Van den Berghe, 1989 **From Girl to Goddess** Valerie Estelle Frankel, 2014-01-10 Many are familiar with Joseph Campbell's theory of the hero's journey the idea that every man from Moses to Hercules grows to adulthood while battling his alter ego This book explores the universal heroine's journey as she quests through world myth Numerous stories from cultures as varied as Chile and Vietnam reveal heroines who battle for safety and identity thereby upsetting popular notions of the passive gentle heroine Only after she has defeated her dark side and reintegrated can the heroine become the bestower of wisdom the protecting queen and arch crone Instructors considering this book for use in a course may request an examination copy here **Children's Emotions and Moods** Michael Lewis, 2012-12-06 No one would deny the proposition that in order to understand human behavior and development one must understand feelings The interest in emotions is enduring Yet within the discipline of psychology the study of feelings and emotions has been somewhat less than respectable a stepchild to the fields of cognitive science and psycholinguistics Perusal of the language acquisition literature reveals a greater concern among psychologists for the acquisition of prepositions than for terms that convey feelings Without question issues related to emotion its development and its measurement have been neglected in the research literature until quite recently From a developmental perspective Piaget and his followers have articulated a complex theory of transition and

change in intellectual behavior Nearly a century ago Freud proposed an elaborate theory of personality development in which some aspects of emotional growth were considered We await the construction of a comprehensive theory of emotional development Recognizing such a need we set out over a decade ago to solve what seemed to be a relatively simple problem By observing young children could one successfully classify children in terms of individual differences on emotional dimensions such as happiness fear and anger The task appeared easy One could send graduate students into a preschool and ask them to observe children for several days after which they would rank the children in terms of differences on various emotional dimensions
