Strange Language

Jicheng Xie

Strange Language:

Peculiar Language Derek Attridge, 2004-08-02 First published in 1988 this classic text is established as one of the most important discussions of the language of literature Re issued as a result of recent critical interest this edition includes a new preface by the author

Strange Vernaculars Janet Sorensen, 2020-09-08 While eighteenth century efforts to standardize the English language have long been studied from Samuel Johnson's Dictionary to grammar and elocution books of the period less well known are the era's popular collections of odd slang criminal argots provincial dialects and nautical jargon *Strange Vernaculars* delves into how these published works presented the supposed lexicons of the common people and traces the ways that these languages once shunned and associated with outsiders became objects of fascination in printed glossaries from *The New Canting Dictionary* to Francis Grose's *Classical Dictionary of the Vulgar Tongue* and in novels poems and songs including works by Daniel Defoe John Gay Samuel Richardson Robert Burns and others Front jacket flap

Dividing Reality Eli Hirsch, 1993-04-29 Why does our language divide up reality one way rather than another On what rational basis does our language contain certain kinds of general words rather than others Hirsch shows that a language can be constructed which describes reality in ways we would find absurdly irrational for example by classifying normally disparate items under the same general term The apparent irrationality of the new language does not depend on its impoverished fact stating power as this may be equivalent to the fact stating power of ordinary language the problem then is to explain exactly what is wrong with it Various options are explored and criticized such as the hypothesis that language must reflect an underlying objective distinction between natural kinds that there are pragmatic reasons for the way language functions as it does and that as a matter of metaphysical necessity strange ways of dividing up reality are constructions out of ordinary ways Having demonstrated that this newly identified problem is in fact a serious one which cannot be easily solved or brushed aside Hirsch offers his own suggestions for a possible solution

The Handbook of Language and Globalization Nikolas Coupland, 2012-09-17 The Handbook of Language and Globalization brings together important new studies of language and discourse in the global era consolidating a vibrant new field of sociolinguistic research The first volume to assemble leading scholarship in this rapidly developing field Features new contributions from 36 internationally known scholars bringing together key research in the field and establishing a benchmark for future research Comprehensive coverage is divided into four sections global multilingualism world languages and language systems global discourse in key domains and genres language values and markets under globalization and language distance and identities Covers an impressive breadth of topics including tourism language teaching social networking terrorism and religion among many others Winner of the British Association for Applied Linguistics book prize 2011

Wittgenstein, Language and Information: "Back to the Rough Ground!" David Blair, 2006-05-16 The more narrowly we examine language the sharper becomes the conflict between it and our requirement For the crystalline purity of logic was of course not a result of investigation it was a requirement The conflict

becomes intolerable the requirement is now in danger of becoming empty We have got onto slippery ice where there is no friction and so in a certain sense the conditions are ideal but also just because of that we are unable to walk We want to walk so we need 1 friction Back to the rough ground Ludwig Wittgenstein This manuscript consists of four related parts a brief overview of Wittgenstein's philosophy of language and its relevance to information systems a detailed explanation of Wittgenstein's late philosophy of language and mind an extended discussion of the relevance of his philosophy to understanding some of the problems inherent in information systems especially those systems which rely on retrieval based on some representation of the intellectual content of that information And fourthly a series of detailed footnotes which cite the sources of the numerous quotations and provide some discussion of the related issues that the text inspires The first three of these parts can each be read by itself with some profit although they are related and do form a conceptual whole

Language in Danger Andrew Dalby, 2003 Every two weeks the world loses another indigenous language Evolving over hundreds or even thousands of years distinct languages are highly complex and extremely adaptable but they are also more fragile and endangered than we might expect Of the approximately 5 000 languages spoken around the globe today Andrew Dalby predicts that half will be lost during this century How will this linguistic extinction affect our lives Is there a possibility that humanity will become a monolingual species Should we care Language in Danger is an unsettling historical investigation into the disappearance of languages and the consequences that future generations may face Whether describing the effects of Latin's displacement of native languages in the aftermath of Rome's imperial expansion or the aggressive extermination of hundreds of indigenous North American languages through a brutal policy of forcing Native Americans to learn English Dalby reveals that linguistic extinction has traditionally occurred as a result of economic inequality political oppression and even genocide Bringing this historical perspective to bear on the uncertain fate of hundreds of pocket cultures cultures whose languages are endangered by less obvious threats such as multinational economic forces immigration nationalism and global telecommunications Language in Danger speaks out against the progressive silencing of our world's irreplaceable voices More than an uncompromising account of the decline of linguistic diversity Language in Danger explains why humanity must protect its many unique voices Since all languages represent different ways of perceiving mapping and classifying the world they act as repositories for cultural traditions and localized knowledge The growing trend toward linguistic standardization for example politically designated national languages threatens the existence of more marginalized cultures and ethnic customs leaving only a few dominant tongues The resulting languages become less flexible nuanced and inventive as they grow increasingly homogenized Dalby argues that humanity needs linguistic variety not only to communicate but to sustain and enhance our understanding of the world People do not simply invent words out of thin air our creativity and intelligence are to a significant degree dependent on other languages and alternate ways of interpreting the world When languages intermix they borrow and feed off each other and this convergence catalyzes the human

imagination making us more intelligent and adaptable beings **On Strangeness** Margaret Bridges,1990

Psychoanalytic Intersections Elise Miller,2023-10-09 Psychoanalytic Intersections examines the influence and legacy of the Austen Riggs Center one of the oldest psychoanalytically oriented psychiatric hospitals in America and home of the Erikson Institute for Education and Research Former Erikson scholar Elise Miller brings together the work of a wide range of clinicians and scholars who have participated in the Erikson Institute s Visiting Scholars Program Representing a variety of disciplines departments and methodologies the contributors exemplify the cutting edge of interdisciplinary work at the intersections of psychoanalysis and academia psychiatry psychology psychoanalysis and hospital and private practice settings For this unique collection each contributor has selected a piece of their published work to be presented with a new afterword reflecting on how time spent in a clinical setting shaped their thinking and writing These personal narratives also offer a unique opportunity to consider how this kind of scholarship was produced and what it can teach us about the disciplinary crossings and migrations of applied psychoanalysis especially as it continues to extend its insights and influences out into the world around us Psychoanalytic Intersections will be of great interest to psychoanalytic clinicians psychiatrists and psychologists engaged in cross disciplinary work and to academics and scholars of interdisciplinary psychoanalytic studies

The Powers of the False Doro Wiese,2014-11-30 Can literature make it possible to represent histories that are otherwise ineffable Making use of the Deleuzian concept of the powers of the false Doro Wiese offers readings of three novels that deal with the Shoah with colonialism and with racialized identities She argues that Jonathan Safran Foer s *Everything Is Illuminated* Richard Flanagan s *Gould s Book of Fish* and Richard Powers s *The Time of Our Singing* are novels in which a space for unvoiced silent or silenced difference is created Seen through the lens of Deleuze and his collaborators philosophy literature is a means for mediating knowledge and affects about historical events Going beyond any simple dichotomy between true and untrue accounts of what really happened in the past literature s powers of the false incite readers to long for a narrative space in which painful or shameful stories can be included *A Poetic Language of Ageing* Olga V.

Lehmann,Oddgeir Synnes,2023-05-18 Exploring the potential of poetry and poetic language as a means of conveying perspectives on later life this book examines questions such as how can we understand ageing and later life and how can we capture the ambiguities and complexities that the experiences of growing old in time and place entail As poetic language illuminates transfigures and enchants our being in the world it also offers insights into the existential questions that are amplified as we age including the vulnerabilities and losses that humble us and connect us This volume suggests a path towards the poetics of ageing by means of presenting analyses of published poetry on ageing ranging from William Shakespeare to George Oppen the use of reading and writing poetry among lay people in old age including persons living with dementia and the poetic nuances that emerge from other literary practices and contexts in relation to ageing counting personal poetic reflections from many of the contributing authors *Stylistics in a Second Language Context* Rubina

Kamran,2009-06 In most institutions the study of second language literary works has become a dead exercise of learning facts figures and critical opinions about those works The author feels that the judicious use of approaches suggested in stylistics would help second language students to judge things for themselves in a context not naturally attuned to the underlying assumptions of that literature These things would include the use of language thus helping the ESL learner to develop an understanding of the dynamics of the language *The Teaching and Cultivation of the French Language in England during Tudor and Stuart Times With an Introductory Chapter on the Preceding Period* Kathleen Lambley,2020-09-28

How to Teach a Foreign Language Otto Jespersen,2018-09-20 Reproduction of the original How to Teach a Foreign Language by Otto Jespersen *Poetry, Language, and Politics* John Barrell,1988 *An Answer to a Letter [by R. Hurd, Bishop of Lichfield] to T. Leland. Containing an Examination of the Criticism on a Late Dissertation on the Principles of Eloquence. In which is Particularly Shewn, that the ... Bishop of Gloucester [W. Warburton]'s Idea of the Character of an Inspired Language, as Delivered in His Doctrine of Grace, is Acknowledge to be Indefensible by the Learned Vindicator* Thomas LELAND (D.D.),1765 **A Grammar of the Hindūstānī Language** Duncan Forbes,1858 **A Grammar of the Hindústānī Language** Duncan Forbes,1855 *A Grammar of the Hindūstānī Language* Duncan Forbes,1846

Presbyteries Triall: Or The Occasion, and Motives of Conversion to the Catholique Faith, of a Person of Quality, in Scotland William Stuart,1657 The True Method of Preserving the Gælic Language, Or, How to Retrieve the Decaying Honour and Prosperity of the Highlands and Islands of Scotland Neil MacNish,1828
