consider the possibility that they may not be as fictional as we once thought So join Pasquale De Marco on a journey into the unknown Let Pasquale De Marco guide you through the world of cryptids and discover the secrets that they hold If you like this book write a review Jesus and the Essenes Dolores Cannon,1999-12 Originally published Huntsville Ark D Cannon c1985 **Magical Advice -- Pt. 7, from Mysticalgod** , How to Develop your Occult Powers Swami Panchadasi,2021-08-24 In preparing this series of lessons for students of Western lands I have been compelled to proceed along lines exactly opposite to those which I would have chosen had these lessons been for students in India This because of the diametrically opposite mental attitudes of the students of these two several lands The student in India expects the teacher to state positively the principles involved and the methods whereby these principles may be manifested together with frequent illustrations generally in the nature of fables or parables serving to link the new knowledge to some already known thing The Hindu student never expects or demands anything in the nature of proof of the teachers statements of principle or method in fact he would regard it as an insult to the teacher to ask for the same Consequently he does not look for or ask specific instances or illustrations in the nature of scientific evidence or proof of the principles taught He may ask for more information but solely for the purpose of bringing out some point which he has not grasped but he avoids as a pestilence any question seeming to indicate argument doubt of what is being taught him or of the nature of a demand for proof or evidence The Western student on the other hand is accustomed to maintaining the skeptical attitude of mindthe scientific attitude of doubt and demand for proofand the teacher so understands it Both are accustomed to illustrations bringing out the principles involved but these illustrations must not be fanciful or figurativethey must be actual cases well authenticated and vouched for as evidence In short the Western teacher is expected to actually prove to his students his principles and methods before he may expect them to be accepted This of course not from any real doubt or suspicion of the veracity or ability of the teacher but merely because the Western mind expects to question and be questioned in this way in the process of teaching and learning Consequently in this series of lessons I have sought to follow the Western method rather than the Hindu So far as is possible I have avoided the flat positive statement of principles and methods and have sought to prove each step of the teaching Of course I have been compelled to assume the existence of certain fundamental principles in order to avoid long and technical metaphysical and philosophical discussions I have also had to content myself with the positive flat assertion of the existence of the Astral Plane Akashic Records Prana etc which are fundamental postulates of Hindu philosophy and occult sciencefor these are established solely by the experience of those who are able to function on the higher planes themselves But beyond this I have sought to prove by direct and positive evidence adapted to the Western mind every step of my teaching and methods *Of Sinners and Liberals* Rickard DeMille,2000-06 TEXT FOR AUTHOR BIO Rick DeMille has been active in politics for years He has seen liberalism up close as a delegate to state and county Democratic conventions He is also author of the book Y2K What You Need to Know TEXT FOR BOOK DESCRIPTION How would Christ have been received

in a liberal world How would today's rules and regulations change reactions to his life This is a humorous look at how liberalism would have dealt with Christ and His teachings It is presented to us through the eyes of Joe C Fuss a reporter in Jerusalem We also find comments from national radio celebrities Rush Limbaugh and Mark Davis This is truly a unique look at liberalism and its results **Global Medieval Contexts 500 - 1500** Kimberly Klimek, Pamela Troyer, Sarah Davis-Secord, Bryan Keene, 2021-06-30 Global Medieval Contexts 500 1500 Connections and Comparisons provides a unique wide lens introduction to world history during this period Designed for students new to the subject this textbook explores vital networks and relationships among geographies and cultures that shaped medieval societies The expert author team aims to advance a global view of the period and introduce the reader to histories and narratives beyond an exclusively European context Key Features Divided into chronological sections chapters are organized by four key themes Religion Economics Politics and Society This framework enables students to connect wider ideas and debates across 500 to 1500 Individual chapters address current theoretical discussions including issues around gender migration and sustainable environments The authors combined teaching experience and subject specialties ensure an engaging and accessible overview for students of history literature and those undertaking general studies courses Theory boxes and end of chapter questions provide a basis for group discussion and research Full color maps and images illustrate chapter content and support understanding As a result this text is essential reading for all those interested in learning more about the histories and cultures of the period as well as their relevance to our own contemporary experiences and perspectives This textbook is supported by a companion website providing core resources for students and lecturers [Exploring the Crack in the Cosmic Egg](#) Joseph Chilton Pearce, 2014-02-15 The classic follow up to the bestselling The Crack in the Cosmic Egg Explains the process of acculturation and the mechanisms that create our self limiting cosmic egg of consensus reality Reveals how our biological development innately creates a crack in our cosmic egg leaving a way to return to the unencumbered consciousness of childhood Explores ways to discover and explore the crack to restore wholeness to our minds and reestablish our ability to create our own realities In this classic follow up to his bestselling The Crack in the Cosmic Egg Joseph Chilton Pearce explains the process of acculturation and the mechanisms that create our self limiting cosmic egg of consensus reality Laying the groundwork for his later classic Magical Child Pearce shows that we go through early childhood connecting with the world through our senses With the development of language and the process of acculturation not only do our direct experiences of the world become much less vivid but our innate states of nonordinary consciousness become suppressed Trapped in a specific cultural context a cosmic egg we are no longer able to have or even recognize mystical experiences not mediated by the limitations of our culture Motivated primarily by a fear of death our enculturation literally splits our minds and prevents us from living fully in the present Drawing from Carlos Castaneda's writings about Don Juan and the sense of body knowing Pearce explores the varieties of nonordinary consciousness that can help us return to the

unencumbered consciousness of our infancy He shows that just as we each create our own cosmic egg of reality through cultural conditioning we also innately create a crack in that egg Ultimately certain shifts in our biological development take place to offset acculturation leaving an avenue of return to our primary state Pearce examines the creation of the egg itself and ways to discover its inherent cracks to restore wholeness to our minds release us from our fear of death and reestablish our ability to create our own realities through imagination and biological transcendence *Marriage as Political Strategy and Cultural Expression* George Qingzhi Zhao, 2008 *Marriage as Political Strategy and Cultural Expression* is the first comprehensive study of Mongolian royal marriages from World Empire 1206 1279 to the Yuan dynasty 1279 1368 in Asia This study examines the Mongolian royal family's marriage strategies and the political implications of these royal marriages specifically the intermarriages between the Mongolian royal house and its allies including the Onggirat the Oirat and other Mongol peoples as well as the Uighur State and Korea in Central and East Asia This book concludes that the short lifespans of Mongol royalty after Khubilai Khan were the result of consanguineous marriage and inbreeding genetic factors that contributed to the collapse of the Mongol dynasty
