Derrida and Queer Theory Christian Hite, 2017-05-26 Coming from behind derri re how else to describe a volume called *Derrida and Queer Theory* as if arriving late to the party or indeed after the party is already over After all we already have Deleuze and *Queer Theory* and of course Saint Foucault And judging by Annamarie Jagose s *Queer Theory An Introduction* in which there is not a single mention of Derrida or deconstruction even in the sub chapter titled *The Post Structuralist Context of Queer* one would think that Derrida was not only late to the party but was never there at all This untimely volume then with wide ranging essays from key thinkers in the field addresses among other things what could be called the disavowed debt to Derrida in canonical queer theory

Queer Ancient Ways Zairong Xiang, 2018 *Queer Ancient Ways* advocates a profound unlearning of colonial modern categories as a pathway to the discovery of new forms and theories of queerness in the most ancient of sources In this radically unconventional work Zairong Xiang investigates scholarly receptions of mythological figures in Babylonian and Nahua creation myths exposing the ways they have consistently been gendered as feminine in a manner that is not supported and in some cases actively discouraged by the texts themselves An exercise in decolonial learning to learn from non Western and non modern cosmologies Xiang's work uncovers a rich queer imaginary that had been all but lost to modern thought in the process critically revealing the operations of modern colonial systems of gender sexuality and knowledge formation that have functioned from the Conquista de America in the sixteenth century to the present to keep these systems in obscurity At the heart of Xiang's argument is an account of the way the unfounded feminization of figures such as the Babylonian co-creatrix Tiamat and the Nahua creator figures Tlaltecuhltli and Coatlicue is complicit with their monstrification This complicity tells us less about the mythologies themselves than about the dualistic system of gender and sexuality within which they have been studied underpinned by a consistent tendency in modern colonial thought to insist on unbridgeable categorical differences By contextualizing these deities in their respective mythological linguistic and cultural environments through a unique combination of methodologies and critical traditions in English Spanish French Chinese and Nahuatl Xiang departs from the over reliance of much contemporary queer theory on European post modern thought Much more than a queering of the non Western and non modern *Queer Ancient Ways* thus constitutes a decolonial and transdisciplinary engagement with ancient cosmologies and ways of thought which are in the process themselves revealed as theoretical sources of and for the queer imagination

Undoing Privilege Professor Bob Pease, 2021-11-18 For every group that is oppressed another group is privileged Here Bob Pease argues that privilege as the other side of oppression has received insufficient attention in both critical theories and in the practices of social change As a result dominant groups have been allowed to reinforce their dominance The second edition of *Undoing Privilege* extensively revises the six sites of privilege from the first edition Western dominance class elitism white and patriarchal privilege and heterosexual and able bodied privilege to reflect policy shifts and new social movement initiatives as well as the latest research and resources This edition also includes four new chapters on anthropocentrism cisgender privilege adultism and Christian privilege Pease points out that while the vast majority of people may be oppressed on one level many are also privileged on another He demonstrates how members of privileged groups can engage critically with their own dominant position and explores the potential and limitations of them forming relations of solidarity against oppression and their unearned privilege The second edition includes new theoretical developments in privilege theory collective responsibility complicity in systemic injustice and allyship It is an essential book for all who are concerned about developing theories and practices for a socially just world

Heterosexual Masculinities Bruce Reis, Robert Grossmark, 2009-02-17 In recent years there have been substantial changes in approaches to how genders are made and what functions genders fulfill Most of the scholarly focus in this area has been in the areas of feminist gay and lesbian studies and heterosexual masculinity which tended to be defined by lack and absence has not received the critical and scholarly attention these other areas have received *Heterosexual Masculinities* rethinks a psychoanalytic tradition that has long thought of masculinity as a sort of brittle defense against femininity softness and emotionality Reflecting current trends in psychoanalytic thinking this book seeks to understand heterosexual masculinity as fluid multiple and emergent The contributors to this insightful volume take new perspectives on relations between men men's positions as fathers in relation to their sons and daughters the clinical encounter with heterosexual men the social contexts of masculinity and the multiplicity of heterosexual masculine subjectivities What to a previous generation would have appeared as pathological or defensive we now encounter as forms of masculine subjectivity that include wishes for intimacy receptivity and surrender alongside ambition and the pleasures of phallic narcissism

Queering the Ethiopian Eunuch Sean D. Burke, 2013-08-01 Were eunuchs more usually castrated guardians of the harem as florid Orientalist portraits imagine them or were they trusted court officials who may never have been castrated Was the Ethiopian eunuch a Jew or a Gentile a slave or a free man Why does Luke call him a man while contemporaries referred to eunuchs as unmanned beings As Sean D Burke treats questions that have received dramatically different answers over the centuries of Christian interpretation he shows that eunuchs bore particular stereotyped associations regarding gender and sexual status as well as of race ethnicity and class Not only has Luke failed to resolve these ambiguities he has positioned this destabilized figure at a key place in the narrative as the gospel has expanded beyond Judea but before Gentiles are explicitly named in such a way as to blur a number of social role boundaries In this sense Burke argues Luke intended to queer his reader's expectations and so to present the boundary transgressing potentiality of a new community

Sexuality, Iconography, and Fiction in French Jason James Hartford, 2018-02-19 This book explores the modern cultural history of the queer martyr in France and Belgium By analyzing how popular writers in French responded to Catholic doctrine and the tradition of St Sebastian in art *Queering the Martyr* shows how religious and secular symbols overlapped to produce not one but two martyr types These are the queer type typified first by Gustave Flaubert which is a philosophical foil and the gay type popularized by Jean Genet but created by the Belgian Georges Eekhoud which is a political and pornographic device Grounded in feminist queer theory and working from a post psychoanalytical point of view the argument explores the potential and limits of these two figures noting especially the persistence of misogyny in religious culture

provocative combination of bold ethics and subtle aesthetics Queering the Non/Human Myra J. Hird, 2016-05-23 What might it mean to queer the Human By extension how is the Human employed within queer theory These questions invite a reconsideration of the way we think about queer theory the category of the Human and the act of queering itself This interdisciplinary volume of essays gathers together essays by international pioneering scholars in queer theory critical theory cultural studies and science studies who have written on topics as diverse as Christ the Antichrist dogs starfish werewolves vampires murderous dolls cartoons corpses bacteria nanoengineering biomesis the incest taboo the death drive and the queer in queer theory Contributors include Robert Azzarello Karen Barad Phillip A Bernhardt House Jeffrey Jerome Cohen Claire Colebrook Noreen Giffney Judith Halberstam Donna J Haraway Eva Hayward Myra J Hird Karalyn Kendall Vicki Kirby Alice Kuzniar Patricia MacCormack Robert Mills Luciana Parisi and Erin Runions Ten Lessons in Theory Calvin Thomas, 2013-08-01 An introduction to literary theory unlike any other *Ten Lessons in Theory* engages its readers with three fundamental premises The first premise is that a genuinely productive understanding of theory depends upon a considerably more sustained encounter with the foundational writings of Hegel Marx Nietzsche and Freud than any reader is likely to get from the introductions to theory that are currently available The second premise involves what Fredric Jameson describes as the conviction that of all the writing called theoretical Lacan's is the richest Entertaining this conviction the book pays more and more careful attention to the richness of Lacan's writing than does any other introduction to literary theory The third and most distinctive premise of the book is that literary theory isn't simply theory about literature but that theory fundamentally is literature after all *Ten Lessons in Theory* argues and even demonstrates that theoretical writing is nothing if not a specific genre of creative writing a particular way of engaging in the art of the sentence the art of making sentences that make trouble sentences that make or desire to make radical changes in the very fabric of social reality As its title indicates the book proceeds in the form of ten lessons each based on an axiomatic sentence selected from the canon of theoretical writing Each lesson works by creatively unpacking its featured sentence and exploring the sentence's conditions of possibility and most radical implications In the course of exploring the conditions and consequences of these troubling sentences the ten lessons work and play together to articulate the most basic assumptions and motivations supporting theoretical writing from its earliest stirrings to its most current turbulences Provided in each lesson is a working glossary specific critical keywords are boldfaced on their first appearance and defined either in the text or in a footnote But while each lesson constitutes a precise explication of the working terms and core tenets of theoretical writing each also attempts to exemplify theory as a practice of creativity Foucault in itself *Melodrama, Self and Nation in Post-War British Popular Film* Johanna Laitila, 2018-06-22 This book investigates the portrayal of nationalities and sexualities in British post Second World War crime film and melodrama By focussing on these genres and looking at the concept of melodrama as an analytical tool apt for the analysis of both sexuality and nation the book offers insight into the desires fears and anxieties of post war culture

The problem of returning to normalcy after the war is one of the recurring themes discussed. Alienation from society, family, and the self were central issues for both women and men in the post-war years, and the book examines the anxieties surrounding these social changes in the films of the period. In particular, it explores heterosexuality and nationality as some of the most prominent frameworks for the construction of identities in our time. Structures that for all their centrality are made invisible in our culture.

Queer Masculinities John Landreau, Nelson Rodriguez, 2011-09-28 *Queer Masculinities: A Critical Reader in Education* is a substantial addition to the discussion of queer masculinities of the interplay between queer masculinities and education and to the political gender discourse as a whole. Enriching the discourse of masculinity politics, the cross-section of scholarly interrogations of the complexities and contradictions of queer masculinities in education demonstrates that any serious study of masculinity, hegemonic or otherwise, must consider the theoretical and political contributions that the concept of queer masculinity makes to a more comprehensive and nuanced understanding of masculinity itself. The essays adopt a range of approaches from empirical studies to reflective theorizing and address themselves to three separate educational realms: the K-12 level, the

collegiate level and the level in popular culture which could be called cultural pedagogy. The wealth of detailed analysis includes, for example, the notion that normative expectations and projections on the part of teachers and administrators unnecessarily reinforce the values and behaviors of heteronormative masculinity, creating an institutionalized loop that disciplines masculinity. At the same time, and for this very reason, schools represent an opportunity to provide a setting where a broader menu can be introduced and gender sexual meanings, expressions, and experiences boys encounter can create new possibilities of what it can mean to be male. At the collegiate level, chapters include analysis of what the authors call homosexualization of heterosexual men on the university dance floor, while the chapters of the third section on popular culture include a fascinating analysis of the construction of queer counternarratives that can be constructed watching TV shows of apparently hegemonic bent. In all, this volume's breadth and detail make it a landmark publication in the study of queer masculinities and thus in critical masculinity studies as a whole.
