It provides practical instruction and concrete examples of how to use the power of story to build literacy and presentation skills as well as to create community in those same educational spaces. This text illustrates the value of storytelling, covers the history of storytelling in libraries and offers valuable guidance for bringing stories to contemporary listeners with detailed instructions on the selection, preparation and presentation of stories. It also provides guidance around the planning and administration of a storytelling program. Topics include digital storytelling, open mics and slams and the neuroscience of storytelling. An extensive and helpful section of resources for the storyteller is included in an expanded Part V of this edition. **Teaching Equity through Children's Literature in Undergraduate Classrooms** Gayatri Devi, Philip Smith, Stephanie J. Weaver, 2023-08-24. Children's literature has been taught in undergraduate classrooms since the mid 1960s and has grown to become a staple of English literature, library science and education programs. Children's literature classes are typically among the most popular course offerings at any institution. It is easy to understand why children's literature classes promise students the opportunity to revisit familiar works with fresh eyes. With the growth of the children's publishing industry and the celebration of recent scholarly interventions in the field, the popularity of the discipline is unlikely to abate. A central question of current children's literature scholarship and practice is how to effectively address contemporary questions of social justice. This collection offers a series of interventions for the practice of teaching equity through children's literature in undergraduate classrooms. It is intended for individuals who teach or who are interested in teaching children's literature to undergraduates. It includes contributions from practitioners from a range of institutional

affiliations disciplinary backgrounds nationalities and career stages Furthermore this volume includes contributions from scholars who belong to groups which are often underrepresented within academia due to race nationality ethnicity gender identity disability or other protected characteristics *Audio Video Review Digest* ,1990 **Positive Classroom**
