 THE AUTHOR Claire Wargnier is a graduate of ESMOD the world s oldest and most renowned fashion design school where
 she was a pattern drafting professor during thirty years Her experience in the different sectors of the fashion industry have
 allowed her to adapt her teaching methods to the students needs She is also a consultant in the fashion industry works and
 lives in Paris Fostering Children's Mathematical Power Arthur J. Baroody,Ronald T. Coslick,1998-09-01 Teachers have
 the responsibility of helping all of their students construct the disposition and knowledge needed to live successfully in a
 complex and rapidly changing world To meet the challenges of the 21st century students will especially need mathematical
 power a positive disposition toward mathematics curiosity and self confidence facility with the processes of mathematical
 inquiry problem solving reasoning and communicating and well connected mathematical knowledge an understanding of
 mathematical concepts procedures and formulas This guide seeks to help teachers achieve the capability to foster children s
 mathematical power the ability to excite them about mathematics help them see that it makes sense and enable them to
 harness its might for solving everyday and extraordinary problems The investigative approach attempts to foster
 mathematical power by making mathematics instruction process based understandable or relevant to the everyday life of
 students Past efforts to reform mathematics instruction have focused on only one or two of these aims whereas the
 investigative approach accomplishes all three By teaching content in a purposeful context an inquiry based fashion and a
 meaningful manner this approach promotes children s mathematical learning in an interesting thought provoking and
 comprehensible way This teaching guide is designed to help teachers appreciate the need for the investigative approach and
 to provide practical advice on how to make this approach happen in the classroom It not only dispenses information but also
 serves as a catalyst for exploring conjecturing about discussing and contemplating the teaching and learning of mathematics
