Discrimination in Childhood and Adolescence Christia Spears Brown, 2017-03-27 Discrimination impacts most youth at some point Almost all children and adolescents belong to at least one stigmatized group whether they are a Black or Latino boy in school an immigrant or refugee a gay lesbian or bisexual teen or a girl in physics class Discrimination on the basis of race ethnicity immigration status gender sexual orientation and gender identity can have long term academic psychological and social repercussions especially when it is directed at a cognitively developing child or an emotionally vulnerable adolescent How children and adolescents are impacted by this discrimination depends on their cognitive ability to perceive the bias the context in which the bias occurs and resources they have to help cope with the bias This book details synthesizes and analyzes the perception and impact of discrimination in childhood and adolescence across multiple stigmatized social groups to help us better understand the complex phenomenon of discrimination and its long term consequences By looking at the similarities and differences in discrimination across all social groups we can more fully understand its mechanisms of influence Before we can fully address the persistent achievement gap between White and ethnic minority children the high rates of suicidal thoughts among LGBT youth and the underrepresentation of girls in STEM careers we must first examine the ways in which discrimination influences and is understood by children with their unique cognitive constraints and within the specific contexts in which they live

A Comprehensive Guide to Child Custody Evaluations: Mental Health and Legal Perspectives Joanna Bunker Rohrbaugh, 2007-11-26 In order to assist families embroiled in child custody disputes the courts order thousands of child custody evaluations each year Some of these evaluations are brief problem focused assessments aimed at quickly resolving a specific area of dispute Other evaluations are more comprehensive covering all aspects of family functioning in complex cases The process of ordering conducting or assessing either type of child custody evaluation requires a clear understanding of how legal and psychological issues are intertwined in each case This book is designed to meet this need for a comprehensive guide that combines legal information and forensic procedures with the social science research that must be the basis for all custody recommendations and decisions The book should be helpful to three separate but related groups of experienced professionals a family and probate judges b family practice attorneys and c forensic mental health professionals Before they can order a custody evaluation and use the information it provides judges must have a clear

understanding of how to integrate clinical information about each family with the related social science research This book will also enable judges to assess each custody report in terms of a the professional and legal guidelines for conducting custody evaluations and b research based criteria in each area of family functioning The text and CD also offer examples of how best to write orders for custody evaluations and detailed parenting plans that address the issues in each family
