Transnationalism and Migration in Global Korea Joanne Miyang Cho, Lee M. Roberts, Sang Hwan Seong, 2023-11-17

Contrary to the image of Korea as a largely self-contained country until its economy became global during the 1990s this book shows that transnationalism has firmly been part of modern Korea's national experience throughout its existence. The volume portrays Korea's frequent transnational entanglements with other nations in East Asia and the West from the start of its annexation into the Empire of Japan in 1910 to the present day. It explores how modern Korea negotiated its complicated colonial relations with imperial Japan and its political and economic relations with the West in meeting the challenges of the globalized world. Early chapters cover the origins of Korea's democratic republicanism among Korean immigrants in the United States, the Royal Dutch oil industry in Korea, and prisons in the Japanese empire. From the latter half of the twentieth century to the present, the book probes Cold War politics between Korea and Europe, transnational Korean communities in China, Japan, the Russian Far East, and the West, and ethnic Korean returnees from the Russian Far East. With contributions from leading international scholars, this collection's attention to modern Korean history, economy, gender studies, and migration is ideal for upper-level undergraduates and postgraduates.
