influence them *Science & Stories* Hilarie N. Staton, Tara McCarthy, 1994 Here's a surefire way to spark interest in both reading and science at the upper elementary level The authors provide reading strategies and activities for 24 popular children's books you can use to integrate reading and science teaching Activities covering oral language writing and cooperative learning apply the science concepts **The Story of Creation as Told by Theology and by Science** Thomas Suter Ackland, 1873 *Art as Performance, Story as Criticism* Craig S. Womack, 2014-10-20 Pick up a work of typical literary criticism and you know what to expect prose that is dry pedantic well meaning but tedious slow going and essentially humorless But why should that be so Why can't more literary criticism have a political edge and be engaging and fast paced Why can't it include drama personal narrative and even humor Why can't criticism become an artistic performance rather than just a discussion of art *Art as Performance Story as Criticism* is Craig Womack's answer to these questions Inventive and often outrageous the book turns traditional literary criticism on its head rejecting distanced purely theoretical argumentation for intimate engagement with literary works Focusing on Native American literature Womack mixes forms and styles He is unafraid to combine meticulous research and carefully considered historical perspectives with personal reactions and reflections The book opens with a short story *The Song of Roe Nld* in which a Native filmmaker loses control of his movie project in part because of his homoerotic attraction to its star The following chapters or musings include original dramas while others more closely resemble traditional literary criticism such as essays discussing the lesser known plays of Lynn Riggs and the stories of Durango Mendoza Still other chapters defy easy categorization such as the piece *Caught in the Current Clinging to a Twig* in which Womack interweaves historical analysis of the state of the Creek Nation in 1908 with a vivid recreation of the last day on earth of Creek poet Alexander Posey Throughout the book the author offers his take on such controversial issues as the Cherokee freedmen issue and the ban on gay marriage In *being different* Womack seeks to breathe new life into literary analysis and introduce criticism to a wider audience Radical groundbreaking and refreshing *Art as Performance Story as Criticism* reinvents literary criticism for the twenty first century **A World Full of Nature Stories** Angela McAllister, 2022-05-03 50 classic nature stories from Angela McAllister are brought to life with sumptuous illustrations from Hannah Bess Ross making this an anthology to treasure for a lifetime and celebrating nature and getting outdoors **Children's Books that Nurture the Spirit** Louise Margaret Granahan, 2003 Children develop in so many ways physically intellectually socially and spiritually Story is just one of the ways to foster and support a child's faith development They can find role models in the positive characters in literature and develop empathy for others when they see a different point of view presented *Children's Books that Nurture the Spirit* is an introduction to quality children's literature for spiritual development The most current and readily available children's literature is reviewed by the author In addition Granahan suggests ways for leaders to use and extend the literature **The Story of Creation** T. S. Ackland, 2004-10 The History of the Creation with which the Bible commences is not a mere incidental appendage to God's Revelation but constitutes the

foundation on which the whole of that Revelation is based Setting forth as it does the relation in which man stands to God as his Maker and to the world which God formed for his abode it forms a necessary introduction to all that God has seen fit to reveal to us with reference to His dispensations of Providence and of Grace It is however not uncommonly asserted that this history cannot be reconciled with a vast number of facts which modern science has revealed to us and with theories based on observed facts and recommended by the unquestioned ability of the men by whom they have been brought forward At first sight there does seem to be some ground for this assertion Geology for instance makes us acquainted with strata of rock of various kinds arranged in exact order and of an aggregate thickness of many miles which are filled with the remains of a wonderful series of plants and animals these remains not being promiscuously collected but arranged in an unvarying order

The Story of Creation Calum M. Carmichael, 2019-06-07 Calum Carmichael asserts that biblical texts both in the Old and New Testaments which have been the subject of interpretation for centuries are themselves often the products of the ancient authors' interpretation of still other literary compositions. Claiming that parts of the Bible constitute major and very early examples of exegesis Carmichael demonstrates that the author of the story of creation in Genesis 1 produced his work in reaction to troubling issues that arose in the story of the exodus. The author of John's Gospel in turn recounted the life of Jesus in light of the story of creation. Pointing out that much of modern literary criticism has roots in biblical hermeneutics Carmichael turns his attention to the richness and complexity of the ancient world's own modes of interpretation. By doing so he is able to uncover the heretofore unrecognized influence of the exodus story on the creation story and of the creation story on John's Gospel. Carmichael first shows how the author of the seven day scheme of creation in Genesis produced it in response to his reading of the exodus story which was centuries old in his time. He then shows the extent to which the author of John's Gospel was influenced by first century cosmological speculation. Philo's in particular. In the first five chapters of his gospel the author elaborated the details of the creation story to present in allegorical fashion incidents from the life of Jesus.
