 \times t_2 / 250 \text{ l 303 K} \times 343 \text{ K} / 273 \text{ l}$ at 90°C a helium sample has a volume of 500 ml determine the temperature at which the volume of the liquid will become 240 ml
